NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Hickory County, Missouri

The Office of the State Auditor contracted for an audit of Hickory County's financial statements for the year ended December 31, 2021, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, CPAs and Business Advisors, is attached.

Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Hickory County

2021-001	The county periodically review its actual expenditures as compared to budgeted amounts in order to prevent expenditures in excess of budget. An amended budget should be prepared and approved as necessary to comply with statutes.

Independent Auditor's Report

To the County Commission and
Officeholders of Hickory County, Missouri

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of Hickory County, Missouri, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Hickory County, Missouri's basic financial statements as listed in the table of contents.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the accompanying financial statements present fairly, in all material respects, the cash balances of each fund of Hickory County, Missouri as of December 31, 2021, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Hickory County, Missouri as of December 31, 2021, or the changes in financial position and cash flows thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Hickory County, Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Hickory County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Hickory County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Hickory County, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Hickory County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we have also issued our report dated December 13, 2022 on our consideration of Hickory County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Hickory County, Missouri's internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

Organized in 1845, the county of Hickory was named after Andrew Jackson, "Old Hickory." It is a third-class county, and the county seat is Hermitage. The County's government is composed of a three-member board of commissioners and the following separately elected Constitutional Officers: Assessor, Circuit Clerk, County Clerk, Collector, Coroner, Treasurer, Recorder of Deeds, Sheriff, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Hickory County, Missouri.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services.

The financial statements referred to above include only the primary government of Hickory County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statement of Assets and Liabilities Arising from Cash Transactions - Custodial Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Hickory County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo., Hickory County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following fund had actual expenditures which exceeded budgeted expenditures: CARES Act/ARPA Grant Fund.

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes (continued)

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year for the purposes of taxation was as follows:

	General Revenue
Real Estate	$ 96,664,770
Personal Property	37,742,643
Railroad and Utilities	7,012,660
	$ 141,420,073

The tax levy per $100 assessed valuation of tangible taxable property for the calendar year for the purpose of County taxation, was as follows:

General Revenue	$ 0.1979
Special Road and Bridge	0.2401

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Hickory County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2021, as follows:

	Carrying Value	Bank Balances
Deposits	$ 7,732,499	$ 7,356,822
Investments	292,214	292,214
Total Deposits and Investments as of December 31, 2021	$ 8,024,713	$ 7,649,036
Total Cash and Equivalents - Governmental Funds	$ 3,911,919	
Total Cash and Equivalents - Custodial Funds	4,112,794	
	$ 8,024,713	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2021; all deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

All investments, evidenced by individual securities, are registered in the name of the County or of a type that are not exposed to custodial credit risk.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Note 2 - Deposits and Investments (continued)

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

The following investments represent more than 5%, individually, of total investments:

Issuer	Investment Type	Balance	% of Portfolio
Oak Star Bank	Cert. of Deposit	$ 292,214	100.00%

Note 3 - Long-Term Debt

In November 2020, the County entered into a lease-purchase agreement to finance the purchase of (4) 2015 John Deere 640GP Motor Graders at a cost of $532,595. The agreement requires six annual payments of $96,121, which includes interest payable at 3.25%.

The following is the changes in long-term debt for the year ended December 31, 2021:

	Balance at 1/1/2021	Amount Borrowed	Amount Repaid	Balance at 12/31/2021	Interest Paid During Year
(4) 2015 John Deere Graders	$ 436,474	$ -	$ (81,722)	$ 354,752	$ 14,399

The following is the future minimum payments for all lease obligations as of December 31, 2021:

Year Ending December 31,	Principal	Interest	Total
2022	$ 84,418	$ 11,703	$ 96,121
2023	87,203	8,918	96,121
2024	90,080	6,041	96,121
2025	93,051	3,070	96,121
	$ 354,752	$ 29,732	$ 384,484

Note 4 - Interfund Transfers

Transfers between funds for the year ended December 31, 2021 are as follows:

Fund	Transfers In	Transfers Out
General Revenue	$ 5,360	$ 340,000
Assessment	40,000	-
Recorder's User Fee	-	1,860
Collector's Tax Maintenance	-	3,500
Law Enforcement Sales Tax	300,000	-
	$ 345,360	$ 345,360

Note 5 - County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840 RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997 RSMo., and certain personnel not defined as an employee per Section 50.1000(8) RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Note 5 - County Employees' Retirement Fund (CERF) (continued)

Contributions

Prior to January 1, 2003, participating county employees were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002 are required to make contributions of 6%. If any employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee. The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 6% contribution on behalf of employees. During 2021, the County collected and remitted to CERF, employee contributions of $67,316 for the year ended.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchants' and manufacturers' license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of $108,402 for the year ended December 31, 2021.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 6 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo., the County contributes annually to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $3,366 for the year ended December 31, 2021.

Note 7 - Other Retirement Plans

Hickory County has 457 and 401(a) plans administered by Empower Retirement which are paid by a deduction from employees' salary. These contributions qualify under the Internal Revenue Code and are tax exempt. Employee contributions collected and remitted by the County for the year ended December 31, 2021 for the 457 plan were $16,771, and employee contributions collected and remitted by the County for the year ended December 31, 2021 for the 401(a) plan were $8,464.

Note 8 - Post-Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Compensated Absences

The County provides employees with up to 15 days of paid vacation based upon the number of years of continuous service. Regular full-time employees who have worked beyond their probationary period with the County who either retire or leave by some other separation shall receive compensation for all accumulated unused sick time leave up to 15 days total. Every employee is expected to take at least some vacation time every year. If the maximum has been accrued by an employee, any further days earned will be lost. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make specific assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2021 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through December 13, 2022, the date the financial statements were available to be issued.

Note 11 - Subsequent Events (continued)

In May 2022, the County entered into a lease-purchase agreement to finance the purchase of (1) 2021 CAT 140GC-01 Motor Grader and (1) 2022 CAT 140GC-01 Motor Grader at a cost of $567,109. The agreement requires a down payment of $115,500 and seven annual payments of $74,271, which includes interest payable at 3.59%.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Hickory County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Hickory County, Missouri as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Hickory County, Missouri's basic financial statements, and have issued our report thereon dated December 13, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Hickory County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Hickory County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Hickory County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Hickory County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under

Government Auditing Standards, and which is described in the accompanying schedule of findings and responses as item 2021-001.

Hickory County, Missouri's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Hickory County, Missouri's response to the findings identified in our audit and described in the accompanying schedule of findings and responses. Hickory County, Missouri's response was not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Creve Coeur, Missouri
December 13, 2022

The County of Hickory
Hermitage, Missouri
Schedule of Findings and Reponses
For the year ended December 31, 2021

Financial Statement Findings

2021-001 **Criteria:** Missouri statutes require Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget.

Condition: During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following fund had actual expenditures which exceeded budgeted expenditures: CARES Act/ARPA Grant Fund.

Cause: Oversight

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts in order to prevent expenditures in excess of budget. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2022.

The County of Hickory
Hermitage, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2021

In accordance with *Government Auditing Standards,* this section reports the auditor's follow-up on action taken by Hickory County, Missouri, on the applicable findings in the prior audit report issued for the year ended December 31, 2020.

Prior Year Financial Statement Findings

2020-001 **Criteria:** Statement on Auditing Standards (SAS) No. 115, *Communicating Internal Control Related Matters Identified in an Audit,* which is effective for periods ending on or after December 15, 2009, as amended by SAS No. 122, *Statements on Auditing Standards: Clarification and Recodification,* considers inadequate documentation of the components of internal control to be at least a significant deficiency.

Condition: Documentation of the County's internal controls has not been prepared.

Context: During discussions with management, we noted that internal control documentation has not been prepared.

Effect: SAS 122 considers inadequate documentation of the components of internal control to be at least a significant deficiency. Without documented internal controls, the County may not be able to ensure that controls are in place, communicated and operating effectively.

Cause: The County did not prepare the required documentation.

Recommendation: We recommend that the County develop the required internal control documentation. In addition, we recommend studying the COSO internal control guidance and tools as a means to begin the process. Once this documentation is complete, those charged with governance have a responsibility to understand the controls and ensure they are operating effectively.

Management's Response: The County has started researching the COSO internal control guidance and will begin the process of internal control documentation in the County Commission's office. The expected completion date is December 31, 2021. The phone number for the Clerk's office is (417) 745-6450.

Status: The County has implemented appropriate corrective actions, therefore, this finding will not be repeated.

2020-002 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Context: During discussions with management, we noted there was no formal fraud risk assessments implemented.

Effect: Lack of an appropriate risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may go undetected by management without proper assessment procedures.

Cause: Management has not prepared documentation of risk assessments, including identified risks and mitigating controls.

Prior Year Financial Statement Findings (continued)

2020-002 (cont.)

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County has begun to address the preparation of fraud prevention and risk preparing in all the offices. The expected completion date is December 31, 2021. The phone number for the Clerk's office is (417) 745-6450.

Status: The County has implemented appropriate corrective actions, therefore, this finding will not be repeated.

Prior Year Federal Award Findings

2020-003

Federal Grantor:	All Programs
Pass-Through Grantor:	All Programs
Federal CFDA Number:	All Programs
Program Title:	All Programs

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200 requires auditees to prepare an accurate Schedule of Expenditures of Federal Awards (SEFA) containing awards expended, CFDA title and number, award number, name of the Federal agency, and name of pass-through entity.

Condition: Management has not implemented internal controls related to the preparation of the Schedule of Expenditures of Federal Awards (SEFA). During our audit we noted the SEFA contained errors.

Effect: Federal expenditures reported in the SEFA were incorrect.

Cause: Management did not follow reporting requirements related to the Schedule of Expenditures of Federal Awards.

Recommendation: We recommend management develop internal controls over reporting to ensure an accurate SEFA is prepared.

Management's Response: Title 2 U.S. *Code of Federal Regulations* Part 200 is being reviewed and training sessions will be initiated by the County Clerk's office. The County Clerk is working towards capturing grant transactions in a manner sufficient to readily report the necessary information required on the SEFA by the next audit period. The expected completion date is December 31, 2021. The phone number for the Clerk's office is (417) 745-6450.

Status: Follow up will be performed during the County's next Single Audit.

CITIZENS SUMMARY

Summary of findings in the audit of the City of Dixon

Misappropriated Money

From November 2013 through March 2020, money totaling at least $18,910 was misappropriated from the city, including payroll overpayments made to the City Clerk for vacation leave, sick leave, severance pay, holiday pay, and inaccurate rates of pay. Between April 9, 2015, and March 13, 2020, the City Clerk was improperly paid $9,345 for 600 hours of vacation leave in violation of city policy. The City Clerk overpaid himself $3,026 for accrued sick leave upon retirement due to inaccurate leave records maintained by the City Clerk. The City Clerk paid himself $2,639 more than allowed by policy for severance pay. The City Clerk paid himself $2,695 for holidays in excess of those provided by ordinance. The City Clerk inaccurately recorded his hourly rate in the payroll system, resulting in $1,205 in overpayments. In addition, questionable overtime payments and unsupported expense reimbursements were paid to the City Clerk.

Oversight and Segregation of Duties

The Board did not establish adequate oversight of the City Clerk or segregation of duties over the various financial accounting functions. The Board did not adequately monitor the city's payroll and employee reimbursement activity. The City Clerk also signed his own payroll and reimbursement checks and had access to a former Mayor's signature stamp.

Payroll Controls and Procedures

The City Clerk paid himself $96,679 for overtime worked during his employment in violation of city ordinance. The city does not have ordinances establishing the amount of compensation of some city officials and employees. Ordinances and personnel policies are poorly maintained. Payroll was not adequately reviewed and approved by the Board. The City Clerk did not provide detailed monthly payroll reports for the Board's review. Bi-monthly/bi-weekly timesheets of the City Clerk were not always retained, and timesheets retained were not always signed by the City Clerk or supervisor to document approval and review of time worked. The City Clerk's personnel file did not contain documentation of changes in his pay rate during his employment. In addition, the City Clerk was paid hourly rates not supported by the rate of pay report generated from the city's accounting system. The City Clerk did not timely file 941 forms and remit applicable payroll taxes to the Internal Revenue Service (IRS).

Expense Reimbursements

The Board did not document its review and approval in meeting minutes or on supporting documentation of any of the 21 expense reimbursements totaling $5,153 made to the City Clerk during his employment. In addition, supporting documentation was not maintained for 11 of these reimbursements, totaling $2,407.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Dixon, Missouri

We have audited certain operations of the City of Dixon as they relate to the city finances in fulfillment of our duties under Chapter 29, RSMo. Due to the concerns regarding misappropriated money, the State Auditor initiated the audit with the approval of the City of Dixon Board of Aldermen. The scope of our audit included, but was not necessarily limited to, the period of November 1, 2013, through March 31, 2020. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

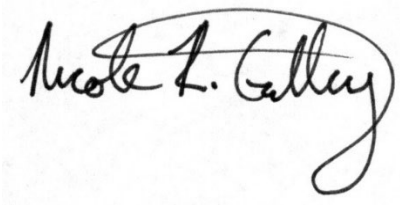
4. Determine the extent of money misappropriated and/or missing from the city, if any.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; and interviewing various personnel of the city, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) money misappropriated from the city totaling at least $18,910. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Dixon.



Nicole R. Galloway, CPA
State Auditor

Background

The former City Clerk of Dixon, Jessie Fleming, began employment November 6, 2013, and served until March 13, 2020, when he retired.

The City Clerk[1] was primarily responsible for the following city functions and records:

- Payroll - Employees prepared timesheets, and timesheets were submitted to the City Clerk for processing. The City Clerk recorded pay rates; hours worked, including overtime; holidays; and vacation and sick leave used or paid into the electronic accounting system. The City Clerk prepared, signed, and distributed payroll checks (including his own). The Mayor and/or Mayor Pro Tem also signed payroll checks. Employees were paid every two weeks.

- Disbursements - The City Clerk maintained supporting documentation of disbursements, including invoices, statements, and employee expense reimbursement forms; prepared, signed, and distributed checks; recorded payments in the electronic accounting system; and transferred money between bank accounts. The Mayor and/or Mayor Pro Tem also signed checks.

- Reporting - The City Clerk prepared Board meeting minutes and generated monthly financial reports from the accounting system for Board review.

In March 2022, the Missouri State Highway Patrol (MSHP) contacted the State Auditor's Office (SAO) and requested assistance with its investigation of overpayments made to the City Clerk. On April 8, 2022, the City of Dixon Board of Aldermen passed an ordinance formally requesting and authorizing an audit by the SAO, and the SAO subsequently agreed to conduct the audit under Chapter 29, RSMo.

On September 21, 2022, SAO auditors recorded an interview with the City Clerk. The SAO issued a subpoena to the City Clerk (see Appendix A) to compel him to produce records and documents related to his testimony. Appendix A includes redactions. These redactions are of information of a personal, privileged, or sensitive nature, and/or of information that is not directly related to the information requested in the subpoena. SAO auditors also recorded interviews with current and former Board members and requested copies of any city records they possessed that supported their statements.

[1] The former City Clerk is referred to as the City Clerk throughout the remainder of this report.

The city's fiscal year is October 1 through September 30. The scope our audit included, but was not necessarily limited to the period November 1, 2013, through March 31, 2020. We applied procedures to city disbursements (including payroll) to identify the amount of misappropriated money and methods used to perpetrate and conceal the theft.

1. Misappropriated Money

From November 2013 through March 2020, money totaling at least $18,910 was misappropriated from the city, including payroll overpayments made to the City Clerk for vacation leave, sick leave, severance pay, holiday pay, and inaccurate rates of pay. In addition, questionable overtime payments and unsupported expense reimbursements were paid to the City Clerk as noted in Management Advisory Report (MAR) findings numbers 3.1 and 4.

The following table provides a summary of the amounts misappropriated and identifies the appendix where specific details are reported.

Description		Amount
Vacation pay (Appendix B)	$	9,345
Sick leave pay (Appendix B)		3,026
Severance pay (Appendix B)		2,639
Holiday pay		2,695
Inaccurate rate of pay		1,205
Total	$	18,910

Vacation pay

Between April 9, 2015, and March 13, 2020, the City Clerk was improperly paid $9,345 for 600 hours of vacation leave in violation of city policy (see Appendix B).

Accrued vacation leave payments

The City Clerk issued himself 5 checks and was issued 1 direct deposit payment during 2015, 2016, 2017, and 2019 for accrued vacation leave totaling $8,686 in violation of city ordinance and policy.

Ordinance number 463 stated vacation leave ". . . may be taken by the employee with pay at his or her regular, pro-rated salary or hourly rate. All vacation time must be taken by the employee within one (1) year after it is earned or **the right to use such time shall be forfeited.**" [Emphasis added.] In addition, the city's personnel policy stated, "An employee exceeding the maximum hours of accrued vacation on their anniversary date of each year will **lose** any hours exceeding the maximum carryover **unless specifically approved in writing** to the City Mayor prior to the end of the fiscal year. The written approval will state all terms and conditions of the approved **extension**." [Emphasis added.] Neither Ordinance 463 nor the city's personnel policy provided for the payout of accrued vacation except upon separation, and the City Clerk did not obtain written approval for an extension from the Mayors[2] in office when these payments were made. Therefore, these payments are improper.

[2] Jeff Clark served as Mayor from October 29, 2012, to April 15, 2015; Shawn Wethington served as Mayor from April 15, 2015, to April 13, 2018; Betty Thilges served as Mayor Pro-Tem from April 18, 2018, to June 1, 2018, in absence of a Mayor; and Mycal "Mike" Brown served as Mayor from June 1, 2018, to April 15, 2019.

At least 4 of the 5 checks were signed by the City Clerk. We could not obtain the check image of the remaining check issued in 2015 from the city's bank to determine who signed the check and we could not determine who authorized the direct deposit. However, in a recorded interview with the City Clerk, he indicated he signed all city checks.

A signature stamp of the then Mayor[3] was used for the second required signature on 3 of the 4 checks we obtained. That Mayor indicated in a recorded interview that the City Clerk had access to and used his signature stamp, and he did not recall reviewing or approving the 3 checks issued to the City Clerk during 2016 and 2017 for the payout of vacation leave. This same Mayor also indicated a detailed payroll report showing the hours and leave each employee was paid was not submitted for his or the Board's review and approval. Therefore, it is unlikely he or the Board were aware of details of payroll checks issued to the City Clerk.

The check stub of 1 of the 4 checks with an image issued to the City Clerk for vacation leave indicated, "Approved by Mayor Brown," as noted below.[4] In a recorded interview with the City Clerk, he indicated this notation was made in his own handwriting.

CITY OF DIXON

[3] Shawn Wethington served as Mayor from April 15, 2015, to April 13, 2018.

[4] The redactions are of information of a personal, privileged, or sensitive nature.

In addition, as noted in the image below,[5] the second required signature on his check (check number 44072) was the signature of the then Mayor Pro Tem[6] and not Mayor Brown. During a recorded interview, the City Clerk did not explain why he would indicate Mayor Brown approved this payment on the check stub when the then Mayor Pro Tem signed the check.

In a recorded interview with the then Mayor Pro Tem, she indicated checks were sometimes brought to her workplace by the City Clerk for her to sign. She also indicated payroll stubs were not presented to the Board for review and approval. Therefore, it is unlikely the Mayor Pro Tem was aware of the details of this check upon signing.

In addition, even if the payout of vacation leave had been allowed by ordinance or policy, several of the improperly issued checks for vacation leave exceeded the amount of vacation leave allowed to be accrued based on the City Clerk's years of service. Ordinance number 463 provided for an employee to accrue 40 hours of vacation leave during the first year of employment, 80 hours of vacation leave from the second year through the 14th year of employment, and 120 hours of vacation leave upon reaching the 15th year of employment. In addition, the city's personnel policy provided for an employee to accrue 40 hours of vacation leave during the first year of employment, 80 hours of vacation leave from the second year through the 10th year of employment, and 120 hours of vacation leave from the 10th year of employment to the 15th year of employment. The City Clerk was only employed 6 years at the time of his retirement, but issued himself checks for 120 hours of accrued vacation in 2016, 200 hours of accrued vacation in 2017, and 120 hours of accrued vacation in 2019, when ordinance and policy only

[5] The redactions are of information of a personal, privileged, or sensitive nature.

[6] Betty Thilges served as Mayor Pro Tem, and signed this check in absence of the Mayor.

allowed the accrual of 80 hours in each of those years based upon his years of service.

Vacation leave payments upon separation

The City Clerk overpaid himself $660 for 40 hours of accrued vacation upon separation. During his last 2 months of employment, the City Clerk issued himself three checks totaling $1,980 ($660 each) for a total of 120 hours (40 hours each) of vacation leave in violation of city ordinance and policy. The City Clerk issued himself a $660 check for 40 hours of vacation on February 4, 2020, again on February 18, 2020, and then again on March 3, 2020. The City Clerk and the then Mayor[7] signed these 3 checks. In recorded interviews, neither the City Clerk nor the then Mayor could explain why 3 separate checks were issued for vacation leave, why checks were issued prior to the City Clerk's date of separation on March 13, 2020, or why 120 hours of vacation was paid when ordinance and policy only allowed 80 hours based on the City Clerk's years of employment.

Ordinance 463 states, "An employee entitled to vacation leave who has resigned or whose services have been otherwise terminated, shall be entitled to receive reimbursement for all such accrued leave computed and paid on the basis of said employee's regular or hourly rate." City policy states, "An employee will be paid for all allowable accrued vacation upon separation." The City Clerk should have accrued only 80 hours of vacation leave on his anniversary date of November 6, 2019, in accordance with ordinance and policy, and he used no vacation leave (other than what he was paid) from November 6, 2019, through his separation date on March 13, 2020. In addition, in recorded interviews, a then Alderman (current Mayor)[8] and the then Mayor[7] indicated the Board (excluding the then Mayor) was not presented or made aware of these 3 checks issued to the City Clerk for vacation leave, until after the City Clerk's retirement.

Sick leave payment

The City Clerk overpaid himself $3,026 for accrued sick leave upon retirement. The City Clerk issued himself a $3,179 check on March 13, 2020, for payment of 192.76 hours of accrued sick leave based on amounts recorded in the city's accounting system; however, these records were not accurate. Our review and recalculation of the City Clerk's sick leave indicated his accrued sick leave balance was only 9.25 hours on March 13, 2020, and he should have only been paid $153 upon retirement for sick leave. The City Clerk's incorrectly recorded sick leave in the accounting system is noted in the following table:

[7]Allan Kuehl served as Mayor from April 15, 2019, until June 23, 2020.

[8] Mike Null served as an Alderman from April 15, 2019, until June 23, 2020, Mayor Pro Tem/Alderman from June 23, 2020, until April 19, 2021, and as Mayor from April 19, 2021, to present.

Sick Leave Recorded in Accounting System

Year Ended December 31,	Sick Leave Accrued (1)	Sick Leave Used	Cumulative Sick Leave Balance
2013	16.00	5.84	10.16
2014	108.00	62.11	56.05
2015	112.00	72.99	95.06
2016	112.00	77.20	129.86
2017	132.00	40.00	221.86
2018	118.00	72.00	267.86
2019	144.00	154.10	257.76
2020	28.00	93.00	192.76
Total	770.00	577.24	

(1) Sick leave accrued was determined based upon the sick leave balance recorded at the beginning and ending of each year, and the amount of recorded sick leave used.

The city's personnel policy indicated, "An employee scheduled to work a regular 40-hour workweek will accrue sick leave at the rate of eight (8) hours per month," or 96 hours of sick leave for a full year of service, rather than the 108 to 144 hours per year claimed by the City Clerk. In addition, Ordinance 463 indicated, "Before the expiration of the ninety (90) day probationary period, employees will not be allowed any absences based upon sick leave," and the personnel policy also indicated, "sick leave does not accrue during the first 90 day probationary period." As a result, 24 hours of sick leave were recorded in the accounting system during the City Clerk's probationary period in violation of ordinance and policy. The City Clerk often made entries into the system indicating, "CHANGED THROUGH YEARLY ACCRUAL." However, it is unclear why these entries were made and they are not consistently included for the various sick leave entries. Further, calculation errors of sick leave were noted in the accounting system. As a result, of these differences, auditors recalculated the City Clerk's sick leave balances in the table below:

Sick Leave per Audit

Year Ended December 31,	Sick Leave Allowed (1)	Sick Leave Used	Sick Leave Balance
2013	0.00	5.84	(5.84)
2014	87.14	62.11	19.19
2015	96.00	72.99	42.20
2016	96.00	77.20	61.00
2017	96.00	40.00	117.00
2018	96.00	72.00	141.00
2019	96.00	154.10	82.90
2020	19.35	93.00	9.25
Total	586.49	577.24	

(1) The first and last month in which sick leave was allowed was prorated based on the days worked.

Accounting records showed the City Clerk sometimes recorded 4 hours of sick leave during each 2-week pay period for a total of 8 hours a month in compliance with policy. However, our review of the accounting records showed the City Clerk improperly recorded 4 hours of accrued sick leave twice in the electronic accounting system on several of the same dates, and sometimes improperly recorded 4 hours of accrued sick leave just a few days after the initial recording of accrued sick leave. As a result, for 16 months the City Clerk improperly recorded 12 hours of accrued sick leave, for another 6 months he improperly recorded 16 hours of accrued sick leave, for 2 other months he improperly recorded 20 hours of accrued sick leave, and for 1 month he improperly recorded 22 hours of accrued sick leave instead of the 8 hours per month allowed by policy. Several other instances were noted in which sick leave accrued was recorded improperly. All of these discrepancies are included in the Sick Leave Recorded in Accounting System table above.

The personnel policy stated, "Full time employees will also receive payment of up to 240 hours of sick leave he has on the official City records at the time of retirement."

Severance payment

The City Clerk issued himself a $3,958 check for 240 regular hours of work on February 27, 2020, but city policy only provided for the payment of 80 hours of severance pay or $1,319 upon retirement, resulting in an overpayment of $2,639. The City Clerk and then Mayor[9] signed this check. During recorded interviews, the City Clerk and the then Mayor indicated this check for 240 regular hours worked represented a severance payment; however, neither could explain why the check was issued prior to the City Clerk's date of separation on March 13, 2020, or why it was more than allowed by city policy.

During the same recorded interview, the then Mayor also indicated he consulted various entities specializing in payroll issues regarding the amount to pay the City Clerk in severance pay; however, he had no documentation to support any guidance provided.

The City Clerk responded to a subpoena with guidance that had been provided to him for calculation of the severance payment. This guidance indicated, "For example, a severance contract could include a severance pay term granting one week's pay for each year of service to the employer. Although not required, some employers may also offer other severance benefits, such as job counseling or payment of COBRA expenses, as part of an overall severance 'package.'" He also indicated that this information was found on "the web." Using this guidance, he calculated his severance payment as 40 hours (1 week) for each of his 6 years of service, or 240 hours. However, our

[9] Allan Kuehl served as Mayor from April 15, 2019, until June 23, 2020.

research[10] noted immediately following the language provided in the City Clerk's guidance there is a statement that, "No set amount of severance pay is required unless the severance pay is required by a union contract, **company policy manual**, or some other employment contract. Severance pay is frequently based on length of service." [Emphasis added.] The city's personnel policy indicated "Full-time employees upon retirement from the City service will be entitled to severance pay equal to two (2) weeks actual salary at the time of retirement" or 80 hours (40 hours for each of the 2 weeks) of severance pay. The policy also indicated, "This applies to retirement only when City employees have attained 20 continuous years of service or meet the requirements for pension benefits under the provisions of the various City pension plans." We confirmed with the city's pension plan provider that the City Clerk met the requirements for pension benefits.

In recorded interviews, a former Alderman (current Mayor)[11] and the then Mayor[12] indicated the Board (excluding the then Mayor) was not presented or made aware of the severance payment, until after the City Clerk's retirement.

Holiday pay

The City Clerk paid himself $2,695 for holidays in excess of those provided by ordinance during the period he was employed as follows:

[10] Legal Aid at Work, *Severance Agreement and Release of Claims Fact Sheet*, is available at <https://legalaidatwork.org/factsheet/severance-agreement-and-release-of-claims-fact-sheet/#:~:text=For%20example%2C%20a%20severance%20contract,an%20overall%20severance%20%E2%80%9Cpackage.%E2%80%9D>, accessed November 30, 2022.

[11] Mike Null served as an Alderman from April 15, 2019, until June 23, 2020, Mayor Pro Tem/Alderman from June 23, 2020, until April 19, 2021, and as Mayor from April 19, 2021, to present.

[12] Allan Kuehl served as Mayor from April 15, 2019, until June 23, 2020.

Date of Check	Recognized Holidays During Pay Period	Number of Holiday Hours Paid	Number of Holiday Hours per Ordinance	Number of Holiday Hours Overpaid	Hourly Rate of Pay (1)	Amount of Overpayment

	Total	336	152	184		$2,695

(1) Hourly rate of pay according to rate of pay reports from the city's accounting system.

(2) Payroll records could not be located for October through December 2016 to determine if any additional inappropriate hours for holidays were paid.

Ordinance 463 allows the following holidays be recognized by the city: New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Memorial Day, Independence Day, Labor Day, Veterans' Day, Thanksgiving Day, Day after Thanksgiving, and Christmas Day.

A conflicting personnel policy indicated the following additional holidays would be recognized by the city: Columbus Day, half day for Dixon Cow Days, and half day for Christmas Eve. However, because the personnel policy was not adopted as an ordinance, Ordinance 463 supersedes the personnel policy. In addition, the City Clerk stated that he did not refer to the policy when he determined the holidays to be paid. Had the personnel policy been adopted as a city ordinance, the City Clerk would still have been overpaid approximately $1,388 for 96 improper holiday hours.

Inaccurate rate of pay

The City Clerk inaccurately recorded his hourly rate in the payroll system, resulting in $1,205 in overpayments.

The City Clerk incorrectly recorded his hourly rate of pay for some pay periods as $14.25 in the payroll system instead of $12.25 from November 19, 2015, to January 12, 2016, resulting in overpayments of at least $1,025. The City Clerk was overpaid $340 with a check issued on November 19, 2015, $423 with a check issued on December 3, 2015, and $262 with a check issued on January 12, 2016. City records could not be located for 2 other checks issued during December 2015, and as a result, additional overpayments could have been made during this time period. According to a rate of pay report from the city's accounting system, the City Clerk was to be paid an hourly rate of pay of $12.25 from April 5, 2015, to January 13, 2016.

In addition, the City Clerk incorrectly recorded his hourly rate of pay as $371.06 per hour instead of $11.75 per hour in the accounting system for 0.50 hours of work in December 2014, resulting in an overpayment of $180, as shown below:[13]

	HOURS	RATE	METH	TYP	EXTEND MAX	C-CTR	ID		AUTO	FREQ	TIME BASIS	CL	FED	SS MED	ST PEN	OTH LOC	DED CK CD	OT	ACCRUE OT RATE

Conclusion

When questioned during a recorded interview regarding potential overpayments of vacation hours, sick leave hours, severance pay, and holidays, the City Clerk stated, "I'm willing to redo that" (vacation), "I mean if I overcharged myself with leave I will pay that back that's no biggie" (vacation), "I will correct that" (sick leave), "I don't have a problem repaying it back" (severance pay), "I'd say it's an error, I'll correct the error, I'll pay it, I don't have a problem" (holidays), and "Any discrepancies that you feel is

[13] These redactions are of information of a personal, privileged, or sensitive nature.

wrong, I don't have a problem making it right" (holidays). When we asked during the recorded interview if the City Clerk would be willing to pay all the overpayments back, he responded, "Yes, I don't have a problem with it." The lack of segregation of duties and adequate controls, and the absence of proper oversight, as discussed in the remainder of this report, resulted in these overpayments, as well as questionable overtime and unsupported reimbursements (see MAR finding numbers 3.1 and 4) going undetected.

Recommendation

The Board of Aldermen work with law enforcement officials regarding criminal prosecution of the overpayments and take the necessary actions to obtain restitution.

Auditee's Response

We will work with law enforcement officials regarding criminal prosecution of the overpayments and take the necessary actions to obtain restitution.

2. Oversight and Segregation of Duties

The Board did not establish adequate oversight of the City Clerk or segregation of duties over the various financial accounting functions. The Board did not adequately monitor the city's payroll and employee reimbursement activity. As noted in MAR finding number 1, the City Clerk also signed his own payroll and reimbursement checks and had access to a former Mayor's signature stamp.

The City Clerk's signature on checks to himself was 1 of the 2 required signatures. Allowing the City Clerk to sign his own checks while also allowing access to a signature stamp for the other required signature negates the controls intended by requiring 2 signatures on all checks. Additional weaknesses identified throughout this report are significant and demonstrate a lack of segregation of duties and proper oversight by the Board that led to the misappropriations noted in MAR finding number 1.

Proper segregation of duties helps ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, timely supervisory or independent reviews of work performed and investigation into unusual items and variances is necessary. Good management practices require extensive and detailed oversight by the Board. Dual independent authorized signatures help provide assurance that checks represent payment for legitimate city disbursements. To effectively strengthen internal controls, one individual should not be performing all accounting duties related to processing disbursements (including payroll) and also have unrestricted access to a signature stamp. Board members were not aware of the importance of providing adequate oversight, ensuring dual independent authorized signatures are on all checks, and restricting access to the signature stamp.

A similar condition was noted in our prior report, No. 2015-007, *City of Dixon*, issued in February 2015 and in our follow-up report, No. 2015-89,

Follow-Up Report On Audit Findings City of Dixon, issued in September 2015.

Recommendation

The Board of Aldermen segregate accounting duties to the extent possible, implement appropriate reviews and monitoring procedures, require dual independent signatures on all checks, and establish proper controls over signature stamps.

Auditee's Response

We have segregated accounting duties to the extent possible, have implemented appropriate reviews and monitoring procedures, require dual independent signatures on all checks (no one signs their own checks), and we no longer have any signature stamps.

3. Payroll Controls and Procedures

Significant improvement over payroll controls and procedures is needed. As noted in MAR finding number 1, we reviewed the City Clerk's payroll during his employment from November 6, 2013, through March 13, 2020.

3.1 Ordinances and personnel policies

The City Clerk did not always follow city ordinances and/or personnel policies, and ordinances are not complete.

- The City Clerk did not always follow city ordinances and/or personnel policies regarding compensation, vacation and sick leave, severance pay, and holidays, as noted in MAR finding number 1.

- The City Clerk paid himself $96,679 for overtime worked during his employment in violation of city ordinance.

  Ordinance number 249 only allowed for compensatory time to be earned and subsequently taken off for any overtime worked. In contrast, the city's personnel policy provided for the payment of overtime for hours worked in excess of 40 hours in a work week or for hours worked in excess of 8 hours in a work day. However, city ordinance prevails over personnel policies. The City Clerk's timesheets indicated that he typically recorded overtime when he worked over 40 hours in a work week, which complies with the policy, but not the ordinance. As a result of the inconsistencies in ordinance and policy, these overtime payments are questionable.

- The city does not have ordinances establishing the amount of compensation of some city officials and employees.

- Ordinances and personnel policies are poorly maintained. Some ordinances were not complete, and ordinances or personnel policies were contradictory or inconsistent.

Because ordinances passed by the Board to govern the city and its residents have the force and effect of law, it is important they are complete and

followed. In addition, complete, consistent, and updated ordinances and personnel policies documenting approved compensation, leave, severance pay, holidays, and overtime help ensure equitable treatment and prevent misunderstandings. Section 79.270, RSMo, authorizes the Board to fix the compensation of city officials and employees by ordinance. The Board indicated it was unaware of the importance of updating city ordinances and personnel policies.

A similar condition was noted in our prior report, No. 2015-007, *City of Dixon*, issued in February 2015.

3.2 Board review and approval process

Payroll was not adequately reviewed and approved by the Board. The City Clerk did not provide detailed monthly payroll reports for the Board's review. The only payroll information provided to the Board was summarized in a financial report that did not include any details such as rate of pay, number of hours, type of hours, or leave balances. Former Board members and former Mayors indicated they signed payroll checks, but did not review detailed payroll reports or timesheets showing the hours worked, holidays, or leave earned and taken by the City Clerk.

By reviewing monthly payroll reports, documenting this review, and periodically questioning and reviewing supporting documentation, the Board can help safeguard against possible loss or misuse of funds. Had the Board reviewed payroll reports, the overpayments noted in MAR finding number 1 could have been questioned. The Board indicated it was unaware of the importance of performing and documenting a payroll review, and of approval processes.

3.3 Timesheets

Bi-monthly/bi-weekly timesheets of the City Clerk were not always retained, and timesheets retained were not always signed by the City Clerk or supervisor to document approval and review of time worked.

Timesheets were not retained for 51 of 166 of pay periods from November 6, 2013, through March 13, 2020. The City Clerk also did not sign 94 of his 115 timesheets, and his supervisors (former Mayors) did not sign 101 of the 115 timesheets. The Board indicated it was unaware of the importance of reviewing the City Clerk's timesheets and related payments.

Without adequate timesheets, the city cannot ensure hours worked are properly documented. To ensure the accuracy of the hours worked, timesheets should be signed by the employees and reviewed and approved by a supervisor.

3.4 Personnel files and pay rates

The City Clerk's personnel file did not contain documentation of changes in his pay rate during his employment. In addition, as noted in MAR finding

number 1, the City Clerk was paid hourly rates not supported by the rate of pay report generated from the city's accounting system.

To ensure documentation is maintained of all personnel actions, personnel files containing, at a minimum, documentation of the board's authorization for hiring the employee, the employee's authorized pay rate, and any subsequent changes in pay rate are necessary. Without adequate personnel records, there is less assurance payments to employees are properly authorized. Board members were not aware of the importance of ensuring pay rates were documented in employee personnel files.

3.5 Payroll taxes

As noted in the prior audit and follow-up reports, both issued in 2015, the City Clerk did not timely file 941 forms and remit applicable payroll taxes to the Internal Revenue Service (IRS). The City Clerk did not timely remit applicable payroll taxes for 10 of the 11 quarters from January 2016 to September 30, 2018, resulting in assessments of penalties and interest totaling $9,493. The City Clerk also did not file form 941 for the first quarter of 2017 (due on April 30, 2017) until April 5, 2018, resulting in penalties and interest of $1,671.

The lack of procedures and an independent review of payroll records and transactions allowed this problem to occur without detection for an extended time period. The Internal Revenue Code requires employers to file a 941 form by the last day of the month following the end of the quarter, along with payment of Social Security and Medicare taxes withheld from the employee and the employer's share, as well as federal income taxes withheld.

Recommendations

The Board of Aldermen:

3.1 Ensure city ordinances and personnel policies are followed, establish the compensation of all city officials and employees by ordinance, and ensure ordinances and personnel policies are maintained in a complete and well-organized manner.

3.2 Ensure detailed payroll reports are prepared and compared to employee timesheets, and the Mayor's and Board's reviews of the payroll reports are documented.

3.3 Ensure timesheets are retained and properly signed and approved, and reviews of timesheets are performed to ensure the propriety of payroll payments.

3.4 Ensure pay rates are documented in personnel files for all city employees.

3.5 Establish procedures to ensure payroll taxes are filed and remitted to the appropriate taxing entity timely.

Auditee's Response

3.1 We will ensure city ordinances and personnel policies are followed. We will establish the compensation of all city officials and employees by ordinance in the next 6 months. We re-codified ordinances on August 1, 2022, and eliminated any inconsistencies between ordinances and personnel policies.

3.2 We will ensure detailed payroll reports are prepared and compared to timesheets, and the Mayor and Board will document their review of payroll reports at each monthly meeting.

3.3 The employee, the employee's supervisor, and the Mayor now sign and review all timesheets. We will retain and make all timesheets available to the Board at monthly meetings.

3.4 We will ensure pay rates are documented and retained in personnel files for all city employees.

3.5 We have established procedures to ensure payroll taxes are remitted timely and will establish a procedure to ensure payroll tax forms are filed timely.

4. Expense Reimbursements

The Board did not document its review and approval in meeting minutes or on supporting documentation of any of the 21 expense reimbursements totaling $5,153 made to the City Clerk during his employment. In addition, supporting documentation was not maintained for 11 of these reimbursements, totaling $2,407, as noted in the table below:

Check Date	Check Number	Purpose per Accounting Records	Check Amount
04/09/2014	36736	Wi-Fi router	$ 130
04/17/2014	36817	Clerk's computer	105
05/01/2014	36874	Dell computer/office 2013	700
05/13/2015	38565	External hard drive police department	119
05/27/2016	40350	Thumb drives for Council	59
10/20/2016	40969	Computer for police department	520
10/27/2016	40993	Computer for police department	470
02/09/2017	41475	Reimbursement for records	33
06/02/2017	41956	Travel reimbursement	101
10/30/2017	42513	Sewer plant and Court Clerk toner	124
03/01/2018	43009	Thermal paper rolls/overnight paperwork	46
		Total	$2,407

In addition, other expense reimbursements made to the City Clerk were questionable. For example, a mileage reimbursement form was completed in a former City Clerk's name[14] containing expenses for a trip taken on November 13, 2013, but the mileage was reimbursed to the City Clerk on December 3, 2013. He was reimbursed for 52 miles for this trip to attend training in St. Roberts, Missouri when the mileage to and from Dixon was only 36 miles.

Also, at least 20 of the 21 reimbursement checks were signed by the City Clerk. We could not obtain a check image of the remaining check issued in 2015 to determine who signed the check. However, in a recorded interview the City Clerk indicated he signed all city checks. A signature stamp of the then Mayor[15] was also used for the second required signature on 8 of the 20 reimbursement checks with images. The then Mayor indicated in a recorded interview, that the City Clerk had access to and used his signature stamp, and he did not recall subsequently reviewing or approving documents in which his signature stamp was used.

Failure to properly review all invoices and supporting documentation increases the possibility of inappropriate disbursements. Additionally, authorization for payment should be clearly indicated. Requiring dual independent authorized signatures and limiting access to signature stamps help provide assurance that checks represent payment for legitimate city disbursements. Board members indicated they were not aware of the importance of retaining, reviewing, and approving supporting documentation of expense reimbursements, ensuring dual independent authorized signatures are on all checks, and restricting access to signature stamps.

A similar condition was noted in our prior report, No. 2015-007, *City of Dixon*, issued in February 2015.

Recommendation

The Board of Aldermen maintain adequate supporting documentation for all expense reimbursements, and ensure invoices are adequately reviewed and approved.

Auditee's Response

We have limited the number of expense reimbursements, are maintaining supporting documentation for any reimbursements paid, and are reviewing and approving all reimbursements.

[14] James Poucher was the City Clerk from January 9, 2012, through November 18, 2013.
[15] Shawn Wethington served as Mayor from April 15, 2015, to April 13, 2018.

City of Dixon
Organization and Statistical Information

The City of Dixon is located in Pulaski County. The city was incorporated in 1889 and is currently a fourth-class city. The city employed 14 full-time employees and 1 part-time employee on March 13, 2020. City operations include utility services (water, sewer, and trash), police, maintenance of streets, a library, and a city park.

The Mayor and Board of Aldermen

The city government consists of a mayor and 6-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor is paid $200 per month and Board of Aldermen members are paid $100 per month. The Mayor and Board of Aldermen at March 13, 2020, are identified below.

Allan Kuehl, Mayor (1)
Trevor Warnol, Alderman
Mary Wiles, Alderwoman
Anthony Campbell, Alderman
Mike Null, Alderman (2)
Barbara Thomas, Alderwoman
Diane Shultz, Alderwoman (3)

(1) Mike Null currently serves as Mayor.
(2) Stacey Yoakum currently serves as Alderwoman.
(3) Wesley Wilfong currently serves as Alderman.

Other Principal Officers

The City Collector, City Clerk, and Court Clerk are appointed positions. These officials at March 13, 2020, are identified below.

Luella Mentzer, City Collector (1)
Jessie Fleming, City Clerk (2)
Kathy Smith, Court Clerk

(1) Miranda McLendon served from November 16, 2020 until March 9, 2021, Misty Shelton served from March 13, 2021 until April 11, 2022, and Avirona Medley currently serves as City Collector.
(2) Glenda Pennington served from March 13, 2020, until February 1, 2021, Deanna Burns served as Interim City Clerk from February 1, 2021 until May 4, 2021, Miranda McLendon served as City Clerk from May 4, 2021 until December 21, 2021, and Deanna Burns currently serves as City Clerk.

City of Dixon
Supporting Documentation of Misappropriated Money

The following appendixes provide supporting documentation for the misappropriated money discussed in MAR finding number 1 and are summarized in the following table.

Appendix	Type of Supporting Documentation
A	State Auditor Subpoena - Jessie Fleming
B	Overpayments to City Clerk

Information of a personal, privileged, or sensitive nature, and/or information that is not directly related to the information requested in the subpoena has been redacted.

Office of Missouri State Auditor

SUBPOENA

To: Jessie Fleming
[redacted]

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or her representative, Pamela Allison, at the Landers State Office Building, 143 Park Central Square, Springfield, MO. 65806, at 10:30 a.m. on Wednesday, October 5, 2022, for purposes of providing testimony, and producing for examination, copying, and interrogation the records and documents described in Exhibit A attached to this Subpoena.

In lieu of appearance, you may ship the records responsive to this subpoena to the Missouri State Auditor to the attention of Ethan Evans at 301 W. High St., Room 880, Jefferson City, MO 65102 or email the records to Ethan.Evans@auditor.mo.gov.

ISSUED this 20th day of September, 2022, pursuant to Section 29.235.4(1), of the Revised Statutes of Missouri.

Nicole Galloway
Missouri State Auditor

I served the foregoing subpoena by hand delivery on this 21st day of September, 2022.

Office of Missouri State Auditor

EXHIBIT A

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

All documents or other records, in whatever form, whether hard copy or electronic, pertaining or belonging to the City of Dixon for the time period of November 2013 to March 2020.

This request includes, but is not limited to, the following:

1. Timesheets, pay checks, pay stubs, bank statements, leave records, personnel policies, and any and all payroll records for services provided to the City of Dixon from November 2013 until March 2020;

2. Any and all documents related to your testimony during the interview held on September 21, 2022.

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

Appendix B
City of Dixon
Overpayments to City Clerk

Check Date	Check Number (1)	Purpose of Payment (2)	Hours Claimed	Pay Rate (2)	Gross Pay	Supported Payments (3)	Overpayments			
							Vacation Pay	Severance Pay	Sick Leave Pay	Total Overpayments
04/09/2015	38350	(4) Regular, overtime, vacation and sick leave	147.01	$ 12.25	$ 1,905.73	1,415.73	490.00	0.00	0.00	490.00
12/03/2015	Direct deposit	(5) Regular, overtime, holiday, and vacation leave	199.59	14.25	3,012.24	1,872.24	1,140.00	0.00	0.00	1,140.00
11/14/2016	41116	(6) Regular, overtime, holiday, vacation and sick leave	232.25	15.49	3,756.33	1,897.53	1,858.80	0.00	0.00	1,858.80
08/10/2017	42247	Vacation leave	80.00	15.49	1,239.20	0.00	1,239.20	0.00	0.00	1,239.20
11/15/2017	42591	Vacation leave	120.00	16.49	1,978.80	0.00	1,978.80	0.00	0.00	1,978.80
01/17/2019	44072	Vacation leave	120.00	16.49	1,978.80	0.00	1,978.80	0.00	0.00	1,978.80
02/04/2020	45156	Vacation leave	40.00	16.49	659.60	659.60	0.00	0.00	0.00	0.00
02/18/2020	45191	Vacation leave	40.00	16.49	659.60	659.60	0.00	0.00	0.00	0.00
02/27/2020	45204	Severance	240.00	16.49	3,957.60	1,319.20	0.00	2,638.40	0.00	2,638.40
03/03/2020	47013	Vacation leave	40.00	16.49	659.60	0.00	659.60	0.00	0.00	659.60
03/13/2020	47052	Sick leave	192.76	16.49	3,178.61	152.53	0.00	0.00	3,026.08	3,026.08
				Total Payments	$ 22,986.11	7,976.43	9,345.20	2,638.40	3,026.08	15,009.68

(1) All payroll checks included dual signatures, including that of the former City Clerk, Jessie Fleming.

(2) Purpose and pay rate as shown on the payroll history report.

(3) Supported payments include regular, holiday, and sick hours paid at the pay rate noted and overtime hours paid at time and a half.

(4) Hours claimed includes 17.12 hours of overtime paid at time and a half.

(5) Hours claimed includes 23.59 hours of overtime paid at time and a half.

(6) Hours claimed includes 20.5 hours of overtime paid at time and a half.

END OF TERM REPORT

January 2023

Nicole Galloway, CPA

MISSOURI'S 38th STATE AUDITOR

2022-133

Letter from Auditor Galloway

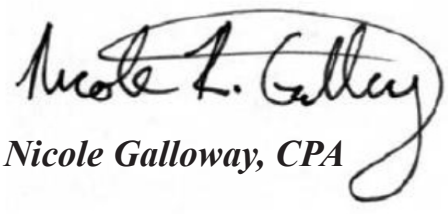
Serving as your independent taxpayer watchdog for the past nearly eight years has been among the greatest honors of my life. I have endeavored to earn your trust and have your back. Taxpayers deserve someone in government who is looking out for them, not politicians and special interests. Being your advocate in government has been my mission and I am proud of everything we've accomplished together.

I've worked closely with law enforcement to bring those who break the public trust to justice. As a result, 81 criminal charges were brought against corrupt public officials because of our audits. We've uncovered hundreds of millions of public dollars that were mismanaged, wasted, and stolen. Programs that rely on public funding have been made more efficient, less wasteful and more transparent because of our audits.

I am also proud that my office has led the way in state government when it comes to policies that are pro-working family, such as paid leave for new parents, and creating a workplace protection policy to ensure employees experiencing domestic violence can remain safe without worrying about job security. I ran my office under budget every year, returning $2.3 million to you, the taxpayers, in the process. Every independent review and audit of our office operations found an organization running efficiently and effectively.

I will reflect on my time as your Auditor with pride and a deep appreciation for the enormous power this office has to make Missouri work better for its people.

Thank you for providing me with the opportunity to serve.



Nicole Galloway, CPA

Term Highlights

A certified public accountant and certified fraud examiner, Nicole Galloway served as the 38th State Auditor of Missouri from April 2015 to January 2023. Her expertise and efforts as the state's independent watchdog helped government at every level improve operations, spanning from statewide offices to county commissions to school districts.

The State Auditor's Office received the highest marks during several reviews and audits of its operations under Auditor Galloway.

- **In 2017 and 2020, the National State Auditors Association gave the highest rating possible in its peer reviews, which are conducted every three years.**
- **The Missouri General Assembly issued two separate audits of the office and found overall operations were managed professionally.**
- **Auditor Galloway herself was honored with the Missouri NAACP Game Changer Award for her role in shining a light on inappropriate and unfair practices occurring in municipal courts across the state.**

Time and again, Auditor Galloway demonstrated that audits get results. Her reports resulted in changes to government operations, improved processes and the return of stolen taxpayer funds. Her audit recommendations have also resulted in the passage of bipartisan legislation to increase government accountability, protect privacy and safeguard taxpayer dollars. In total, nine of the Auditor's priorities were passed by lawmakers, with eight of the bills becoming law.

Auditor Galloway placed an emphasis on identifying fraud in government and holding those responsible accountable. Her audits identified more than $380 million in government waste, fraud, abuse and mismanagement.

Galloway's audits and investigations resulted in 81 criminal charges against public officials who betrayed the public trust.

Fighting Public Corruption

Auditor Galloway launched her Public Corruption and Fraud Division in 2019. The team - a dedicated group of attorneys, auditors and investigators - has a demonstrated history of working with local, state and federal law enforcement to pursue justice for taxpayers. Since 2015, audits and investigations have resulted in 81 criminal charges against public officials.

Hospital Audit Unravels Multi-State Fraud

An audit of Putnam County Memorial Hospital in 2017 led to the eventual discovery of a multi-state $1.4 billion billing scheme that used small rural hospitals to submit fraudulent claims. Auditor Galloway found $90 million in illegal billings were passed through the 15-bed hospital; this marked the largest fraud exposed in the history of the Missouri State Auditor's Office.

Auditor Galloway's office worked with federal law enforcement officials, who obtained convictions of several individuals on charges of health care fraud, including the former CEO of the Putnam County hospital and the former head of the hospital management company.

"The unraveling of this billing scheme began right here in Missouri with a state audit, and I'm proud of how my staff worked with the Department of Justice and other federal agencies to bring this fraud to an end," Auditor Galloway said.

Three Parma Officials Face Charges

The former mayor, city clerk and water supervisor of the small Bootheel town of Parma were charged criminally after an audit found $115,000 had been misappropriated and that meeting minutes and financial records were falsified. The night that new city officials took office, suspicious fires at city hall and at the former mayor's home destroyed some city records and computers. Despite the fires, auditors from Auditor Galloway's office were able to compile information from other documents to complete the audit and then assist law enforcement authorities.

Clerk Took $300,000 to Pay Credit Cards, Other Personal Expenses

An audit that began with a tip to the Whistleblower Hotline uncovered a scheme by the former city clerk of the small Ralls County town of Center to take more than $300,000 in taxpayer funds. The clerk used the funds to pay credit card bills and other personal expenses. Tracey Ray was sentenced on federal charges to serve 18 months in prison and repay $314,889.

Road District Bookkeeper Falsified Records, Took Over $286,000

The former bookkeeper of the Plattsburg Special Road District pleaded guilty to a federal theft charge for misappropriating more than $286,000. Auditor Galloway determined that Ava Langner defrauded the district in Clinton County through years of unauthorized self-payments, then attempted to cover up her crime by falsifying records. Langner was ordered to pay restitution of more than $100,000.

Viburnum Clerk Adjusted Books by $100,000 After Pocketing Cash Payments

An audit of Viburnum in Iron County discovered an elaborate, seven-year scheme by the former city clerk to adjust customer utility accounts by more than $100,000 after pocketing cash payments, and then destroying records and other evidence. The audit also found that Dana Mayberry adjusted her personal utility account to avoid paying for water and sewer services. After pleading guilty, Mayberry was ordered to pay restitution to the city.

"It is my job to tell Missourians who is corrupting our government, and to hold the powerful accountable to the people of this state. Each time we expose corruption, it puts others on notice that their wrongdoing will see the light of day."
-Auditor Galloway

Collector Sentenced to 30 Months, Ordered to Repay $380,000

The former collector of Callaway County received a 30-month prison sentence and was ordered to repay the county nearly $380,000. An audit found the collector stole the money over a period of more than two years. A follow-up report found county officials had taken recommended actions to ensure greater accountability in the future.

Greenville City Clerk Sentenced to 10 Years

The former clerk of Greenville in Wayne County was sentenced to 10 years in prison and ordered to repay more than $168,000 to the city. A 2018 state audit discovered the extent of missing funds misappropriated through improperly cashed checks, missing cash, and improper payroll payments. Forensic accounting done by auditors in Auditor Galloway's office provided the key evidence in the case against Pamela Birmingham. A follow-up report showed Greenville city officials had made many of the recommended changes to better protect taxpayer resources and restore public trust.

More than $44,000 Missing From Town of 120

A 2022 audit found more than $44,000 was misappropriated by the former city clerk of Cross Timbers, and that the Hickory County town of 120 was in poor financial condition. January Clark, who faces a felony stealing charge, received payments that were never deposited, improperly adjusted accounts including her own, and overpaid herself for hours that could not be established.
.

The Auditor's Office worked with law enforcement authorities to obtain the evidence used in her criminal prosecution.

Charges Filed After $65,000 Found Missing From Municipal Court

A 2015 audit of the City of Carl Junction Municipal Court, in Jasper County, uncovered more than $65,000 in missing funds. The former clerk of the court took payments that were not deposited into court bank accounts. The audit found significant weaknesses in oversight of court operations allowed the misconduct to go unnoticed for years. After pleading guilty to a charge of receiving stolen property, Cynthia Troutman was ordered to repay $40,000.

Cooper County Clerk Pleads Guilty to Stealing

A routine audit of Cooper County found that the county clerk had misappropriated county funds to purchase a leased vehicle for personal use and schemed to evade paying sales taxes. In 2017, Darryl Kempf pled guilty to stealing and resigned from office.

Audit Details Stealing From Fire District

The former board president and fire chief of a St. Louis County fire district pleaded guilty to federal charges of stealing, after an audit from Auditor Galloway detailed the misuse of funds from the Kinloch Fire Protection District. The audit revealed more than $72,000 in improper purchases and cash withdrawals from the district's bank account, and an additional $25,000 in spending that could not be verified as appropriate.

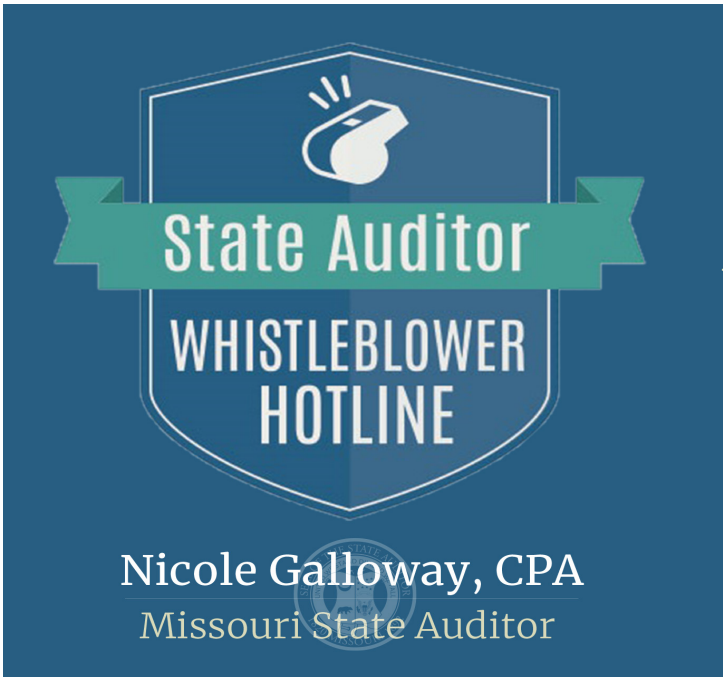
Discussing the Putnam County Memorial Hospital fraud with CBS Evening News in 2018

Announcing criminal charges against former Callaway County Collector Pamela Oestreich, who later pleaded guilty in federal court to embezzling more than $300,000 from taxpayers

Protecting the Vital Role of Whistleblowers

Each year - through phone calls, the Auditor's website, or by letter - hundreds contact the State Auditor's Whistleblower Hotline. Auditor Galloway emphasized the vital role that whistleblowers have in ensuring good government, and promoted its use to report wrongdoing. By bringing important information to light, those contacts have often initiated investigations or audits, leading to changes that benefit taxpayers.

Whistleblowers provided information that aided comprehensive independent audits in two of Missouri's largest counties, Clay and Greene. In Clay County, more than 9,000 residents signed a petition seeking an audit and in Greene County, newly elected county commissioners granted Auditor Galloway's request to perform an audit. Whistleblowers also helped spark audits after wrongdoing by local officials in communities such as Center and Parma, and in offices in Lincoln and St. Francois counties.



In addition to promoting the Whistleblower Hotline during her two terms, Auditor Galloway also fought for increased protections for whistleblowers through legislation. In one case, she went to court to preserve a whistleblower's anonymity, which was protected by state law.

In 2017, Galloway and Senator Jill Schupp outlined their plan to enhance whistleblower protections in the law after then-Governor Greitens signed a bill that exposed whistleblowers to retaliation for reporting government wrongdoing.

Shining a Light on Taxing Districts

Throughout her two terms, Auditor Galloway called for more accountability and transparency of Community Improvement Districts (CIDs) and Transportation Development Districts (TDDs), which collect tax dollars for projects intended to benefit the public interest. Statewide audits of CIDs and TDDs found many districts engaging in questionable practices with little oversight or transparency, with taxpayers on the hook for $3 billion in outstanding project costs.

In 2016 and 2017, the Auditor worked with legislators to pass laws to increase oversight of these districts. She also created a web page where Missourians could find tax rates for thousands of taxing districts across the state.

Audits of local taxing districts uncovered numerous concerns, including:

- A lack of planning and oversight of districts in the City of St. Louis, allowing spending decisions to be made by those that benefit the most.
- A TDD in Cass County that was dissolved after collecting thousands of dollars but that made none of the upgrades promised.
- A CID in Van Buren whose former board members used almost $300,000 in taxpayer funds to pay private business debts and for private construction and business improvements, including to a convenience store owned by board members.

A Watchdog for Taxpayers

Billions of taxpayer dollars are received and spent by Missouri state government each year. In her role as the independent watchdog for taxpayers, Auditor Galloway used her audits to identify problems in agencies and offices under both political parties and demanded accountability.

Speeding up Tax Refunds

For several years, Missourians expecting state refunds waited several months or longer to get the money they were owed. More than 1,000 taxpayers contacted the Auditor's Office about late refunds and how they were kept in the dark about why the refunds were late.

Auditor Galloway audited the Department of Revenue to get answers for taxpayers. When the Department failed to provide the information requested, the Auditor took the rarely used step of issuing a subpoena, and the information was turned over the next day.

Auditor Galloway's efforts also put a spotlight on an inequity in state law that resulted in a much lower interest rate paid on delayed refunds to taxpayers than the interest taxpayers had to pay for submitting their taxes late. Galloway's legislative fix passed in 2018, leveling the playing field for taxpayers.

More Accountability for Legal Settlements Using Tax Dollars

A 2017 audit of the state's Legal Expense Fund found there was no system in place to track the amount and nature of settlements and judgments paid by state agencies. In addition, the audit found that payments from the fund were consistently higher than the amounts budgeted.

Auditor Galloway also was a consistent critic of non-disclosure agreements, or NDAs, in settlements or judgments. NDAs prevented public discussion of claims settled against the government, she said, and hid long-term problems that often resulted in more lawsuits and greater costs to taxpayers. Those secret agreements are now prohibited because of legislation pushed by the Auditor.

Tracking Federal COVID Relief Dollars

In 2020, Auditor Galloway announced efforts to ensure oversight and transparency of the state's distribution and spending of billions of dollars from the federal government for COVID relief. She launched an online tool to give Missourians a detailed look at expenditures, tracking not only how much was received and expended in relief funds, but also listing which state and local government departments, vendors and expense categories were receiving the most funding. The Auditor's Office also issued monthly reports detailing state government's use of federal stimulus dollars used for COVID response.

Looking at Tax Credits for Efficiency and Effectiveness

As part of her office's Budget Integrity Series, Auditor Galloway examined the state's tax credit programs. The report showed that tax credit programs cost the state $5.4 billion over a ten-year period, and that the state had a $3 billion tax credit liability over several years for credits authorized but not redeemed. Auditor Galloway urged the General Assembly to demand more from state agencies administering the programs, including ensuring that benefit-cost analyses are accurate.

Audits Get Results

Galloway's audits put the spotlight on instances of mismanagement in government. Highlighting these inefficiencies and mismanagement led to change and reform.

Audit Finds $2 Million in Hidden "Bonuses" at University of Missouri System

In a 2017 audit of the University of Missouri System, Auditor Galloway uncovered more than $2.3 million in hidden payments and incentives given to top administrators, including luxury vehicle allowances and other compensation not included in published salaries. The Auditor said the additional compensation amounted to bonus pay, because there were no clear guidelines or performance metrics. Less than a week after the audit was released, the university system announced it was terminating the executive bonus program.

Uncovering Problems in Municipal Courts

In 2016, Auditor Galloway issued a report that identified several areas of recurring concerns with Missouri's municipal courts. Those concerns included missing funds, lack of oversight, and improper fees and poor record-keeping. She said the issues needed to be addressed for courts to regain the trust of citizens.

An audit of the Ferguson Municipal Court in St. Louis County found a court in disarray with disorganized case files, court records damaged because of improper storage, at least $1,400 in cash missing, and $26,000 in illegal fees charged to citizens. In southwest Missouri, an audit of the Carl Junction Municipal Court uncovered more than $65,000 missing, leading to criminal charges.

Monitoring State Agencies and Programs

With billions of dollars administered by state agencies and programs, audits from the State Auditor's Office help monitor the use of those funds to best benefit Missourians. When efficiency and effectiveness need to be improved, audits identify those shortcomings.

A report on domestic violence shelter funding found burdensome requirements in state law, meaning there was an inefficient and uneven distribution of funding across Missouri. In addition, domestic violence victims in Missouri were being turned away from shelters at a higher rate than neighboring states. Auditor Galloway said the requirements for information from shelters often duplicated documentation already filed with the state. She said victims of domestic violence shouldn't be turned away from help because red tape was holding up funding.

Encouraging Better Financial Practices in Local Government

Audits of counties and cities across the state identified numerous concerns that cost taxpayers, and resulted in audit ratings of "poor." An audit of New Madrid County found that payroll tax withholdings were not being sent to the state, resulting in more than $50,000 in interest charged to local taxpayers. Officials in Bel-Ridge, Monroe City, Glasgow, Sparta and Dade County, among others, were not adequately monitoring financial conditions, resulting in serious impacts to municipal and county budgets. A fire station built through a voter-approved bond in the Smithville Area Fire Protection District sat unused because of poor planning by officials to pay for staffing the station. Entities that received the lowest audit rating were often given a follow-up report to measure the progress local officials made to implement audit recommendations. In many cases, local officials made progress to address those issues.

Auditor Galloway routinely hosted county and local government officials in Jefferson City to share best practices for protecting the public trust (pictured at right.)

Transparency - a top priority for Auditor Galloway

Transparency in government operations was a standard Auditor Galloway upheld for the agencies she audited and her own office as well. A 2016 audit from the Auditor's Office sent an open records request to more than 300 government entities and found that only 30% fully complied with laws designed to keep government accessible to citizens.

Audits of agencies often identified concerns about compliance with Missouri's Sunshine Law, including improperly closed meetings and accessibility to public records. Auditor Galloway used the subpoena power of her office to obtain information from the Missouri Department of Revenue as part of an audit to ensure Missourians received their tax refunds in a timely manner.

In a letter sent to local and county governments in 2019, the Auditor called on local governments to be fully transparent with Missourians. She encouraged them to ban the use of self-deleting apps, which could be used to conduct public business in secret. The letter also included updated guidelines from the State Records Commission, reflecting developments in how public records are maintained electronically.

Thorough, Comprehensive Reviews

Greene County

In December 2017, Auditor Galloway asked the Greene County Commission to authorize an audit into whistleblower allegations that public resources were misused to advocate for a 2017 ballot measure. The then-commission did not grant the request, and it was only after two new commissioners were elected that an audit could begin in 2019.

The final audit in Greene County found that taxpayers paid more than $25,000 in legal invoices related to an ethics complaint against a county commissioner surrounding the ballot measure campaign. The same commissioner also used his official county e-mail to encourage other county employees to engage in campaign activity around the sales tax measure.

City of St. Louis

In 2018 the City of St. Louis Board of Aldermen requested a comprehensive audit of the City of St. Louis. Auditor Galloway began the process by hosting a series of listening sessions with residents and stakeholders. Next, the office reviewed whether the city had addressed the findings of the last comprehensive audit of the city in 2010. By the end of her term in office, Galloway had issued 22 audit reports covering City of St. Louis departments and government operations.

Jackson County

In early 2021, Auditor Galloway released the final report on Jackson County, the second-most populous county in Missouri. The review of the county assessment department found several problems that the Auditor's Office recommended be addressed to ensure better oversight of the assessment process. County officials indicated they were moving forward with the recommendations. Auditor Galloway released four reports on county operations in 2020 that also gave recommendations to ensure transparency and more effective use of taxpayer dollars. The audits of Jackson County government finances were initiated by a request from the county legislature.

St. Louis County

After the former St. Louis County Executive was federally charged with public corruption, Auditor Galloway was asked by the county council to conduct an independent review of county government operations in 2019.

Her audit found that inadequate oversight enabled the former county executive and his appointee to the St. Louis Economic Development Partnership to abuse their positions through large, unauthorized bonuses and manipulation of contracting and procurement processes.

Clay County

An audit of Clay County government was initiated after a citizen petition was submitted to the State Auditor's Office. The Clay County Commission filed a lawsuit to prevent the Auditor from conducting the citizen-mandated audit, but a court ruling dismissed the lawsuit and confirmed the Auditor's legal authority. Throughout 2021, the office worked to complete the audit of the operations of the former Clay County Commission, with the final report issued in early 2022.

In 2020, the State Auditor's Office released reports on the Clay County clerk, public administrator, recorder of deeds and collector. In 2021, the office released the report on the Clay County Sheriff. In February 2022, all audit work on the comprehensive petition audit of Clay County government was completed with the release of the report on the Clay County Commission.

"The ability for taxpayers to petition the State Auditor for a comprehensive review of their local government is a **powerful tool** for citizens to demand **accountability** and **transparency**."

- Nicole Galloway, CPA

Auditor Galloway visits Clay County to deliver the results of her audit of the former county commission in 2022.

Demanding Accountability in Charter Schools

As a strong supporter of public education in Missouri, Auditor Galloway called for better oversight of the state's charter schools, which receive the same funding as public schools but can operate free from some rules that apply to traditional public schools. A 2020 audit of charter school closures found that 23 of 26 charter schools that closed did so for reasons linked to mismanagement, financial distress, or poor academic performance. Auditor Galloway recommended setting standards in state law to provide consistent training and qualification standards for charter school board members.

Audits of Individual Charter Schools Revealed Mismanagement and Even Fraud

- Administrators at Hope Academy Charter School in Kansas City inflated attendance records, leading to the state making $4.3 million in overpayments over a two-year period before the school closed. After the 2015 audit, the Missouri Attorney General sued to recover the overpayments.
- The former executive director of the defunct St. Louis College Prep Charter School was sentenced to prison and ordered to repay $2.3 million in public funds. A 2019 audit found Michael Malone falsified attendance records, leading to the overpayment. Auditor Galloway's Public Corruption and Fraud Unit worked with the U.S. Attorney and the FBI on the case.
- An audit of Pathway Academy Charter School in Kansas City in 2020 found several concerns at the now-closed school. Those included thousands of dollars in improperly paid bonuses and questionable disbursements and credit card use.

Protecting Personal Data of Students in Public Schools

In 2015, Galloway launched her Cyber Aware School Audits to identify practices that improve the security of information schools have on students and their families. Auditor Galloway made cybersecurity a priority across all components of government, including Missouri schools. The Cyber Aware School Audits were part of an ongoing emphasis on data protection practices and keeping Missourians' information secure.

CITIZENS SUMMARY

Findings in the audit of Missouri State Highway Patrol's Use of Highway Funds

Background

Missouri state law requires the Missouri State Auditor to examine whether State Highways and Transportation Fund appropriations to the Missouri State Highway Patrol are used in accordance with the Missouri Constitution, which limits the use of these funds to activities related to administering and enforcing state motor vehicle laws or traffic regulations.

Methodology

Audit staff reviewed policies and procedures, financial records and other pertinent documents; interviewed agency personnel; and performed sample testing. Auditors also reviewed highway patrol calculations of amounts spent for non-highway activities; and the amounts spent for highway-related activities from other funding sources.

Conclusions

The audit determined the Missouri State Highway Patrol complied with legal provisions related to the use of highway funding for the 2022 fiscal year.

Because of the limited objective of this review, no overall rating is provided.

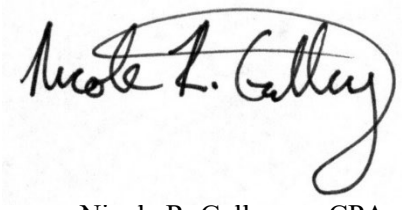
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Sandra K. Karsten, Director
Department of Public Safety
and
Colonel Eric T. Olson, Superintendent
Missouri State Highway Patrol
Jefferson City, Missouri

We have audited the Department of Public Safety, Missouri State Highway Patrol's Use of Highway Funds, as required by Section 226.200.3, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2022. The objective of our audit was to determine whether the agency is in compliance with legal provisions related to the use of highway funds.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The Background, Methodology, and Conclusions present our comments concerning the overall compliance related to the Department of Public Safety, Missouri State Highway Patrol's Use of Highway Funds.



Nicole R. Galloway, CPA
State Auditor

Missouri State Highway Patrol's Use of Highway Funds Background, Methodology, and Conclusions

Background

The State Auditor is required to determine whether appropriations from the State Highways and Transportation Fund (State Highway Fund) to the Missouri State Highway Patrol (MSHP) are used for administering and enforcing state motor vehicle laws and traffic regulations pursuant to the constitution.

Limitations and requirements

Article IV, Section 30(b), Missouri Constitution, limits the MSHP's use of highway funds to activities related to administering and enforcing state motor vehicle laws or traffic regulations. In addition, Section 226.200.3, RSMo, provides, in part:

" . . . Appropriations allocated from the state highways and transportation department fund to the highway patrol shall only be used by the highway patrol to administer and enforce state motor vehicle laws or traffic regulations. Beginning July 1, 2007, any activities or functions conducted by the highway patrol not related to enforcing or administering state motor vehicle laws or traffic regulations shall not be funded by the state highways and transportation department fund, but shall be funded from general revenue or any other applicable source. Any current funding from the highways and transportation department fund used for activities not related to enforcing state motor vehicle laws or traffic regulations shall expire on June 30, 2007. The state auditor shall annually audit and examine the appropriations made to the highway patrol to determine whether such appropriations are actually being used for administering and enforcing state motor vehicle laws and traffic regulations pursuant to the constitution. The state auditor shall submit its annual findings to the general assembly by January fifteenth of each year."

During the year ended June 30, 2022, the MSHP used appropriations from the State Highway Fund as follows:

	Appropriation Authority	Expenditures	Lapsed Balances[1]
Enforcement personal service	$ 79,682,022	70,094,455	9,587,567
Enforcement expense and equipment	6,664,292	6,171,696	492,596
Technical services personal service	16,832,168	14,653,635	2,178,533
Technical services expense and equipment	14,968,526	14,190,377	778,149
Vehicle and driver safety personal service	11,631,545	10,583,187	1,048,358
Vehicle and driver safety expense and equipment	1,060,790	903,797	156,993
Refund unused motor vehicle inspection stickers	100,000	46,096	53,904
Administration personal service	6,777,729	6,253,911	523,818
Administration expense and equipment	527,891	402,624	125,267
Crime laboratories personal service	4,292,131	4,052,062	240,069
Crime laboratories expense and equipment	1,297,749	1,182,241	115,508
Law Enforcement Academy personal service	1,463,549	1,416,447	47,102
Law Enforcement Academy expense and equipment	73,576	60,586	12,990
Fringe benefits personal service	91,386,752	77,660,635	13,726,117
Fringe benefits expense and equipment	7,295,799	6,752,034	543,765
Vehicle replacement expense and equipment	6,323,075	5,210,735	1,112,340
Gasoline expenses	4,737,264	4,355,069	382,195
Interoperable system highway	5,612,926	5,239,075	373,851
Interoperable ongoing highway	4,100,000	3,880,123	219,877
Total	$ 264,827,784	233,108,785	31,718,999

[1] The lapsed balances include withholdings made at the Governor's request totaling $4,841,357.

Methodology

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the agency; and performing sample testing using judgmental selection. The results of our sample testing cannot be projected to the entire population from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objective and assessed the design, implementation, and operating effectiveness of such internal control to the extent necessary to address our audit objective. We also obtained an understanding of legal provisions that are significant within the context of the audit objective, and we assessed the risk that illegal acts, including fraud, and violations of other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

To determine whether the MSHP complied with the limitations on the use of highway funds, we reviewed the MSHP calculations of amounts expended from the State Highway Fund for non-highway activities and the amounts expended by the MSHP for highway-related activities from other funding sources. We compared the amounts used in the MSHP calculations to expenditures recorded in the state accounting system (SAM II) and other supporting documentation. In addition, we tested certain expenditures to determine if the expenditures were properly recorded.

Conclusions

We concluded the MSHP is in compliance with legal provisions related to the use of highway funds. During fiscal year 2022, the MSHP spent approximately $1,404,000 appropriated from the State Highway Fund for expenditures not related to highway activities. This amount included non-highway personal service expenditures made from the State Highway Fund from appropriations for administration, crime laboratories, and training academy; and expense and equipment expenditures from appropriations for administration, and gasoline. However, these expenditures were more than offset by personal service and/or expense and equipment expenditures totaling approximately $7,396,000 from appropriations for crime laboratories, training academy, technical services, and fringe benefits that were related to highway activities, but not paid from the State Highway Fund. As a result, approximately $5,992,000 more was spent on highway-related activities than was paid from highway funds during fiscal year 2022.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 10 political subdivisions required to file a financial report by November 30, 2022, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in November 2022, after their filing deadline. The filing status for these 14 entities is presented in summary on page 3 and by individual entity in Appendixes B to E.

Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except that effective August 28, 2022, any political subdivision with gross revenues less than $5,000 or that has not levied or collected taxes in the fiscal year of the annual financial report is not subject to the fine.[1]

This report includes the filing status for the 10 political subdivisions, other than cities, towns, and villages, with a fiscal year end of May 31, 2022. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 10 political subdivisions, 8 filed an annual financial report timely.

This report also includes the filing status for 14 political subdivisions, other than cities, towns, and villages, that filed their financial report in November 2022, after their filing deadline.

[1] Prior to August 28, 2022, only transportation development districts with gross revenues less than $5,000 in the fiscal year of the annual financial report were not subject to the fine.

NICOLE GALLOWAY, CPA
Missouri State Auditor

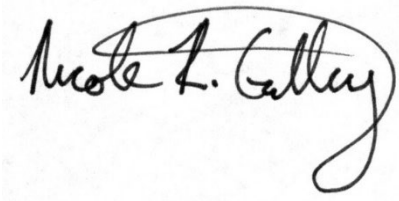
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by November 30, 2022, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 3 cities and 3 villages is presented in summary on page 4 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in November 2022, after their filing deadline. The filing status for these 19 cities and 2 villages is presented in summary on page 4 and by individual entity in Appendixes B to E.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except that effective August 28, 2022, any political subdivision with gross revenues less than $5,000 or that has not levied or collected taxes in the fiscal year of the annual financial report is not subject to the fine.[1]

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

[1] Prior to August 28, 2022, only transportation development districts with gross revenues less than $5,000 in the fiscal year of the annual financial report were not subject to the fine.

This report includes the filing status for the 3 cities and 3 villages with a fiscal year end of May 31, 2022, whose financial report was due by November 30, 2022. All 6 municipalities filed the financial report timely. Of the 3 municipalities required to file an addendum, 1 filed timely. One municipality was required to file a certification, and did so timely.

This report includes the filing status for 19 cities and 2 villages that filed at least one of the items (financial report, addendum, or certification) in November 2022, after their filing deadline. Of these municipalities, 14 filed an annual financial report, 7 filed an addendum, and 6 filed a certification.

2. City of Cross Timbers.....3

NICOLE GALLOWAY, CPA
Missouri State Auditor

The Citizens of Missouri

This report was compiled from follow-up reports issued in 2022. The State Auditor's Office conducted 2 follow-up reviews pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the auditee about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

Auditors conduct follow-up work for audits with significant or serious findings when determined necessary.

Of the 42 recommendations included in the follow-up reports, 9 (22 percent) had a status of implemented, 8 (19 percent) had a status of in progress, 19 (45 percent) had a status of partially implemented, and 6 (14 percent) had a status of not implemented.

Summary of 2022 Follow-Up Reports
Status of Recommendations

1. City of Homestead Village

Report Number 2022-039

City of Homestead Village received a "Poor" overall audit rating. The follow-up report focused on 11 recommendations.

Status determined:

Implemented	3
In Progress	2
Partially Implemented	6

2. City of Cross Timbers

Report Number 2022-124

City of Cross Timbers received a "Poor" overall audit rating. The follow-up report focused on 31 recommendations.

Status determined:

Implemented	6
In Progress	6
Partially Implemented	13
Not Implemented	6

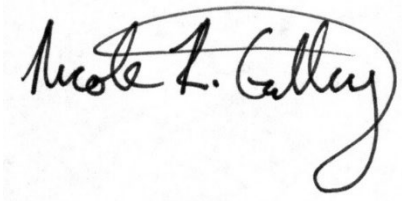
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of November 2022 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In November, the state spent $125.6 million from federal ARP Act assistance (Appendix A). Through the end of November, the state has received $5.13 billion and spent $2.35 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of November 30, 2022, approximately $11.03 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19

services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the

[1] U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule,* January 2022. The final rule took effect April 1, 2022; however, recipients could take advantage of the final rule's flexibilities and simplifications before the effective date.

period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

[2] The time period recipients can spend this funding.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state were required to file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In November, the state spent $125.6 million from federal ARP Act assistance (Appendix A). Through the end of November, the state has received $5.13 billion and spent $2.35 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the 2 fiscal years ending June 30, 2023, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between ARP Act and non-ARP Act activity.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2023, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because its appropriations are not used for ARP Act purposes.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

Total all Funds	$ 5,133,915,407	2,351,162,254	0	1,140,811,995	1,140,294,085	2,783,271,063

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, the DED has occasionally used it to receipt and disburse ARP Act awards due to grant drawdown and budgetary timing challenges.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the 2 fiscal years ending June 30, 2023, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between ARP Act and non-ARP Act activity.

[3] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. NICOLE GALLOWAY, CPA
Missouri State Auditor

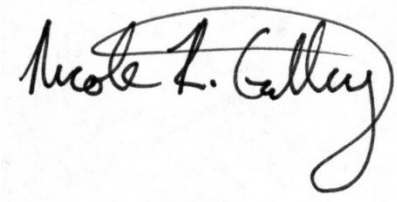
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of November 2022 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In November, the state spent $83.9 million from federal COVID-19 assistance (Appendix A). Through the end of November, the state has received $6.7 billion and spent $6.47 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($2.08 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of November 30, 2022, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of November 30, 2022, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients were permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, Assistance Listing Number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients were permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of November 30, 2022, approximately $4.42 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of November 30, 2022, approximately $2.9 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of November 30, 2022, approximately $11.03 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In November, the state spent $83.9 million from federal COVID-19 assistance (Appendix A). Through the end of November, the state has received a total of $6.7 billion and spent $6.47 billion from this assistance (Appendix B). A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($2.08 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 3 fiscal years ended June 30, 2023, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[2] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the 3 fiscal years ending June 30, 2023, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations, which are included in Appendix C.

[3] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the 2 fiscal years ending June 30, 2023, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 3 fiscal years ended June 30, 2023, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the 3 fiscal years ending June 30, 2023, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations, which are included in Appendix C.

[4] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[5] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the 2 fiscal years ending June 30, 2023, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity.

[6] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supported the Consolidated Appropriations Act's portion of the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administered this fund and indirectly administered (monitored) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflected an upfront transfer to the MHDC. That agency expended these funds by the September 30, 2022, deadline.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services could not directly expend any receipted money from the fund, as it could during the fiscal year ended June 30, 2020.

[3] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients were permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[4] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

CITIZENS SUMMARY

Summary of findings in the audit of Stoddard County

County Collector-Treasurer's Controls and Procedures	The County Collector-Treasurer did not properly review Assessment Fund withholdings and commissions calculated by the property tax system to ensure accuracy, and as a result, the County Collector-Treasurer under withheld Assessment Fund fees by $101,884 and commissions by $66,516. In November 2021, the property tax system used an understated amount of school district tax collections in the calculations of the Assessment Fund withholding and commissions, causing the majority of these errors. The County Collector-Treasurer also used a flawed calculation template to determine the December 2021 Assessment Fund withholdings adjustment (done to comply with statutory limitations on some withholdings), which inflated the adjustment amount, resulting in $42,541 being under withheld. In addition, the County Collector-Treasurer does not prepare a monthly list of liabilities, and consequently, liabilities are not agreed to the reconciled bank balance.
Sheltered Facilities Board Contracts	The Sheltered Facilities Board did not ensure written agreements were entered into or renewed with some not-for-profit (NFP) entities it provided funding in recent years.
Electronic Communication Policy	The county has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.
Electronic Data Security	Password controls, testing of back up data, and security controls need improvement for computers in some county offices. The County Clerk, Public Administrator, and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data. The Sheriff and Public Administrator do not perform periodic testing of backup data. Employees in the County Clerk's and Sheriff's offices do not have security controls in place to lock computers after a specified number of incorrect logon attempts and/or after a certain period of inactivity.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 10

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Stoddard County

We have audited certain operations of Stoddard County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

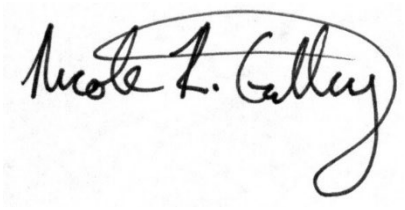
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Stoddard County.



Nicole R. Galloway, CPA
State Auditor

1. County Collector-Treasurer's Controls and Procedures

Controls and procedures regarding commissions, fees, and liabilities in the County Collector-Treasurer's office need improvement. The County Collector-Treasurer collected approximately $26 million in property taxes and other receipts and withheld approximately $1 million in commissions and fees during the year ended February 28, 2022.

1.1 Commissions and withholdings

The County Collector-Treasurer did not properly review Assessment Fund withholdings and commissions calculated by the property tax system to ensure accuracy, and as a result, the County Collector-Treasurer under withheld Assessment Fund fees by $101,884 and commissions by $66,516.

Assessment withholding errors

Various errors occurred in the calculation of Assessment Fund withholdings. In November 2021, the County Collector-Treasurer's property tax system used an understated amount of school district tax collections in the calculation of Assessment Fund withholdings, causing $59,343 to be under withheld from various school districts. In addition, the County Collector-Treasurer used a flawed calculation template to determine the December 2021 Assessment Fund withholdings adjustment (used to comply with statutory limitations on some withholdings), which inflated the adjustment amount, resulting in $42,541 being under withheld. The County Collector-Treasurer indicated he relied on the calculation template prepared by a previous officeholder to calculate the additional Assessment Fund withholding.

Section 137.720.1, RSMo, requires a one percent withholding on ad valorem property tax collections allocable to each taxing authority be deducted from the collections of taxes each year and deposited into the assessment fund of the county. Section 137.720.3, RSMo, requires an additional one-half percent withholding to be deposited in the assessment fund, but limits the amount withheld to $75,000.

Commission errors

Various errors occurred in the calculation of commissions. The same property tax system error involving understated school district tax collections in November 2021 resulted in commissions from school district tax collections being under withheld from the various school districts by $69,815. The County Collector-Treasurer also incorrectly included late assessment filing penalties in commission calculations, resulting in excess commissions of $3,558. Finally, the County Collector-Treasurer did not include interest in the January and February calculation of commissions on school district tax collections. This resulted in commissions being under withheld on political subdivision tax collections by $259. The County Collector-Treasurer indicated the amounts to be included in the commission calculation are programmed in the property tax system and he did not realize there was an error in the programming.

Section 54.320.1, RSMo, requires the County Collector-Treasurer to collect on behalf of the county, a commission of 3 percent on all licenses, including current railroad and utility taxes, surtax, back taxes, delinquent taxes, and interest collected by the County Collector-Treasurer to be deducted from the amounts collected. In addition Section 54.320.1, RSMo, requires the County Collector-Treasurer collect a commission of one-half of one percent for mailing.

Conclusion

Thorough review and accurate withholding calculations are necessary to ensure distributions owed to the various political subdivisions are appropriate.

1.2 Liabilities

The County Collector-Treasurer does not prepare a monthly list of liabilities, and consequently, liabilities are not agreed to the reconciled bank balance. The reconciled bank balance as of February 28, 2022, was $375,100. Liabilities consisting of February collections of taxes and fees, undisbursed interest, undisbursed redemptions and refunds totaled $374,483, resulting in $617 of unidentified money. The County Collector-Treasurer indicated the prior administration did not maintain a list of liabilities, and he was unaware of the need for the list.

Monthly lists of liabilities that are reconciled to cash balances are necessary to ensure records are in balance, errors are detected and corrected timely, and sufficient cash is available for the payment of all liabilities. Prompt follow up on discrepancies is necessary to resolve errors and ensure money is properly disbursed. Various statutory provisions provide for the disposition of unidentified money.

Recommendations

The County Collector-Treasurer:

1.1 Work with the property tax system vendor to ensure commissions and fee calculations are correct and review calculations periodically to ensure they are in accordance with state statute. The County Collector-Treasurer should also recalculate all commissions and fees and correct distributions to the various political subdivisions and the county General Revenue and Assessment Funds.

1.2 Prepare a monthly list of liabilities and reconcile the list to the available cash balance. Any differences should be promptly investigated and resolved, and any unidentified money disposed of in accordance with state law.

Auditee's Response

1.1 I agree with the findings. Once I was made aware of assessment withholding problems, our property tax system programmer was notified and the issue quickly resolved. The correction from the software glitch took place in November 2022, as this was the soonest

time frame to make the correction because of the time and amount of taxes available to make the correction. System checks have been put in place to aid in catching any programming errors like this in the future. The template used to calculate the Assessment Fund withholdings, and the associated limitations set forth by statute, was flawed. This template has been utilized for many years, but the flaws were not identified previously. That template has been discarded and a new system, with checks and balances, has been put in place to determine when the limit has been met. Any amounts over or under withheld in prior years are currently being addressed and corrected.

The commissions collected on behalf of the county from late assessment filing fees is yet another programming issue. The current program and its internal calculations and procedures have been used year after year. After the programming flaw was identified, a correction in the property tax system program was requested. A control has been implemented to ensure such programming issues are less likely in the future.

1.2 I agree with this finding. A list of liabilities had not been created in past years so I was unaware of the need for this listing. After the problem was identified, thorough research was conducted and a list of liabilities is being generated and is now part of the month to month reconciliation process.

2. Sheltered Facilities Board Contracts

The Sheltered Facilities Board (Board) did not ensure written agreements were entered into or renewed with some not-for-profit (NFP) entities it provided funding in recent years. The Board disbursed a total of approximately $230,000 in 2021 to 2 NFPs without renewing or extending the written agreements from the previous year. One NFP operates the sheltered workshop and another provides services to citizens with disabilities.

In addition, during 2018 and 2019, the Board funded initial start-up costs for 2 other NFPs, totaling approximately $187,000, without approving written agreements with these entities. Both of these NFPs dissolved during 2019 and the Board was unable to recover any of those funds because there was no agreement that allowed for recovery.

Section 432.070, RSMo, requires government contracts to be in writing. Written agreements are necessary to ensure all parties are aware of their duties and responsibilities.

Recommendation

The Sheltered Facilities Board enter into written agreements as required by state law.

Auditee's Response

We agree and will ensure contracts exist with all entities provided funding in the future.

3. Electronic Communication Policy

The county has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms. The elected officials indicated they were not aware of these requirements and did not recognize that business conducted on personal devices and accounts should also be retained as part of the county records. The Commission also indicated it was unaware of the record retention requirements and the electronic communications guidelines.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[1]

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law.

Recommendation

The County Commission work with the other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

We agree and will work with other county officials to develop a policy to address electronic communications and records management.

4. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

4.1 Passwords

The County Clerk, Public Administrator, and Recorder of Deeds have not established adequate password controls to reduce the risk of unauthorized access to computers and data. Employees in the County Clerk's office are not required to change passwords periodically and passwords for employees in the offices of the County Clerk and Public Administrator are not required to have a minimum number of characters. In addition, employee passwords in

[1] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed October 18, 2021.

the County Clerk's and Recorder of Deeds' offices are not kept confidential. The County Clerk, Public Administrator, and the Recorder of Deeds did not recognize the importance of establishing and enforcing password controls in their offices until it was brought to their attention.

Passwords are necessary to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords in certain offices are not required to be kept confidential and periodically changed, or contain a minimum number of characters, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities.

4.2 Data backups

The Sheriff and Public Administrator do not perform periodic testing of backup data. Both the Sheriff and the Public Administrator did not realize the importance of testing the backup data because they have not encountered the need to restore information using the backup data. Such testing is necessary to ensure the backup process is functioning properly and to ensure all essential data can be recovered.

Without testing the full backup process, management cannot be assured the entire system can be restored when necessary.

4.3 Security controls

Employees in the County Clerk's and Sheriff's offices do not have security controls in place to lock computers after a specified number of incorrect logon attempts and/or after a certain period of inactivity. Personnel in these offices did not recognize the importance of ensuring these security controls are in place.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Inactivity controls are necessary to reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Recommendations

The County Commission work with other county officials to:

4.1 Require confidential passwords for each employee that contain a minimum number of characters and are periodically changed to prevent unauthorized access to county computers and data.

4.2 Ensure backup data is tested on a regular, predefined basis.

4.3 Require county computers to have security controls in place to lock each computer after a specified number of incorrect logon attempts and after a certain period of inactivity.

Auditee's Response

4.1 We plan to work with the applicable county officials to ensure adequate password controls are in place.

4.2 We will work with other county officials to ensure back up testing procedures are implemented.

4.3 We will discuss this recommendation with our IT provider and will ensure security controls are utilized on all county computers.

Stoddard County
Organization and Statistical Information

Stoddard County is a township-organized, third-class county. The county seat is Bloomfield.

Stoddard County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 62 full-time employees and 19 part-time employees on December 31, 2021. The townships maintain county roads.

In addition, county operations include the Sheltered Facilities Board (Senate Bill 40), Mental Health Board, and the 911 Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2022	2021
Daniel K. Talkington, Presiding Commissioner	$	43,774
Carol Jarell, Associate Commissioner		41,774
Steve Jordan, Associate Commissioner		41,744
Kay Asbell, Recorder of Deeds		55,104
Cecil Weeks, County Clerk		55,104
Russell Oliver, Prosecuting Attorney		146,073
Carl Hefner, Sheriff		69,647
Brent Stidman, County Coroner		25,112
Cindy Duckworth, Public Administrator		59,104
Joshua Speakman, Collector-Treasurer, (1) year ended March 31,	90,506	
Daniel Creg, County Assessor, year ended August 31,		54,832
Joseph Pulliam, County Surveyor (2)		

(1) Includes $15,206 of commissions earned for collecting city and drainage taxes.

(2) Compensation on a fee basis.

Other Information

In April 2022, the County completed construction on a county jail addition, costing approximately $13,470,400. The construction was funded by a voter approved 1/2 of 1 percent sales tax, passed in 2018, and a lease purchase agreement of $9,000,000.

Texas County

Report No. 2022-125

December 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Summary of findings in the audit of Texas County

Sheriff's Controls and Procedures	The Sheriff's office has not entered into written agreements with other counties or cities to provide for the boarding of prisoners, detailing the housing rate to be paid. The Sheriff does not have proper controls and procedures in place to ensure all costs for boarding non-state prisoners are adequately billed upon release and pursued. Sheriff's office personnel do not always deposit timely. The Sheriff does not have adequate procedures to ensure an inmate's remaining account balance is refunded upon release. Sheriff's office personnel do not prepare a monthly list of liabilities for the inmate commissary account, and consequently, liabilities are not agreed to the reconciled bank balance. Sheriff's office personnel do not regularly remit net proceeds from the inmate commissary account to the County Collector-Treasurer for deposit into the Inmate Prisoner Detainee Security Fund as required by state law. The Sheriff's office does not charge or collect sales tax on e-cigarettes sold to inmates not handled by the commissary vendor, and no sales taxes are remitted to the state Department of Revenue.
County Collector-Treasurer and Property Tax System	Incorrect percentages were used to calculate some commissions collected by the County Collector-Treasurer for the year ended February 28, 2022, resulting in the county collecting a total of $72,781 more than allowed by law in December 2021. The county has not adequately restricted property tax system access. The County Collector-Treasurer and her office personnel have access rights in the property tax system allowing them to make changes to individual tax records and there is no independent review of changes made to individual tax records in the system. The County Collector-Treasurer and her office personnel had access to the county payroll system for 5 months longer than needed. The County Clerk does not maintain an account book or other records summarizing property tax charges, transactions, and changes. The County Clerk and the County Commission do not perform adequate procedures to verify the accuracy and completeness of the County Collector-Treasurer's annual settlements. The County Clerk does not prepare or verify the accuracy of the current or delinquent tax books.
County Clerk's Procedures	The previous County Clerk did not pay credit cards timely. The previous County Clerk did not maintain adequate documentation to support some expenditures and liquor license receipts.
Public Administrator's Controls and Procedures	The Public Administrator does not always file annual settlements timely. The former Public Administrator did not turn over all applicable accounts to the current Public Administrator when her term expired.

Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney maintains an inactive bad check bank account. The Prosecuting Attorney's office does not generate or prepare monthly lists of unpaid bad checks or a report of unpaid court-ordered restitution, including court-ordered restitution for bad checks.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 15

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Texas County

We have audited certain operations of Texas County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

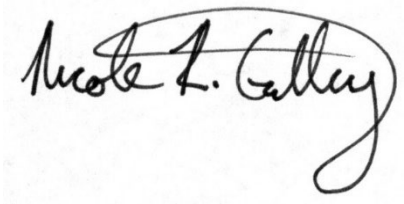
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal control, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Texas County.



Nicole R. Galloway, CPA
State Auditor

1. Sheriff's Controls and Procedures

Controls and procedures in the Sheriff's office need improvement. The office processed receipts for civil process fees, concealed carry weapon (CCW) permits, bonds, inmate money, and other miscellaneous receipts totaling approximately $239,000 during the year ended December 31, 2021.

1.1 Prisoner boarding

The Sheriff's office has not entered into written agreements with other counties or cities to provide for the boarding of prisoners, detailing the housing rate to be paid. In addition, the Sheriff does not have proper controls and procedures in place to ensure all costs for boarding non-state prisoners are adequately billed upon release and pursued.

The Sheriff's office collected approximately $324,000 for the boarding of prisoners during the year ended December 31, 2021, without a written agreement between the county and other counties and cities. The Sheriff indicated that because the County Commission sets the boarding rate, he did not believe a contract was necessary. In addition, the Sheriff's office does not follow up on outstanding board bills. Since the Sheriff does not use software to calculate and track bills, we reviewed the Sheriff's records and calculated outstanding costs. We noted approximately $9,000 in outstanding board bills dating back to 2018. The Jail Administrator indicated they do not have adequate time to follow up on outstanding bills.

Section 432.070, RSMo, requires contracts for political subdivisions to be in writing. Written agreements, signed by the parties involved and specifying the services to be rendered and the manner and amount of compensation to be paid, are necessary to ensure all parties are aware of their duties and responsibilities and to prevent misunderstandings. Monitoring unpaid board bills and taking appropriate follow-up action helps ensure payments are received. Failure to bill and monitor unpaid amounts due may result in the cost of housing these prisoners resting solely on the county.

1.2 Depositing

Sheriff's office personnel do not always deposit timely due to being short-staffed. We reviewed all receipt slips for 2 fee account deposits, totaling $46,475, from the year ended December 31, 2021. We noted $6,121 in all-terrain vehicle and CCW permits, fingerprinting fees, inspection fees, and bond money collected from November 3, 2021, through November 5, 2021, were not deposited until November 12, 2021. In addition, on March 1, 2022, we counted $3,624 in undeposited money that was receipted between January 26, 2022, and February 25, 2022.

Failure to implement adequate depositing procedures increases the risk that loss, theft, or misuse of money received will go undetected.

1.3 Inmate commissary account

The Sheriff does not have adequate procedures to ensure an inmate's remaining account balance is refunded upon release. As of December 31,

2021, the Sheriff's office was holding approximately $7,000 for 819 inmates in the commissary bank account, with the oldest balances dating back to 2009. During 2021, the Sheriff's office began providing inmates a debit card loaded with their remaining account balance upon release. Jail officials indicated they were not sure how to handle balances for inmates released before 2021.

Follow up on inactive accounts is necessary to ensure money is appropriately disbursed to the former inmates or as otherwise provided by state law. In addition, continuing new procedures to refund an inmate's remaining balance upon release will allow the Sheriff to more adequately safeguard any money held and reduce the risk of its loss, theft, or misuse.

1.4 Liabilities

Sheriff's office personnel do not prepare a monthly list of liabilities for the inmate commissary account, and consequently, liabilities are not agreed to the reconciled bank balance. The reconciled bank balance as of December 31, 2021, was $46,465. Liabilities totaled $46,178, resulting in a $287 unidentified balance. The Jail Administrator indicated he took office in January 2022, and he was unaware of the need for a monthly liabilities list.

Monthly lists of liabilities that are agreed to the reconciled bank balance are necessary to ensure records are in balance, errors are detected and corrected timely, and sufficient cash is available for the payment of all liabilities. Prompt follow up on discrepancies is necessary to resolve errors and ensure money is properly disbursed. Various statutory provisions provide for the disposition of unidentified money.

1.5 Inmate Prisoner Detainee Security Fund

Sheriff's office personnel do not regularly remit net proceeds from the inmate commissary account to the County Collector-Treasurer for deposit into the Inmate Prisoner Detainee Security Fund as required by state law. Any amount in the bank account exceeding the inmate money and other liabilities is considered commissary net proceeds. The Sheriff's office deposits net proceeds from commissary sales along with other inmate money in the inmate commissary bank account that had a balance of $46,465 at December 31, 2021. The Sheriff's assistant was able to identify $17,678 of e-cigarette profit and $3,503 of other commissary profits as of December 31, 2021. The Sheriff's assistant stated a lump sum is transferred annually such as the $60,000 transferred in October 2021. The new Jail Administrator indicated he is learning on the job and was unaware this needed to be done on a regular basis.

Section 221.102, RSMo, requires each county jail to keep revenues from its commissary in a separate account and pay for goods and other expenses from that account, allows retention of a minimum amount of money in the account for cash flow purposes and current expense, and requires deposit of the remaining funds (net proceeds) into the county Inmate Prisoner Detainee Security Fund held by the County Collector-Treasurer. Allowing net proceeds

to accumulate in the account without preparing a monthly list of liabilities, as stated in finding 1.4 above, increases the risk of undetected and unresolved errors.

1.6 Sales tax

The Sheriff's office does not charge or collect sales tax on e-cigarettes sold to inmates not handled by the commissary vendor, and no sales taxes are remitted to the state Department of Revenue (DOR). The Sheriff's assistant indicated they were unaware they needed to collect sales tax on e-cigarettes.

Pursuant to 12 CSR 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax. Section 144.080, RSMo, requires sales tax collections be remitted to DOR on a monthly, quarterly, or annual basis, depending on the amounts collected. Therefore, the Sheriff should be charging and collecting sales tax and remitting tax collections to the DOR.

Similar conditions previously reported

Similar conditions to sections 1.1, 1.2, and 1.3 were noted in our prior audit report.

Recommendations

The Sheriff:

1.1 Work with the County Commission to obtain written agreements with the counties and cities for the boarding of prisoners. In addition, the Sheriff should develop procedures to monitor and pursue collection of costs for boarding non-state prisoners.

1.2 Ensure deposits are made timely.

1.3 Attempt to return unclaimed balances to the former inmates. If the payee cannot be located, the amount should be disbursed in accordance with state law.

1.4 Prepare a monthly list of liabilities and reconcile the list to the reconciled bank balance. Any differences should be promptly investigated and resolved, and any unidentified money disposed of in accordance with state law.

1.5 Disburse net proceeds not necessary to meet cash flow needs or current operating expenses to the County Collector-Treasurer for deposit into the Inmate Prisoner Detainee Security Fund.

1.6 Contact the DOR for guidance on establishing procedures for charging and collecting sales tax on e-cigarettes and ensure future sales tax collections are remitted to the DOR.

Auditee's Response

The Sheriff provided the following responses:

1.1 The Sheriff's Office/Texas County Jail will work with the Commission regarding written agreements with other counties and cities concerning the cost of board bills and payment. We will also discuss different options for the course of action when board bills are not paid. The Missouri Sheriff's Association is also trying to develop a solution for all counties in the state.

1.2 The Sheriff's Office will deposit more frequently.

1.3 The Jail Administrator will begin turning over unclaimed inmate balances to the Missouri State Treasurer's Unclaimed Property Division.

1.4 The Jail Administrator will begin preparing a monthly listing of liabilities. If there are any, the Jail Administrator will promptly investigate any discrepancies in the listing of liabilities and make sure it is reconciled with the bank balances.

1.5 The Jail Administrator will begin a regular schedule of transferring funds from the inmate commissary account to the Collector-Treasurer's Inmate Prisoner Detainee Security Fund.

1.6 E-Cigarettes are no longer available in the jail. The Jail Administrator has already contacted the DOR and begun the process of acquiring what is needed to begin charging and collecting sales tax on certain items sold within the jail for commissary and has begun the procedure to transfer tax collections to the DOR.

The County Commission provided the following response:

1.1 We will consider the recommendation. We will discuss this with other counties.

2. County Collector-Treasurer and Property Tax System

Controls and procedures over the property tax system need improvement. The County Collector-Treasurer processed property tax collections totaling approximately $13.2 million during the year ended February 28, 2022.

2.1 Commissions

Incorrect percentages were used to calculate some commissions collected by the County Collector-Treasurer for the year ended February 28, 2022, resulting in the county collecting a total of $72,781 more than allowed by law in December 2021.

The County Collector-Treasurer incorrectly withheld a 3 percent commission on current real estate and personal property taxes instead of the 2 percent allowed by law. For December 2021, this resulted in the county collecting $77,478 more than allowed, and therefore, amounts are owed to various political subdivisions. The County-Collector Treasurer indicated this occurred because the County Clerk entered the incorrect commission percentage into the property tax system. No one in the county reviewed the commission rates entered into the system.

In addition, the County Collector-Treasurer incorrectly withheld a 2 percent commission on all railroad and utility taxes collected rather than the required 3 percent. For December 2021, this resulted in $4,697 less withheld than allowed. The County Collector-Treasurer stated she believed the commission amount for Railroad and Utility taxes was based on the 2 percent fee collected on total collections of current real and personal property taxes, and not the 3 percent statutory rate for railroad and utility taxes.

Section 54.280.2, RSMo, provides the commission fee structure for the collection of current taxes. It allows a 2 percent commission rate when the total amount of taxes levied is between $9 million and $13 million. Current taxes levied for Texas County for the year ended February 28, 2022, were approximately $11.9 million.

Section 54.320.1, RSMo, requires the County Collector-Treasurer to collect on behalf of the county a fee of 3 percent on all licenses, including current railroad and utility taxes, surtax, back taxes, delinquent taxes, and interest collected by the County Collector-Treasurer to be deducted from the amounts collected.

2.2 Computer access

The county has not adequately restricted property tax system access. The County Collector-Treasurer and her office personnel have access rights in the property tax system allowing them to make changes to individual tax records and there is no independent review of changes made to individual tax records in the system. The County Collector-Treasurer indicated she does not make changes to individual tax records and is unsure why she has access. Because the County Collector-Treasurer is responsible for collecting tax money, the ability to alter tax records represents a significant weakness in internal controls. Good internal controls require the County Collector-Treasurer and other office personnel not have access rights allowing alteration or deletion of tax rates, assessed valuations, and property tax billing information.

In addition, the County Collector-Treasurer and her office personnel had access to the county payroll system for 5 months longer than needed. The County Commission provided the County Collector-Treasurer access to the payroll system in October 2021, when the prior County Clerk was not fulfilling her job duties; however, the county did not remove the access until

April 2022 after we discussed this matter with the County Clerk. The new County Clerk took office on November 16, 2021, at which point, the County Collector-Treasurer no longer needed access.

Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making changes to the tax books upon order of the County Commission. If it is not feasible for the County Clerk to make corrections to the tax books, an independent reconciliation of approved changes to actual changes made to the property tax system would help ensure changes are proper. In addition, access to the payroll system should be limited based on user needs to prevent unauthorized changes to the payroll records.

2.3 Account book and annual settlements

The County Clerk does not maintain an account book or other records summarizing property tax charges, transactions, and changes. Although the County Clerk maintains files of tax charges, additions and abatements, and the County Collector-Treasurer's monthly settlements, the County Clerk does not use this information to create an account book. In addition, the County Clerk and the County Commission do not perform adequate procedures to verify the accuracy and completeness of the County Collector-Treasurer's annual settlements. As a result, there is an increased risk of loss, theft, or misuse of property tax money going undetected, and less assurance the annual settlements are complete and accurate. The County Clerk indicated her predecessor did not maintain an account book but she is working with the County Collector-Treasurer to develop one.

Section 51.150.1(2), RSMo, requires the County Clerk to maintain accounts with all persons chargeable with money payable into the county treasury. An account book or other record that summarizes all taxes charged to the County Collector-Treasurer, monthly collections, delinquent credits, addition and abatements, and protested amounts should be maintained by the County Clerk. Such records would help the County Clerk ensure taxes charged and credited to the County Collector-Treasurer are complete and accurate and could also be used by the County Clerk and County Commission to verify the County Collector-Treasurer's annual settlements. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector-Treasurer. Such procedures are intended to establish checks and balances related to the collection of property taxes.

2.4 Tax books

The County Clerk does not prepare or verify the accuracy of the current or delinquent tax books. The County Collector-Treasurer prepares the real estate and personal property tax books using assessed valuations and tax levies provided by the County Clerk. The County Collector-Treasurer indicated she prepares the tax books for the County Clerk. However, because the County Collector-Treasurer is responsible for collecting property tax money and prepares the tax additions and abatements, good internal controls and state

law require someone independent of the collection process be responsible for generating and testing the accuracy of the tax books. In addition, the County Collector-Treasurer prepares the delinquent tax books by combining the uncollected taxes from the current tax year and uncollected taxes from all prior years. The County Clerk indicated that because she took office in October 2021, she is still working with the County Collector-Treasurer to produce the tax books in the future.

A review of the current and delinquent tax books should include verification of individual entries in the current tax books and recalculating tax book totals and charges. Failure to properly prepare and/or review the tax books and test individual tax statement computations may result in errors or irregularities going undetected.

Sections 137.290 and 140.050, RSMo, require the County Clerk to extend the current and delinquent tax books and charge the County Collector-Treasurer with the amount of taxes to be collected. If it is not feasible for the County Clerk to prepare the tax books, at a minimum, the accuracy of the tax books should be verified and approval of the tax book amounts to be charged to the County Collector-Treasurer should be documented.

Similar conditions previously reported

Similar conditions to sections 2.1 and 2.2 were noted in our prior audit report.

Recommendations

2.1 The County Collector-Treasurer recalculate all commissions and correct distributions to the various political subdivisions. The County Collector-Treasurer should also ensure the correct percentage is collected on all commissions including reviewing commission amounts periodically to ensure they are in accordance with state statutes.

2.2 The County Commission and the County Clerk develop procedures to ensure all property tax changes are properly approved and monitored. The County Commission should work with the County Collector-Treasurer to ensure property tax and payroll system access rights are limited to only what is needed for the users to perform their job duties and responsibilities.

2.3 The County Clerk maintain an account book with the County Collector-Treasurer. In addition, the County Clerk and County Commission should use the account book to review the accuracy and completeness of the County Collector-Treasurer's annual settlements.

2.4 The County Clerk prepare the current and delinquent tax books, or at a minimum, verify the accuracy of the tax books prior to charging the

County Collector-Treasurer with the property tax amounts to be collected. The County Clerk's procedures should be documented.

Auditee's Response

The County Collector-Treasurer provided the following response:

2.1 I will work with the County Commission to correct distributions. The commission percentages have been corrected and double checked.

The County Commission and County Clerk provided the following responses:

2.2&
2.3 We have implemented the recommendation.

The County Clerk provided the following response:

2.4 I have implemented the recommendation.

3. County Clerk's Procedures

The County Clerk's procedures for paying credit cards timely and maintaining expenditure and revenue documentation need improvement.

3.1 Credit cards

The previous County Clerk did not pay credit cards timely. The county maintains 8 credit cards for use by various county offices. The previous County Clerk did not pay the billings for 2 of these cards from July to October 2021. The county incurred a $77 late fee. The County Commission and current County Clerk do not know why the former County Clerk did not pay timely.

Controls and procedures to ensure timely disbursements are necessary to prevent unnecessary fees and finance charges.

3.2 Supporting documentation

The previous County Clerk did not maintain adequate documentation to support some expenditures and liquor license receipts. During our review of County Commission meeting minutes, we noted the County Clerk did not always provide invoices to the County Commission. We judgmentally selected one month to review for invoice documentation. During our review of expenditures for the month September 2021, we identified 91 payments totaling $86,100 that did not have supporting documentation. In addition, the County Clerk did not maintain copies of 31 liquor licenses that were paid in June 2021. We contacted a selection of vendors to confirm the liquor licenses were paid and issued.

All expenditures should include proper supporting documentation that is reconciled to billing statements to ensure the obligation was actually incurred and the disbursement represents an appropriate use of public funds. In addition, to reduce the risk of loss, theft, of misuse of liquor license money,

and to provide assurance all liquor license money is accounted for properly, procedures to account for liquor licenses should be improved. Retention of records is necessary to ensure the validity of transactions and provide an audit trail. Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records.

Recommendations

3.1 The County Commission and County Clerk implement procedures to ensure bills are paid timely to avoid late fees.

3.2 The County Clerk maintain supporting documentation for all expenditures and liquor licenses.

Auditee's Response

The County Commission and County Clerk provided the following response:

3.1 Bills are now paid timely and we have not had any late fees.

The County Clerk provided the following response:

3.2 We have implemented the recommendation.

4. Public Administrator's Controls and Procedures

Controls and procedures in the Public Administrator's office need improvement. The Public Administrator is the court-appointed personal representative for wards or decedent estates of the Circuit Court, Probate Division. The Public Administrator's office was responsible for the financial activity of 45 wards and estates as of December 31, 2021.

4.1 Annual settlements

The Public Administrator does not always file annual settlements timely. During our review of 6 active cases with annual settlements due in 2021, we found the Public Administrator did not file the annual settlement in 2021 for any of them. The Public Administrator indicated the previous Public Administrator used an attorney to prepare the settlements through December 2020; however, the county did not contract with a new attorney until October 2021.

Sections 473.540 and 475.270, RSMo, require the Public Administrator to file an annual settlement with the court for each ward or estate. Timely filing of annual settlements is necessary for the court to properly oversee the administration of cases and reduce the possibility that errors, loss, theft, or misuse of funds will go undetected.

A similar finding was noted in our prior 4 audit reports.

4.2 Former Public Administrator cases

The former Public Administrator did not turn over all applicable accounts to the current Public Administrator when her term expired. The former Public Administrator issued two checks dated December 17, 2020, to be deposited into new bank accounts for the current Public Administrator, but did not turn the checks over to the current Public Administrator timely. The current Public Administrator deposited one check for $30,000, upon receipt, on November 3, 2021. The current Public Administrator deposited another check for $374,500, upon receipt, on April 14, 2021. The current Public Administrator indicated the former Public Administrator was working on closing the bank accounts and finalizing annual settlements, but was unable to finish her work.

Section 473.767, RSMo, requires the public administrator to deliver property prior to leaving his or her term of office. Timely turnover of ward assets is necessary to allow the newly elected official to administer cases effectively, and reduce the possibility that loss, theft, or misuse of funds will go undetected.

Recommendations

The Public Administrator:

4.1 File annual settlements timely.

4.2 Ensure all records are timely turned over at the end of term as required by state law.

Auditee's Response

4.1 I will implement the recommendation. I am in the process of filing annual settlements for all wards.

4.2 I will implement the recommendation.

5. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately $121,000 in bad check and court-ordered restitution and fees and delinquent taxes during the year ended December 31, 2021.

5.1 Inactive bank account

The Prosecuting Attorney maintains an inactive bad check bank account. The balance of this account was $6,165 as of December 31, 2021, comprised of unidentified money. The Prosecuting Attorney indicated his office is working on reducing the account balance in order to close the account; however, more current matters have priority.

Maintaining an inactive bank account increases the risk of loss, theft, or misuse of funds. Various statutory provisions provide for the disposition of unclaimed money.

5.2 Accounts receivable

The Prosecuting Attorney's office does not generate or prepare monthly lists of unpaid bad checks or a report of unpaid court-ordered restitution, including court-ordered restitution for bad checks. The Prosecuting Attorney indicated the office generates restitution reports for some individuals to support criminal motions made during proceedings to revoke probation. At our request, a list of accounts receivable was prepared as of February 4, 2022, that identified $31,600 of unpaid bad checks and $404,906 in outstanding court-ordered restitution. The court-ordered restitution cases dated back to 2010 and 8 of the 227 account balances were greater than $10,000.

A complete and accurate list of unpaid bad checks and restitution would allow the Prosecuting Attorney's office to more easily review the amounts due, take appropriate steps to ensure amounts due are collected, and determine if any amounts are uncollectible.

Similar conditions previously reported

A condition similar to section 5.1 was noted in our prior 4 audit reports, and a condition similar to section 5.2 was noted in our prior 2 audit reports.

Recommendations

The Prosecuting Attorney:

5.1 Dispose of money held in the inactive bank account in accordance with state law and close the account.

5.2 Establish procedures to monitor and collect accounts receivable.

Auditee's Response

5.1& 5.2 I will implement the recommendations.

Texas County
Organization and Statistical Information

Texas County is a township-organized, third-class county. The county seat is Houston.

Texas County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 67 full-time employees and 8 part-time employees on December 31, 2021. The townships maintain county roads.

In addition, county operations include a Habilitation Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2022	2021
Scott Long, Presiding Commissioner	$	30,380
John Casey, Associate Commissioner		28,380
Doyle Heiney, Associate Commissioner		28,380
Lindsay Koch, Recorder of Deeds		43,000
Peggy Seyler, County Clerk (1)		9,429
Laura Crowley, County Clerk		34,731
Parke J. Stevens, Jr., Prosecuting Attorney		145,334
Scott Lindsey, Sheriff		47,999
Marie Lasater, County Coroner		15,000
Tina Garrett, Public Administrator		43,000
Tammy Cantrell, County Collector-Treasurer, year ended February 28, (2)	51,740	
Debbie James, County Assessor, year ended August 31,		43,000
Charles Manier, County Surveyor (3)		

(1) Laura Crowley resigned in October 2021. Peggy Seyler served as interim County Clerk until she was appointed as the County Clerk effective November 16, 2021.

(2) Includes $8,740 of commissions earned for collecting city property taxes.

(3) Compensation on a fee basis.

*Includes selected findings

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Cross Timbers, Missouri

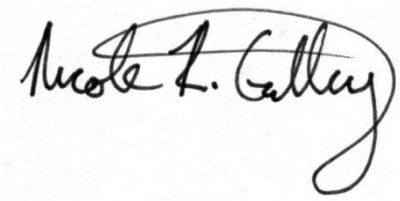
We have conducted follow-up work on certain audit report findings contained in Report No. 2022-020, *City of Cross Timbers* (rated as Poor), issued in March 2022, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the city about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by the current City Clerk and held discussions with the Mayor to verify the status of implementation for the recommendations. Documentation provided by the city included Board meeting minutes, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during October and November 2022. While working with the city in conducting the follow-up work, we identified deleted utility transactions and various concerns related to the handling of customer utility payments. Additional work related to these transactions and concerns is planned and will be addressed in a subsequent letter to the Mayor and the Board of Aldermen.



Nicole R. Galloway, CPA
State Auditor

City of Cross Timbers
Follow-Up Report on Audit Findings
Status of Findings

1. Misappropriated Money and Utility Services

From October 1, 2017, through July 31, 2020, money and utility services totaling at least $44,452 was misappropriated from the city by the City Clerk.[1] City receipts totaling $21,474 were not deposited by the City Clerk. Overpayments totaling $6,132 and questionable payments totaling $13,525 were also paid to the City Clerk. Supporting documentation was not maintained for $569 of reimbursements made to the City Clerk. Improperly recorded utility payments totaling $1,973 and improper adjustments totaling $234 were applied to the utility account of the City Clerk, and $545 of utility services were not properly billed to the City Clerk.

In addition, the Board did not adequately monitor its activities for conflicts of interest. From January 2015 through September 2019, we estimated $4,036 of utility services were not properly billed to former Alderman Baker. Also, improperly recorded utility payments totaling $430 and improper net adjustments of $814 were applied to former Alderman Baker's utility account.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of the overpayments, questionable payments, improper payments, improperly recorded utility payments and adjustments, utility services improperly not billed, and undeposited city receipts; and take the necessary actions to obtain restitution. The Board should also closely examine city transactions to identify conflicts of interest.

Status

Partially Implemented

The City Clerk was charged with Class C felony stealing on July 26, 2022, and the case is ongoing as of November 2022. City officials indicated the city has not taken any action to obtain restitution from former Alderman Baker because he sold his property, moved out of town, and did not leave a forwarding address. Thus, the city cannot place a lien upon the property to collect utilities owed and cannot send him a bill. Therefore, the city has written off his delinquent utility account balance. All disbursement transactions are reviewed at each Board meeting before checks are signed for conflicts of interest. Procedures have been established by the Board to address the city's related employees, including an independent review of timesheets and checks for payment. However, those procedures are not always followed as indicated in the status of finding number 4.4. The Board also reviews utility reports at monthly meetings. However, adequate procedures have not been established to review conflicts of interests related to utility accounts.

2. Financial Condition

The city was in poor financial condition, and the Board had not adequately monitored that condition.

[1] The City Clerk referenced throughout this report is the former City Clerk.

Recommendation

The Board of Aldermen perform immediate and long-term planning, and closely monitor and take necessary steps to improve the city's financial condition.

Status

Partially Implemented

City records indicated the city had cash balances totaling $52,335 as of August 1, 2022, in various accounts, which is an improvement over the $27,221 balance at December 31, 2020.

The city is currently paying all current bills due and has implemented procedures to monitor spending and cash balances each month. The city is making monthly agreed-upon payments on past due balances owed for electric, payroll taxes, pumping equipment and services, and the state audit. However, as of August 2022, the city still owed over $62,000 to these entities. In addition, the utility system indicated $6,361 should have been on hand in the Meter Fund Account for customer utility deposits in October 2022. However, the Meter Fund Account balance was only $1,684, resulting in a shortage of $4,677, which is a $69 increase from the shortage noted during the audit. Additionally, as noted in the status of finding number 5.5, the city improperly authorized loans between some city funds in August 2022 to pay a propane bill.

The city did not prepare a budget for the year ending December 31, 2022, and the Mayor indicated the Board had not performed any long-term planning due to the immediate financial concerns. The Mayor also indicated that the financial shape of the city is still poor, but current monthly balances are being paid. The Mayor also indicated as the city continues to improve its financial status, the Board will proceed with preparing a yearly budget and planning statement, and plans to do this within the next 6 months.

3. Oversight, Annual Audits, and City Ordinances

The Board did not establish adequate oversight or obtain annual audits as required by state law. City ordinances also needed improvement.

3.1 Oversight and segregation of duties

The Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the City Clerk.

Recommendation

The Board of Aldermen segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.

Status

Partially Implemented

The Board meets twice a month to review and monitor city activities. The Board documents its review of a Board packet prepared by the current City

Clerk, that includes a utility adjustment report, utility water loss report, utility accounts receivable report, utility receipt and deposit report, bank statements, listing of bills and cash balances, invoices with copies of related checks to be paid, timesheets, and a financial report. We reviewed the Board's packet for August 2022 and found documentation of the Board's review. However, concerns related to deleted transactions in the electronic utility system (see status of finding number 6.1) and the handling of city receipts (see status of finding number 5.1) were identified during our follow-up work and additional reviews and monitoring procedures are needed.

3.2 Annual audits

The city had not obtained annual audits of its combined water and sewer system as required by state law and the construction loan/grant agreement.

Recommendation

The Board of Aldermen obtain annual audits of the combined water and sewer system as required by state law and loan/grant agreement.

Status

Not Implemented

The city has not obtained an annual audit of the water and sewer system. City officials indicated as funds become available an annual audit will be obtained. However, no specific plans to obtain an audit have been made.

3.3 City ordinances

City ordinances were not complete and had not been updated since 2013. The city did not have ordinances establishing the compensation of city officials and employees. Ordinances were poorly maintained. Many ordinances were old and not updated, and an index of all ordinances passed and rescinded by the city was not maintained. City Ordinance No. 13-5-1 authorizing the amount billed to water and sewer customers had not been updated since 2013.

Recommendation

The Board of Aldermen establish the compensation of all city officials and employees by ordinance as required by statute, ensure ordinances are maintained in a complete and well-organized manner, establish an index of all ordinances passed and rescinded, and update ordinances for water and sewer rates.

Status

In Progress

An ordinance establishing the compensation of the current City Clerk and Maintenance Technician has been drafted and is planned to be adopted by the Board in December 2022. The city is in the process of hiring an attorney to assist the Board with updating city ordinances and establishing an index. The Board updated the city's ordinance regarding water and sewer rates in September 2021.

4. Payroll and Related Matters

Significant improvement over controls and procedures related to contract workers and payroll was needed.

4.1 Employment classifications

The Board did not document the basis for classifying the City Clerk and the former Maintenance Supervisor as independent contractors rather than employees.

Recommendation

The Board of Aldermen determine the proper classification for the City Clerk and Maintenance Supervisor to ensure compliance with state and federal laws and regulations.

Status

Not Implemented

The Board continues to pay the current City Clerk and Maintenance Technician as independent contractors rather than employees, and has not documented the basis for this classification. City officials indicated they plan to review and obtain documentation for the basis of proper classification and will implement a plan for the current City Clerk and Maintenance Technician to be classified as employees, if the city is still unable to verify an independent contractor classification. However, the city has no specific plans for accomplishing this.

4.2 Past due payroll taxes

The Board and City Clerk did not pay past due payroll taxes, interest, and penalties due for 13 quarters, and as a result, the city owed the Internal Revenue Service (IRS) $15,255 as of September 15, 2021. The city started making monthly payments to the IRS of $139 in December 2019; however, the monthly payment was not sufficient to reduce the balance of the taxes owed because the penalties and interest increased more than the payments made.

Recommendation

The Board of Aldermen ensure sufficient payments of past due payroll taxes are remitted timely to the appropriate taxing entities to reduce balances due.

Status

In Progress

City records indicated the city has paid the IRS $200 each month and still owes the IRS approximately $13,430 at the end of August 2022.

4.3 Pay advances

The City Clerk issued herself pay advances totaling $7,311 from November 2017 through February 2019 in violation of the Missouri Constitution. Eight checks were issued prior to the end of the month in which services were provided.

Recommendation

The Board of Aldermen discontinue the practice of providing pay advances to workers.

Status

Implemented

City officials indicated payments are no longer made in advance and payments to workers are reviewed at each Board meeting. Our review of payments made to the current City Clerk and Maintenance Technician in June, July, and August 2022 indicated no payments were made in advance.

4.4 Timesheets

The City Clerk did not prepare timesheets. In addition, calendars maintained documenting hours worked were not retained for 2017 and 2020, and calendars maintained for 2018 and 2019 were not always accurate. In addition, Board members indicated the calendars were not always submitted for review, and when they were submitted, the Board did not document this review. Timesheets or other documentation of work performed was not prepared by the former Maintenance Supervisor to support contracted payments made.

Recommendation

The Board of Aldermen ensure timesheets or other records of work performed are prepared accurately, retained, and properly signed and approved.

Status

Partially Implemented

Our review of the current City Clerk's 6 timesheets prepared during the months of June, July, and August 2022 showed the current City Clerk and the Board signed each of the timesheets. However, our review of the Maintenance Technician's 12 timesheets during the months of June, July, and August 2022 showed the Maintenance Technician did not sign 2 timesheets in July 2022, and the Board did not sign 2 timesheets (1 in July and 1 in August).

4.5 Independent contractors

The city misclassified the City Clerk and former Maintenance Supervisor as independent contractors rather than employees. However, had this classification been appropriate, the Board did not enter into a written contract with the City Clerk and she did not prepare and file 1099 forms for payments made to herself during 2017 and 2018, and prepared an inaccurate 1099 form for 2019 payments.

In addition, the City Clerk did not prepare and file a 1099 form for payments made and the value of free utility services provided to the former Maintenance Supervisor for 2018, and the 1099 form for 2019 was not accurate and did not include the value of free utility services provided.

Recommendation

The Board of Aldermen execute and retain written contracts for services that specify the services to be rendered and the manner and amount of payments to be paid. The Board should also establish procedures to ensure all payments are properly reported and payroll taxes are withheld and remitted to the appropriate taxing entity. The Board and the current City Clerk should prepare or amend the applicable tax forms issued to the City Clerk and former Maintenance Supervisor for compensation provided as appropriate.

Status	**Partially Implemented** The Board obtained a written contract for services provided by the current City Clerk and Maintenance Technician in January 2022. The city classifies workers as contracted employees; therefore, no payroll taxes are withheld and remitted to taxing entities. Forms 1099 were prepared and filed with appropriate taxing entities for 2021. However, they were not accurate. City officials indicated the city plans to prepare and amend the applicable tax forms for the current and former City Clerk and current Maintenance Technician and former Maintenance Supervisor at the start of 2023.
4.6 Cost allocations	The city had no documentation to justify the allocation of the amounts paid the City Clerk and former Maintenance Supervisor to the various city bank accounts.
Recommendation	The Board of Aldermen allocate disbursements to city accounts based on specific criteria and retain documentation to support the allocation.
Status	**Not Implemented** Currently, the city allocates 50 percent of the amounts paid to the current City Clerk and Maintenance Technician to the Water Account and the other 50 percent to the Sewer Account. The city has no documentation to justify this allocation, but city officials indicated the City Tax Account did not have sufficient funds to pay the current City Clerk, so the city is not currently allocating costs to that account. City officials indicated they plan to document the justification and allocation of amounts paid in the future and as funds become available in the City Tax Account, they will also allocate costs to that account. However, the city has no specific plans to complete this.
5. Accounting Controls and Procedures and Disbursements	Accounting controls and procedures and disbursements needed improvement.
5.1 Receipting, recording, and depositing	The city's procedures for receipting, recording, and depositing payments received were poor. • Manual receipt slips were not always issued and property tax statements were not always marked paid or retained. • The City Clerk did not always accurately and promptly record water/sewer receipts to customer accounts in the utility system, and some utility payments were not posted to the utility system. • The method of payment (cash, check, or money order) was not always recorded on manual receipt slips or on property tax statements. In

addition, if the method of payment was not marked in the utility system, the system's default method of payment was by check. We noted numerous instances where a check payment was not included in the related deposits. The City Clerk also marked utility payments as "other" payments in the utility system without indicating the method of payment. In addition, the City Clerk did not reconcile the composition of receipts to the composition of deposits.

- The City Clerk did not issue manual receipt slips in numerical sequence, some receipt slips were skipped and not properly defaced to prevent later use, and electronic transaction numbers were not entered in date order in the utility system.

- The City Clerk did not always deposit receipts intact and occasionally withheld cash receipts from deposits to pay city invoices.

Recommendation

The Board of Aldermen issue prenumbered receipt slips for all payments received, indicate the method of payment on all receipt slips, account for the numerical sequence of receipt slips, reconcile the composition of receipts to the composition of deposits, require receipts be accurately and promptly recorded to the utility system, and deposit all payments received intact. Additionally, discontinue paying city expenses from city receipts and if a petty cash fund is needed to pay city expenses, the Board should authorize the fund and its uses and require the fund be maintained on an imprest basis and all activity be recorded on a petty cash fund ledger.

Status

Partially Implemented

Prenumbered receipt slips are not issued for money received for deposits and the rental of the community building, and were only issued for utility payments when requested. Our review of manual receipt slips and transactions recorded in the electronic utility system from July 2022 to October 2022 showed the method of payment was indicated on all manual receipt slips; checks and money order payments received were recorded as checks in the utility system and cash payments were recorded as other in the utility system. Also, the date money was received was not always recorded on the manual receipt slips and 2 manual receipt slip books were used simultaneously. As a result, receipt slips were not issued in numerical sequence; transactions were not recorded in sequential date order in the electronic utility system; some transactions had been deleted; receipts were not properly reconciled to deposits; receipts were not promptly recorded to the utility system; and some payments received were not deposited or not deposited intact and timely. The current City Clerk generally recorded receipts in the electronic utility system and deposited receipts once a month. City officials indicated they discontinued paying city expenses from city receipts, do not maintain a petty cash fund, and pay all expenses with a check.

Additional work related to these transactions and concerns is planned and will be addressed in a subsequent letter to the Mayor and the Board of Aldermen.

5.2 Bank reconciliations, checks, and accounting records

The City Clerk did not prepare bank reconciliations for any of the city's 7 bank accounts; maintain a checkbook register, or book balances; and always issue checks in numerical order.

Recommendation

The Board of Aldermen ensure monthly bank reconciliations are prepared for all bank accounts; checkbook registers, book balances, and lists of disbursements are maintained; and checks are issued in numerical sequence with the sequence properly accounted for.

Status

Partially Implemented

An electronic accounting system, that acts as a checkbook register, is maintained that shows book balances and all disbursements. Checks were issued in numerical sequence. However, our review of accounting records for August 2022 showed formal monthly bank reconciliations were not prepared for all bank accounts.

5.3 Board review and approval process

The City Clerk did not prepare a list of bills or monthly financial reports for the Board's review. Board members indicated bank statements and monthly utility reports were sometimes provided to the Board for review, but they did not document this review. Board members also did not always review invoices or require invoices to be marked paid, several payments were made with no supporting documentation, and documentation of the receipt of goods or services on the invoices was not required. The Board also failed to monitor the city's cash balances. As a result, the city incurred overdraft and maintenance charges in various city bank accounts.

Recommendation

The Board of Aldermen ensure an accurate and complete monthly list of bills is prepared and compared to invoices and checks written, and monthly financial reports are prepared and reviewed for accuracy. In addition, the Board should ensure invoices are marked paid and adequately reviewed, and require documentation of receipt of goods and/or services prior to payment of invoices. The Board should also document its review of monthly bank statements and utility reports and properly monitor bank account balances to avoid bank charges.

Status

Partially Implemented

The Board meets twice a month to review and monitor city activities. The Board documents its review of a Board packet prepared by the current City Clerk that includes a utility adjustment report, utility water loss report, utility accounts receivable report, utility receipt and deposit report, bank statements, listing of bills and cash balances, invoices with copies of related checks to be

paid, timesheets, and a financial report. We reviewed a Board packet for August 2022 and found documentation of the Board's review of all of these reports. No bank charges were noted on the August 2022 bank statements. However, our review of invoices paid in August 2022 showed invoices were not marked paid and documentation of receipt of goods or services was not noted on the invoices.

5.4 Sewer loan requirements

The Board and City Clerk did not ensure required sewer loan payments occurred.

Recommendation

The Board of Aldermen ensure compliance with payment requirements of loan agreements.

Status

Implemented

The city is currently making monthly payments on current amounts owed and made a final payment on past due amounts in June 2022.

5.5 Excessive and unauthorized transfers and commingling of restricted funds

The City Clerk made excessive and unauthorized transfers between various bank accounts. The city also had not established adequate procedures to ensure restricted funds were credited to the appropriate account or used only for intended purposes.

Recommendation

The Board of Aldermen monitor and reduce the number of transfers made between bank accounts, and ensure transfers are not prohibited by state law. The Board should also determine the amount of restricted funds in the city's accounts and establish separate funds or a separate accounting of this money, including the balances.

Status

Partially Implemented

The number of transfers was reduced to 10 transfers during August 2022. However, 2 of the transfers were for a loan from the Gasoline Tax Account to the Community Building Account ($938) and the City Tax Account ($938) to pay the city's propane bill. These loans/transfers are prohibited by state law because the Gasoline Tax Account contains state motor vehicle-related receipts that are not allowed to be used for this purpose. The remaining 8 transfers were made to allocate the city's insurance bill to various city funds and to transfer sewer collections deposited into the Water Account to the Sewer Account. However, 1 transfer made to allocate the city's insurance bill was transferred in error. The current City Clerk corrected the erroneous transfer after the audit staff notified her of the error.

5.6 Untimely payments

The City Clerk did not ensure some bills were paid timely. As of June 30, 2020, 3 invoices totaling $28,888 were outstanding for telephone, electric,

and pumping equipment and service bills. The city still owed 2 of these 3 vendors more than $20,000 as of September 15, 2021.

Recommendation

The Board of Aldermen ensure all invoices are paid timely.

Status

In Progress

The city is currently paying all current bills due. The city is making monthly agreed-upon payments on past due balances owed for electric, payroll taxes, pumping equipment and services, and the state audit.

5.7 Record retention

City officials could not provide copies of some meeting minutes, invoices, delinquent notices from the IRS, the City Clerk's calendars of time worked, 1099 forms, and documentation of expense reimbursements.

Recommendation

The Board of Aldermen retain records in accordance with state law.

Status

Implemented

City officials indicated all records are being retained. All records we requested were available for our review.

6. Utility System Controls and Procedures

Utility system controls and procedures needed improvement.

6.1 Adjustments and deleted transactions

Improper adjustments were made to the utility account of the City Clerk and former Alderman Baker. The City Clerk also made adjustments to customer accounts without obtaining independent approval by the Board or documenting the reason for the adjustment.

The City Clerk also had the ability to delete transactions, and the Board did not review and approve deleted transactions in the utility system or periodically obtain a report of deleted transactions from the utility system vendor to review. No explanation or reason was documented for any of the deleted transactions.

Recommendation

The Board of Aldermen evaluate utility system changes to prevent or track deleted transactions, and require an independent and/or supervisory review and approval of all adjustments and deleted transactions made in the utility system.

Status

Partially Implemented

The Board documented its review of adjustments made to the utility system for August 2022, and the reasons for the adjustments were documented. However, some of the adjustments made were unusual. In addition, the Board

does not review transaction numbers to ensure transactions have not been deleted. Our review of the electronic utility system identified 51 deleted transactions from July 2022 to October 2022.

Additional work related to these transactions and concerns is planned and will be addressed in a subsequent letter to the Mayor and the Board of Aldermen.

6.2 Utility reconciliations

The City Clerk did not perform monthly reconciliations of amounts billed, payments received, and amounts unpaid for utility services. The Maintenance Supervisor did not perform monthly reconciliations of total gallons of water billed to gallons of water pumped.

Recommendation

The Board of Aldermen ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts, and of gallons of water billed to gallons pumped, and investigate significant differences.

Status

In Progress

Reconciliation reports are prepared by the city's utility system software, and the current City Clerk indicated she is currently working to reconcile the amounts billed, payments received, and amounts unpaid for utility services. However, at the time of our review, the Maintenance Technician was not able to accurately reconcile gallons of water billed to gallons of water pumped because the meter in the well house was broken. City officials indicated the meter has now been repaired and the city will begin reconciling the gallons of water billed to gallons pumped and will ensure any leaks are addressed.

6.3 Utility deposits

The city did not reconcile customer utility deposit balances reported in the utility system to the city's Meter Fund bank account, and the City Clerk transferred amounts from the Meter Fund bank account to other bank accounts to pay city bills.

Recommendation

The Board of Aldermen periodically reconcile customer utility deposits per the utility system to accounting records and cash balances, and promptly investigate any differences.

Status

Not Implemented

The utility system indicated $6,361 should have been on hand in the Meter Fund bank account for customer utility deposits in October 2022. However, the reconciled cash balance for the Meter Fund bank account was $1,684, resulting in a shortage of $4,677. The current City Clerk indicated the utility system did not accurately reflect when utility deposits were applied to utility accounts or refunded. Minimal efforts to investigate and resolve the errors or shortage in the Meter Fund bank account had been made by the city at the time of our review in October 2022.

Additional work related to these transactions and concerns is planned and will be addressed in a subsequent letter to the Mayor and the Board of Aldermen.

6.4 Delinquent utility accounts

Delinquent utility accounts were not always shut off after 30 days past due as required by ordinance, and the City Clerk allowed some customers to make partial payments on delinquent accounts without Board approval.

Recommendation

The Board of Aldermen ensure utility service is shut off in accordance with city ordinance. In addition, if the Board wants to allow partial payments, the Board should establish a written partial payment policy, review and approve customer payment agreements, and monitor delinquent accounts.

Status

Partially Implemented

Our review of delinquent utility accounts as of October 24, 2022, showed 5 utility account balances were overdue between 60 and 90 days, and 13 utility account balances were overdue 90 days or more, including a utility account of the current City Clerk's relative, who owed $485 at the time he moved out of the city. Utility service had not been shut off for 14 of these 18 delinquent utility accounts. However, the current City Clerk indicated she monitored these delinquent accounts each month. City officials indicated they planned to revise city ordinances for current practices, establish a written partial payment policy, and review and approve customer payment agreements in the future. However, the city has no specific plans to accomplish this.

Additional work related to these transactions and concerns is planned and will be addressed in a subsequent letter to the Mayor and the Board of Aldermen.

6.5 Water and sewer rates

Current water and sewer rates were not supported by a cost study or other documentation showing how the rates were determined.

Recommendation

The Board of Aldermen ensure a statement of costs is prepared to support utility rate increases and document formal reviews of utility rates periodically to ensure revenues are sufficient to cover all costs of providing these services.

Status

In Progress

Board meeting minutes for September 2022 indicated the Board was planning to meet with a company to perform a cost study to support water and sewer rates.

6.6 Sales tax

The Department of Revenue notified the city it had not filed or remitted sales taxes collected related to utility services provided for some months.

Recommendation

The Board of Aldermen ensure sales taxes collected are reported and remitted timely.

Status	**Partially Implemented** The current City Clerk reported and remitted sales taxes timely for the last quarter of 2021 and the second quarter of 2022. However, according to city records, the current City Clerk did not timely report and remit sales taxes for the first quarter of 2022 due on April 30, 2022, until May 11, 2022.
7. Budgets and Financial Reporting	Budgeting and financial reporting procedures needed improvement.
7.1 Budgets	The City Clerk did not prepare a budget for the years ended December 31, 2020, 2019, and 2018.
Recommendation	The Board of Aldermen prepare accurate annual budgets that contain all information required by state law, and ensure the budgets are adequately monitored.
Status	**In Progress** The Board did not prepare a budget for the year ending December 31, 2022. The Mayor indicated as the city continues to improve its financial status, the Board will proceed with preparing a yearly budget and planning statement, and plans to do this within the next 6 months.
7.2 Financial reporting	City officials did not file timely annual financial reports with the State Auditor's Office as required by state law, and the financial statements filed were not accurate.
Recommendation	The Board of Aldermen submit accurate annual financial reports timely to the State Auditor's Office as required by state law.
Status	**Partially Implemented** City officials timely filed an annual financial report for the year ended December 31, 2021. However, it did not include beginning and ending cash balances, as required.
7.3 Published financial statements	The city had not published financial statements for the years ended December 31, 2020, 2019, and 2018.
Recommendation	The Board of Aldermen ensure publication of the city's semiannual financial statements as required by state law.
Status	**Not Implemented**

The Board did not ensure semiannual financial statements were published as required by state law during 2021 or 2022. City officials indicated the city plans to post financial statements on the door of city hall in the future.

8.1 Sunshine Law - Meeting minutes

City officials could not locate meeting minutes for monthly Board meetings occurring in March, April, May, and June 2018, and also February and July 2019. In addition, open meeting minutes for the 2 meetings in November 2019 indicated the Board went into closed sessions, but the minutes did not document the specific reasons or section of law allowing the meetings to be closed, and minutes were not maintained for the closed sessions.

Recommendation

The Board of Aldermen ensure meeting minutes are prepared and retained for all open and closed meetings, and ensure specific reasons for closing a meeting are documented in the open meeting minutes.

Status

Implemented

Board meeting minutes for June, July, and August 2022, were prepared and retained for meetings held and no closed sessions were held during these months.

9. Electronic Data Security

Controls over the city computer were not sufficient to prevent unauthorized access, and sufficient plans and processes were not in place for recovering systems and data.

9.1 Passwords

The city had not established adequate password controls to reduce the risk of unauthorized access to the city's computers and data. The password to access the computer and utility system was not changed periodically, and the password was not required to contain a minimum number of characters.

Recommendation

The Board of Aldermen ensure passwords are periodically changed and contain a minimum number of characters to prevent unauthorized access to the city's computer and data.

Status

Not Implemented

The city's utility software provider indicated passwords had not been periodically changed by the current City Clerk, and passwords were allowed to contain between 4 and 8 characters. In addition, the current City Clerk's passwords were written down in a notebook and not kept confidential. City officials indicated they planned to periodically change passwords and will ensure they contain a minimum number of characters. However, they have no specific plans for implementing these changes.

9.2 Antivirus software

The city did not have antivirus software installed on the city's computer to ensure protection of city data.

Recommendation

The Board of Aldermen ensure the city's computer and systems are adequately protected from computer viruses.

Status

Implemented

The city installed antivirus software in August 2022.

9.3 Data backup

The city did not periodically back up some city data and store the backup data at a secure off-site location.

Recommendation

The Board of Aldermen require data to be backed up regularly, tested periodically, and stored in a secure off-site location.

Status

Implemented

The current City Clerk indicated utility system data is backed up with the utility system software provider approximately once a month and other city data is backed up on 2 flash drives every 6 months. One flash drive is in the possession of the current City Clerk and the other is with the Mayor. The Mayor indicated the Board plans to back up data on the 2 flash drives and test the flash drives monthly in the future.

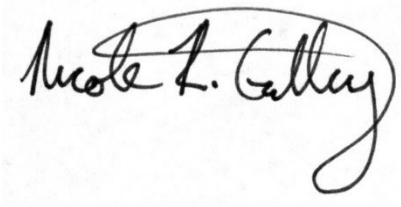
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of October 2022 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In October, the state spent $147.3 million from federal ARP Act assistance (Appendix A). Through the end of October, the state has received $5.03 billion and spent $2.23 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of October 31, 2022, approximately $11.03 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19

services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the

[1] U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule,* January 2022. The final rule took effect April 1, 2022; however, recipients could take advantage of the final rule's flexibilities and simplifications before the effective date.

period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

[2] The time period recipients can spend this funding.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state were required to file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In October, the state spent $147.3 million from federal ARP Act assistance (Appendix A). Through the end of October, the state has received $5.03 billion and spent $2.23 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

Department of Public Safety State Emergency Management Fund [1]	(57,574)	57,574	207,122	0	0	0	(207,122)
FMAP Enhancement Expansion Fund [2]	0	59,586,971	59,586,971	0	0	0	0
Total all Funds	$ 2,799,024,715	157,652,086	147,269,223	0	200,000	124,933	2,809,482,645

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the 2 fiscal years ending June 30, 2023, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between ARP Act and non-ARP Act activity.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2023, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because its appropriations are not used for ARP Act purposes.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

FMAP Enhancement Expansion Fund [3]	578,710,174	578,710,174	0	0	0	0
Total all Funds	$ 5,034,881,657	2,225,597,045	0	1,140,361,995	1,140,163,962	2,809,482,645

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, the DED has occasionally used it to receipt and disburse ARP Act awards due to grant drawdown and budgetary timing challenges.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the 2 fiscal years ending June 30, 2023, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between ARP Act and non-ARP Act activity.

[3] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2023, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because its appropriations are not used for ARP Act purposes.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

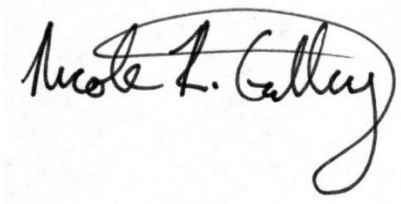
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of October 2022 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In October, the state spent $88.2 million from federal COVID-19 assistance (Appendix A). Through the end of October, the state has received $6.62 billion and spent $6.39 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($2.03 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of October 31, 2022, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of October 31, 2022, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients were permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, Assistance Listing Number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients were permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of October 31, 2022, approximately $4.42 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of October 31, 2022, approximately $2.9 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of October 31, 2022, approximately $11.03 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In October, the state spent $88.2 million from federal COVID-19 assistance (Appendix A). Through the end of October, the state has received a total of $6.62 billion and spent $6.39 billion from this assistance (Appendix B). A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($2.03 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 3 fiscal years ended June 30, 2023, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[2] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the 3 fiscal years ending June 30, 2023, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations, which are included in Appendix C.

[3] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the 2 fiscal years ending June 30, 2023, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 3 fiscal years ended June 30, 2023, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the 3 fiscal years ending June 30, 2023, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations, which are included in Appendix C.

[4] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[5] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the 2 fiscal years ending June 30, 2023, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity.

[6] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supported the Consolidated Appropriations Act's portion of the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administered this fund and indirectly administered (monitored) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflected an upfront transfer to the MHDC. That agency expended these funds by the September 30, 2022, deadline.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services could not directly expend any receipted money from the fund, as it could during the fiscal year ended June 30, 2020.

[3] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients were permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[4] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

2022 Property Tax Rates

Report No. 2022-121

December 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the review of 2022 Property Tax Rates

Background

Property taxes largely fund public schools and are the main source of revenue for many of Missouri's special purpose political subdivisions and county boards. The State Auditor's Office and county officials assist local government officials in determining the data necessary to complete the tax rate computations. Taxing authorities are required to file final proposed tax rates and data supporting the proposed property tax rates with the county, using forms prescribed by the State Auditor. The counties submit the supporting data received to the State Auditor for review. The data is reviewed and a finding is returned to both the county and the taxing authority advising whether the proposed rates comply with Missouri law.

Rate Calculations

Rate ceilings set the limit for the amount of taxes that can be levied. Each tax rate ceiling is determined annually and is adjusted to ensure revenue neutrality. The review of each tax rate ceiling is based on the assessed valuation for the entire political subdivision and is not calculated on an individual taxpayer basis. The 2022 tax rate ceilings were determined based on the requirements of Section 137.073, RSMo, and Missouri Constitution, Article X, Section 22, commonly referred to as the Hancock Amendment, which limits taxation by the state and local governments.

Results

In 2022, the State Auditor received supporting data and reviewed 4,854 property tax rates for 2,809 taxing authorities. Of the rates reviewed, 506 are debt service tax rates, 100 are new property tax rates approved by voters, and 39 are existing property tax rates that were increased by voter approval. We reviewed the remaining 4,209 tax rates for revenue neutrality. This is the eighth year since the review of property tax rates started in 1985 that no taxing authorities levied a tax rate that exceeded the tax rate certified.

Additional Comments

The State Auditor's Office has no authority to determine or review individual tax assessments. All individual tax assessment matters are the responsibility of the county assessor and board of equalization. Appeals to the state on tax assessment matters are handled by the Missouri State Tax Commission.

Because of the nature of this review, no overall rating is provided.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The State Auditor's Office is required by Section 137.073, RSMo, to annually review local property tax rates of all taxing authorities in the state. The primary objectives of this review were to determine whether:

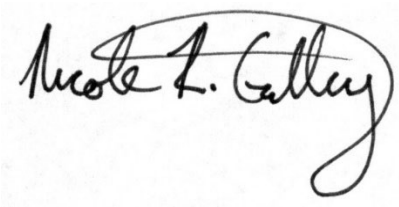
1. Local governing boards levied taxes in accordance with the Missouri Constitution and state law.

2. Local property tax rates were adjusted to ensure property reassessments were revenue neutral.

Reassessments of existing property are not intended to increase property tax revenue but to equitably reallocate the existing tax burden based on the relative value of property owned by taxpayers.

For 2022, we received supporting data on 4,854 property tax rates of 2,809 taxing authorities. This is the eighth year since the State Auditor's Office started reviewing property tax rates that no taxing authorities levied a tax rate that exceeded the tax rate certified.

Property taxes are the main source of revenue for many of Missouri's special purpose political subdivisions and county boards. The bulk of property taxes, however, fund public schools. General acceptance of these taxes is dependent on fair and equitable assessment practices and public understanding and input regarding the setting of rates. If the tax burden is increased without voter approval, confidence in the fairness and assessment practices can be eroded.



Nicole R. Galloway, CPA
State Auditor

2022 Property Tax Rates
Results

Summary

The State Auditor received supporting data and reviewed 4,854 property tax rates for 2,809 taxing authorities.[1] Of the rates reviewed, 506 are debt service tax rates, 100 are new property tax rates approved by voters, and 39 are existing property tax rates that were increased by voter approval. We reviewed the remaining 4,209 tax rates for revenue neutrality. This is the eighth year since the review of property tax rates started in 1985 that no taxing authorities levied a tax rate that exceeded the tax rate certified.

Methodology

The State Auditor's Office and county officials assist local government officials in determining the data necessary to complete the tax rate computations. Taxing authorities are required to file final proposed tax rates and data supporting the proposed property tax rates with the county, using forms prescribed by the State Auditor. The counties submit the supporting data received to the State Auditor for review. The data is reviewed and a finding is returned to both the county and the taxing authority advising whether the proposed rates comply with Missouri law.

The 2022 tax rate ceilings were determined based on the requirements of Section 137.073, RSMo, and Missouri Constitution, Article X, Section 22 (commonly referred to as the Hancock Amendment). Each tax rate ceiling is determined annually and is adjusted to ensure revenue neutrality. The review of each tax rate ceiling is based on the assessed valuation for the entire political subdivision and is not calculated on an individual taxpayer basis.

To ensure taxing authorities do not receive a windfall from reassessment, the review of property tax rates begins with the prior year allowed revenue. Current year tax rate ceilings must be set to yield the same gross revenue as allowed in the prior year. In addition, an adjustment is made for additional revenue permitted for assessment growth. That adjustment is the lower of (1) the actual growth rate, (2) the inflation rate as determined by the consumer price index, or (3) 5 percent. Factors such as new construction and improvements, newly added territory, newly separated territory, and changes from locally assessed to state assessed property also affect the tax rate ceiling calculation. Counties and the City of St. Louis use the tax rates set by each taxing authority to levy taxes on all property including new construction and improvements.

Voters may authorize increases beyond the annual revenue neutral tax rate ceiling. Voter-approved increases are reviewed for compliance with applicable laws and stated ballot restrictions. In addition to reviewing new

[1] Three taxing authorities, Baden Market Centre Special Business District, Kingsway Center Special Business District, and the Village of Lake Tekakwitha did not complete the certification process timely. As a result, the City of St. Louis and Jefferson County elected not to process these entities' tax rates. Therefore, these tax rates and taxing authorities are not included in this report.

and existing property tax levies for revenue neutrality, the State Auditor's Office also reviews debt service tax rates. A tax levied to meet the annual debt service requirement is compliant if the revenue to be generated plus the existing fund balance does not exceed the current payment requirements plus a reserve for the following year's payments.

Sections 137.073.5(3) and 137.073.5(4), RSMo, provide that a voluntary reduction taken in a non-reassessment year (even numbered year) results in a reduced tax rate ceiling during the following reassessment year (odd numbered year). These provisions also allow taxing authorities that voluntarily reduce a tax rate in a previous even numbered year to reverse the impact of the voluntary reduction to reinstate a higher tax rate ceiling in the following even numbered year. To increase the tax rate in the following even numbered year, the taxing authority must conduct a public hearing, and adopt an ordinance, a resolution, or a policy statement justifying its action before setting and certifying its tax rate.

Section 137.073.6(3), RSMo, allows a taxing authority to submit amended tax rate forms to the State Auditor's Office in the event the taxing authority incorrectly completed the forms or made clerical errors. These changes are factored into the current year's tax rate ceiling calculation.

A taxing authority's total assessed valuation submitted by the county clerk or a representative of the taxing authority is used in the State Auditor's Office review of property taxes. The State Auditor's Office does not review the assessed valuation of individual pieces of property. Chapter 138, RSMo, governs the appeals process for assessed valuations. Citizens may appeal their individual assessed valuations calculated by the county assessor to the local Board of Equalization. Citizens not satisfied with the resolution by the Board of Equalization may appeal the decision to the Missouri State Tax Commission. Any decision of the Missouri State Tax Commission may be reviewed by a court of law.

As assessed valuations increase, tax rate ceilings generally decrease, depending on the amount of the increase, to produce substantially the same amount of revenue as allowed in the prior year. As assessed valuations decrease, tax rate ceilings may increase to produce substantially the same revenue as allowed in the prior year from existing property, limited by voter authorization. See Appendixes I and II for a summary of the changes in assessed valuation by type of taxing authority, and Appendixes III and IV for a summary of changes in tax rate ceilings by type of taxing authority. In addition, Appendix V is a map that provides a statewide geographical perspective of total county valuation changes prior to adjustments for new construction and reassessment. The total assessed valuation is the value used to bill the property tax rates. Appendix VI is a map of the adjusted assessed valuation by county. The adjusted assessed valuation is the value of last year's property in the current year. This map reflects the inflationary change in each

county's valuation from the previous year. A significant inflationary change generally indicates a major reassessment occurred. However, 2022 assessed valuations indicate the majority of county adjusted assessed valuation changes were less than the consumer price index, which does not indicate a major reassessment increase. The comparison of assessed valuations and tax rate ceilings from 2021 to 2022 for Appendixes I through VI give consideration to revisions submitted by taxing authorities to the State Auditor's Office for changes to assessments occurring after setting the 2021 property tax rate.

Taxing authorities are listed by primary county (as designated by the taxing authority when established) in Appendixes VII and VIII and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright followed by the City of St. Louis). A taxing authority located in more than one county is listed under the primary county only. The assessed valuations presented for taxing authorities in Appendixes VII and VIII, except school districts, include all taxable locally assessed and state assessed property. The assessed valuations presented for school districts include only taxable locally assessed property. The abated portions of property valuations that are not taxable under various economic development programs are omitted from the taxable assessed valuations used to compute the annual tax rate ceiling. Prior years' tax rate reports are available on the State Auditor's website at auditor.mo.gov.

We do not review sales tax rollbacks required by law for some county levies as part of this report. Any concerns in that area would be addressed in audit reports we issue for individual counties. Sales tax (Proposition C) rollbacks for school levies were subjected to a limited review to ensure the district did not waive all or part of the rollback without voter approval in order to generate additional local revenues. A majority of the 516 school districts have obtained voter approved waivers of the required sales tax rollback of their property tax, including 466 with a full waiver and 25 with a partial waiver. Appendixes VII and VIII indicate the 491 school districts that have either full or partial waivers of Proposition C reductions.

(1) This column includes debt service levies, new voter approved levies, levies voted to replace expired levies, and dissolving levies. Debt service levies are included in this column because they are not subject to Hancock Amendment limitations. Debt service levies are not subject to the multi-rate system; the same rate applies to each subclass of property.

(1) This column includes levies that existed in prior years and were revised due to an election. This column also includes school levies that increased due to the school board increasing rates under Missouri Constitution, Article X, Section 11(b), which allows school districts to levy up to $2.7500 by school board action alone.

(2) This column includes new voter approved levies, newly formed districts, or a levy voted to replace an expired levy.

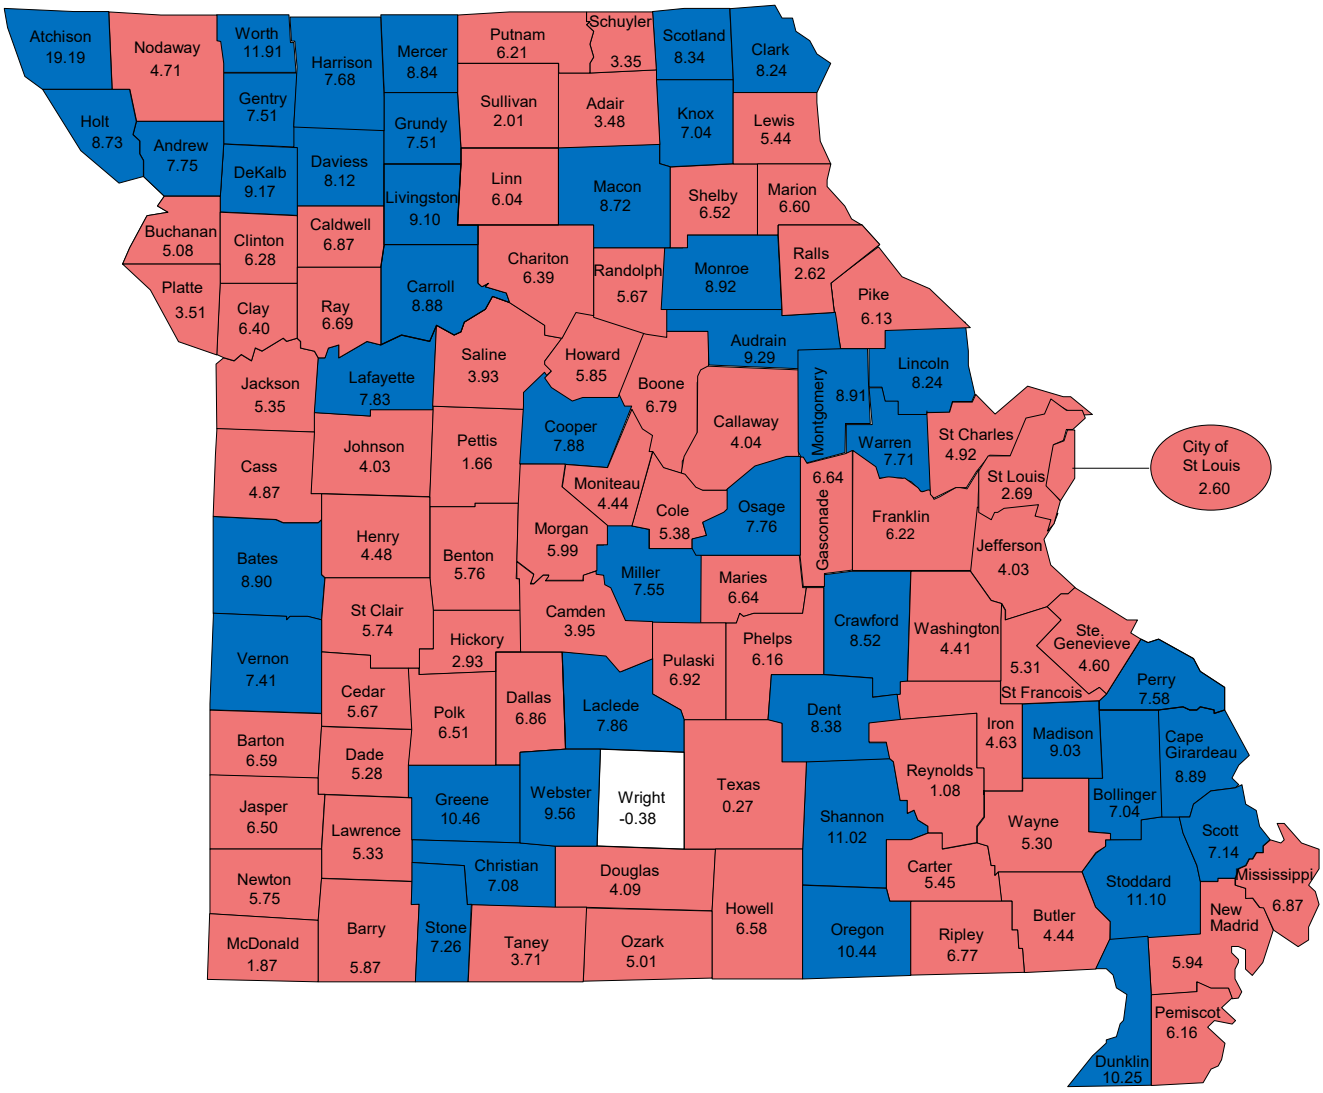
Appendix V
2022 Property Tax Rates
2021 – 2022 Percentage Change in Total Assessed Valuations by County,
Overall County Valuation Changes Prior to Adjustments

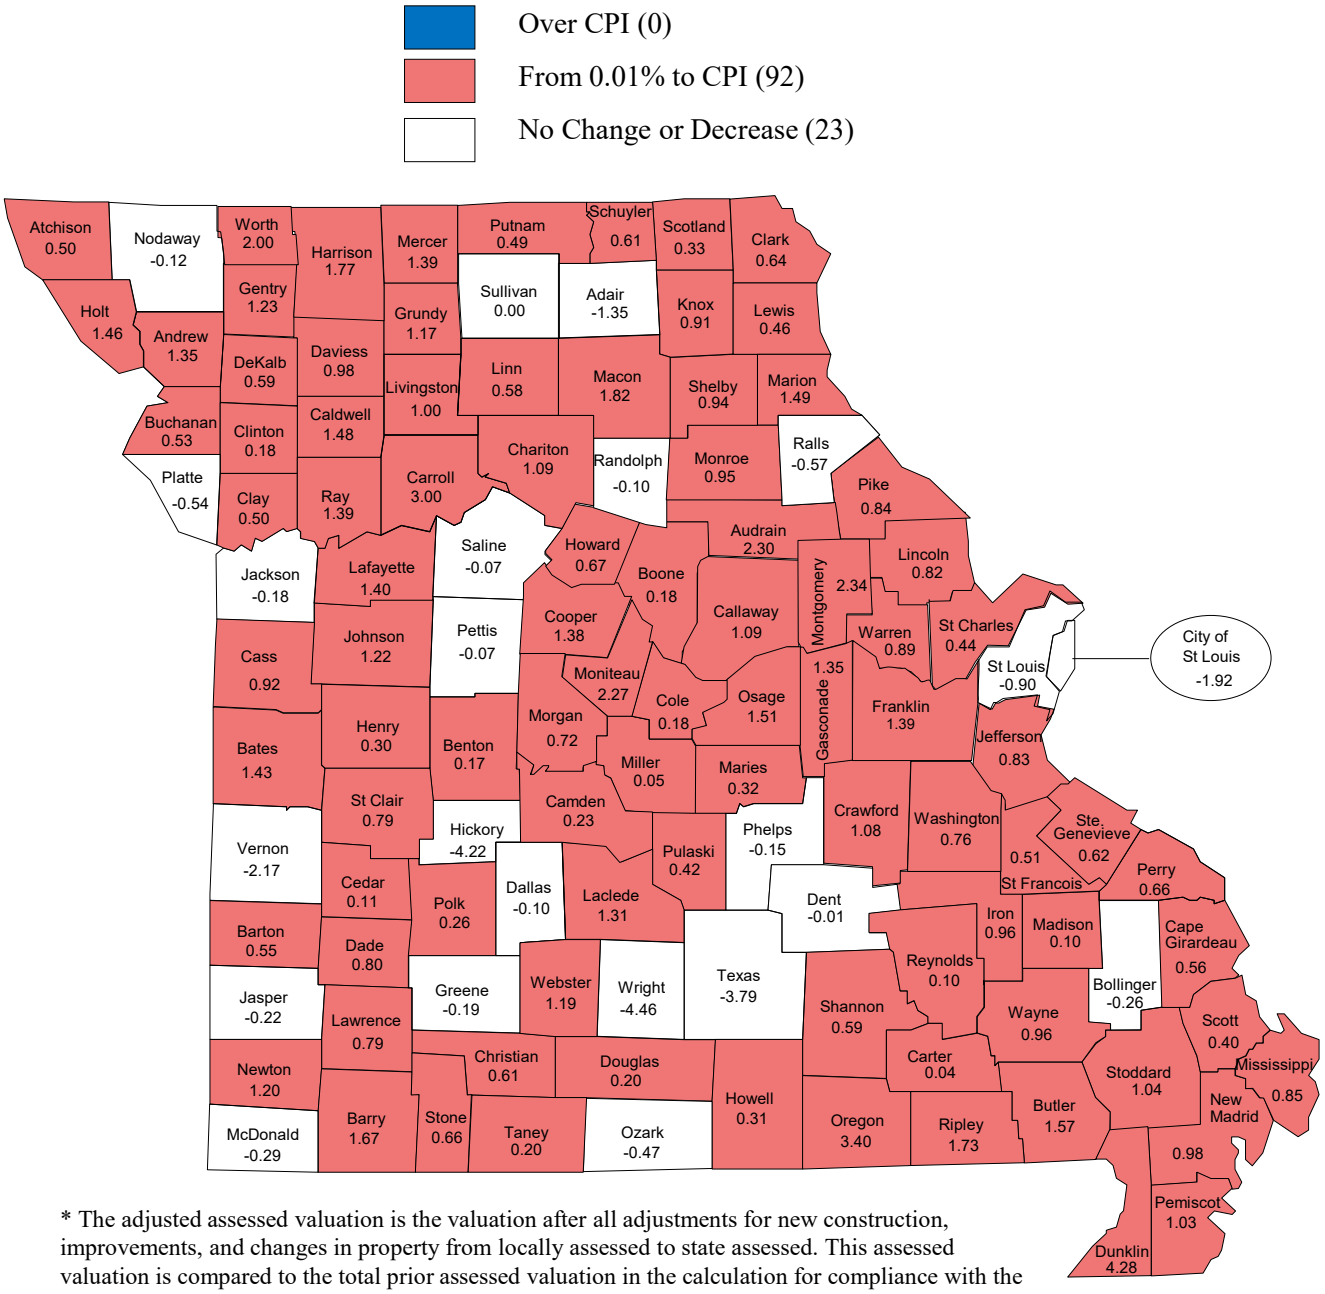
The 2022 consumer price index (CPI) of 7.00% was certified by the State Tax Commission.



High: Atchison County 19.19 Low: Wright County -0.38

Appendix VI
2022 Property Tax Rates
2021 – 2022 Percentage Change in Adjusted Assessed Valuations by County*

The 2022 consumer price index (CPI) of 7.00% was certified by the State Tax Commission.



* The adjusted assessed valuation is the valuation after all adjustments for new construction, improvements, and changes in property from locally assessed to state assessed. This assessed valuation is compared to the total prior assessed valuation in the calculation for compliance with the Hancock Amendment.

High: Dunklin County 4.28 Low: Wright County -4.46

Appendix VII
2022 Property Tax Rates
Listing of 2022 Tax Rates for Local Governments Levying a Single Tax Rate on All Property

County	Political Subdivision	Purpose	Assessed Value	Ceiling	Levied	Revenue	Expiration Year

Legend:

A A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy.
B A voter approved increase or decrease to an existing levy or an extension of an existing levy.
C Levy includes a recoupment rate authorized by state law.
D School district has a full Proposition C (sales tax) waiver allowing the district to reduce its required Proposition C reduction to $0.0000 and levy up to its calculated tax rate ceiling.
E School district has a partial Proposition C (sales tax) waiver allowing the district to waive a portion of its required Proposition C reduction to the extent necessary to collect $2.7500 or the amount stated on the ballot.
F Article X, Section 11(g) of the Missouri Constitution allows the Kansas City 33 School District School Board to set its tax levy at a rate that is lower than the court-ordered rate for the 1995 tax year (which was $4.96). The rate so established may be changed from year to year by the School Board.

Notes:

Taxing authorities are listed by primary county and categorized by type of taxing authority. The counties are listed alphabetically (Adair through Wright followed by the City of St. Louis). When a taxing authority is in more than one county, it is listed under the primary county only.

This Appendix does not list taxing authorities that levied a separate tax rate for each subclass of property. Previous legislation required taxing authorities wholly in St. Louis County and allowed the City of Gladstone in Clay County to calculate a separate tax rate on each subclass of property. Taxing authorities partially in St. Louis County, whether the primary county is St. Louis County or another county, are required to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions requiring the multi-rate calculation. See Appendix VIII for a listing of taxing authorities that calculated separate tax rates for each subclass of property.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both the taxing authority and the county or counties in which the tax rate is levied.

The Assessed Value column presents only the assessed valuation the property tax is levied against.

The revenue amount shown is computed by dividing the assessed valuation by 100 and multiplying the quotient by the tax rate levied

Legend:

A	A new voter approved tax rate, newly formed district, or a levy voted to replace an expired levy.
B	A voter approved increase or decrease to an existing levy.
C	Levy includes a recoupment rate authorized by state law.
D	School district has a full Proposition C (sales tax) waiver allowing the district to reduce its required Proposition C reduction to $0.0000 and levy up to its calculated tax rate ceiling.
E	School district has a partial Proposition C (sales tax) waiver allowing the district to waive a portion of its required Proposition C reduction to the extent necessary to collect $2.7500 or the amount stated on the ballot.

Notes:

This Appendix contains levy information for political subdivisions wholly in St. Louis County and the City of Gladstone in Clay County. Previous legislation required taxing authorities wholly in St. Louis County and allowed the City of Gladstone in Clay County to calculate a separate tax rate on each subclass of property. Political subdivisions partially in St. Louis County and partially in another county(ies) were also required by previous legislation to levy a single rate on all property when one or more counties opted in and one or more counties opted out of the provisions requiring the multi-rate calculation. See Appendix VII for a listing of taxing authorities that calculated a single tax rate to apply to all property.

All rates in the levied column represent the rate extended and certified to the State Auditor's Office by both the taxing authority and the county or counties in which the tax rate is levied.

The Assessed Value column presents only the assessed valuation the property tax is levied against.

The revenue shown is computed by dividing the assessed valuation by 100 and multiplying the quotient by the tax rate levied.

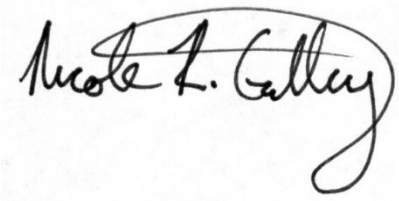
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 99 political subdivisions required to file a financial report by October 31, 2022, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in October 2022, after their filing deadline. The filing status for these 15 entities is presented in summary on page 3 and by individual entity in Appendixes B and E.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except that effective August 28, 2022, any political subdivision with gross revenues less than $5,000 or that has not levied or collected taxes in the fiscal year of the annual financial report is not subject to the fine.[1]

This report includes the filing status for the 99 political subdivisions, other than cities, towns, and villages, with a fiscal year end of April 30, 2022. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 99 political subdivisions, 84 filed an annual financial report timely.

This report also includes the filing status for 15 political subdivisions, other than cities, towns, and villages, that filed their financial report in October 2022, after their filing deadline.

[1] Prior to August 28, 2022, only transportation development districts with gross revenues less than $5,000 in the fiscal year of the annual financial report were not subject to the fine.

NICOLE GALLOWAY, CPA
Missouri State Auditor

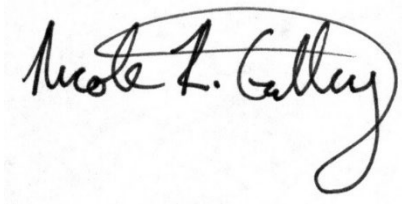
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by October 31, 2022, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for the 19 cities, 1 town, and 4 villages is presented in summary on page 4 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in October 2022, after their filing deadline. The filing status for these 9 cities and 2 villages is presented in summary on page 4 and by individual entity in Appendixes B to E.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except that effective August 28, 2022, any political subdivision with gross revenues less than $5,000 or that has not levied or collected taxes in the fiscal year of the annual financial report is not subject to the fine.[1]

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

[1] Prior to August 28, 2022, only transportation development districts with gross revenues less than $5,000 in the fiscal year of the annual financial report were not subject to the fine.

This report includes the filing status for the 19 cities, 1 town, and 4 villages with a fiscal year end of April 30, 2022, whose financial report was due by October 31, 2022. Of the 24 municipalities, 17 filed the financial report timely. Of the 17 municipalities required to file an addendum, 7 filed timely. Of the 7 municipalities required to file a certification, 4 filed timely.

This report includes the filing status for 9 cities and 2 villages that filed at least one of the items (financial report, addendum, or certification) in October 2022, after their filing deadline. Of these municipalities, 6 filed an annual financial report and 7 filed an addendum.

Missouri State Auditor

City of Orrick

Report No. 2022-118

December 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Orrick

Economic Development	The city may have violated Article VI, Sections 23 and 25 of the Missouri Constitution as a result of a property conveyed for little consideration to a private individual and another property conveyed for no consideration to a corporation.
Accounting Controls and Procedures	The Board has not adequately segregated accounting duties or ensured documented supervisory or independent reviews over various financial accounting functions are performed. Receipt slips are not issued for all money received and a deposit summary or receipt ledger to document all payments received is not prepared.
Contracts and Disbursements	The city does not have a written contract to define job responsibilities for the City Attorney. In addition, the Board violated the Missouri Constitution when it approved and made a bonus payment of $1,000 to the attorney in February 2022 that is not in compliance with the city's verbal agreement to pay the attorney $600 per month for his services. The Mayor did not document his approval, as required, for 3 emergency purchases for sewer line repairs made by the Public Works Supervisor during the year ended December 31, 2021, totaling $3,822, and full explanations of the emergency purchases were not documented in the minutes as required.
Payroll Controls and Procedures	The Board approves year-end bonus payments to all employees in violation of the Missouri Constitution. The Board has not amended its employee health insurance ordinance to reflect approved changes.
Sunshine Law	The Board did not document in the open meeting minutes the specific reasons or sections of law allowing the meeting to be closed for 12 of the 17 closed meetings held between January 1, 2021, and August 31, 2022. Some meeting notices and agendas included a statement that a closed meeting would be held, but the statement did not include the specific section of law allowing the closed meeting. The Board discussed and voted on some topics in closed meetings that were not allowable under the Sunshine Law. The Board does not review and approve minutes of closed meetings and the closed meeting minutes are not signed by the preparer to ensure accuracy of the minutes.
Budgeting Procedures	The city's budgets for the years ended December 31, 2020, 2021, and 2022, did not include all statutorily-required information, and the budget for the year ended December 31, 2022, did not include the actual beginning and estimated ending cash balances. The Board does not monitor budget-to-actual receipts and disbursements because year-to-date budget-to-actual reports of financial activity are not presented to the Board and a final budget-to-actual report was not prepared for the year ended December 31, 2021.
User Identification and Passwords	The city has not established adequate user identification and password controls to reduce the risk of unauthorized access to city computers.

Electronic Communication Policy	The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 13

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Orrick, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Orrick. We have audited certain operations of the city in fulfillment of our duties. The city engaged Kenney D. Hales, Certified Public Accountant (CPA), PC, to audit the city's financial statements for the year ended December 31, 2021. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

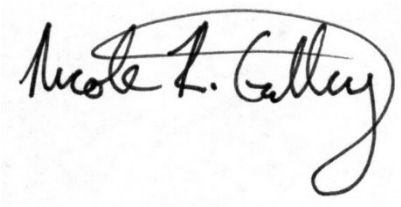
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Orrick.



Nicole R. Galloway, CPA
State Auditor

1. Economic Development

The city may have violated Article VI, Sections 23 and 25 of the Missouri Constitution as a result of a property conveyed for little consideration to a private individual and another property conveyed for no consideration to a corporation.

The city sold a property to a private individual for $2,500 in August 2018 with the understanding that the property would be redeveloped into multi-family housing within one year of the sale. The city did not monitor the grantee to ensure redevelopment occurred as agreed. The city did not exercise its right, as stated in the quit claim deed, to refund the bid price of $2,500 and reclaim the property when the purchaser did not develop the property as promised. This property has since been sold to another party and it is unclear if the property will be used for a public purpose, as the city intended. The City Clerk indicated the city chose not to pursue its right to reclaim the property.

In addition, the city granted a property for no consideration to a corporation in January 2022 with the understanding the property would be redeveloped to benefit the city within 18 months of the grant. The property was valued at $59,500 in the quit claim deed. The city has not monitored the grantee, and the grantee's plan submitted with the bid did not include a timeline for the project. As a result, the property might not be used for a public purpose, as the city intends. The City Clerk indicated the city has not asked the grantee about the property because the city no longer owns the property.

Article VI, Sections 23 and 25, Missouri Constitution prohibit the use of public money or property to benefit any private individual, association, or corporation except as provided in the constitution. The City Clerk indicated the city was not aware these property conveyances may have violated the Missouri Constitution.

Recommendation

The Board of Aldermen implement procedures to ensure properties conveyed for little or no consideration to private individuals and corporations are used for a public purpose in compliance with the Missouri Constitution.

Auditee's Response

The Board will implement procedures by January 2023 to ensure properties conveyed for little to no consideration to private individuals and corporations are used for a public purpose in compliance with the Missouri Constitution.

2. Accounting Controls and Procedures

Accounting controls and procedures need improvement. The city collected approximately $868,000 from taxes, utility payments, and other receipts during the year ended December 31, 2021.

2.1 Segregation of duties

The Board has not adequately segregated accounting duties or ensured documented supervisory or independent reviews over various financial

accounting functions are performed. The City Clerk is responsible for receipting and depositing payments, posting transactions to the accounting system, processing payroll, purchasing, preparing disbursements, preparing monthly bank reconciliations, transferring money between bank accounts, and preparing financial reports for Board meetings. No independent reviews are performed to ensure all money collected was properly recorded, deposited timely, and properly disbursed. A member of the Board indicated he did not realize it was the Board's responsibility to oversee the City Clerk.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records should be performed.

2.2 Receipting and depositing

Receipt slips are not issued for all money received and a deposit summary or receipt ledger to document all payments received is not prepared. The City Clerk's procedure is to issue receipt slips for cash payments, with receipt slips for checks issued upon request. The City Clerk indicated she considered the check to be the customer's receipt slip.

Failure to implement adequate receipting and depositing procedures increases the risk that loss, theft, or misuse of money will occur and increases the likelihood that errors will go undetected.

Recommendations

The Board of Aldermen:

2.1 Segregate the accounting duties to the extent possible and ensure documented independent supervisory reviews of detailed accounting and bank records are performed.

2.2 Ensure receipt slips are issued for all money received.

Auditee's Response

2.1 The city realizes how important it is to have and maintain 2 people in city hall for segregation of duties and checks and balances. The Board and Mayor will be an extra independent reviewer of accounting and bank records.

2.2 The city has always issued a handwritten receipt slip when cash money was received; however, the city has now added issuing a handwritten receipt slip when money is received in the form of a check, money order or cashier's check. This was implemented in September 2022.

3. Contracts and Disbursements

City procedures for contracts and disbursements need improvement. We reviewed 17 payment transactions totaling $53,673 using judgmental

selection from a population of payment transactions totaling $642,985 for the year ended December 31, 2021.

3.1 Written contract

The city does not have a written contract to define job responsibilities for the City Attorney. In addition, the Board violated the Missouri Constitution when it approved and made a bonus payment of $1,000 to the attorney in February 2022 that is not in compliance with the city's verbal agreement to pay the attorney $600 per month for his services. The City Clerk indicated the attorney had performed a significant amount of extra work assisting the city with the sale of the water and sewer system and the Board felt the bonus was appropriate.

Clear and detailed written contracts, including reporting requirements and provisions to allow for proper monitoring, are necessary to ensure all parties are aware of their duties and responsibilities, prevent misunderstandings, and ensure city money is used appropriately and effectively. Compliance with contract terms is important to ensure limited city resources and assets are used wisely and that expectations of the Board and the public are met. Section 432.070, RSMo, requires contracts for political subdivisions be in writing. Formal written contract amendments are necessary when terms change substantially. In addition, Article III, Section 39(3), Missouri Constitution prohibits the city from granting any extra compensation, fee or allowance to a contractor after service has been rendered or a contract has been entered into and performed in whole or in part.

3.2 Emergency purchase approval

The Mayor did not document his approval, as required, for 3 emergency purchases for sewer line repairs made by the Public Works Supervisor during the year ended December 31, 2021, totaling $3,822. Each of these purchases totaled more than $1,000 and, under non-emergency circumstances, would have required 3 verbal proposals and approval of the Board. In addition, full explanations of the emergency purchases were not documented in the minutes as required. The City Clerk indicated the Mayor approved the purchases verbally and that the city had not considered the need for written documentation of the Mayor's approval.

City code 25.060 states that 3 verbal proposals and approval of the Board is required when the estimated cost of supplies and equipment shall be $1,000 to $2,500. In addition, City code 25.140 states "in case of an apparent emergency which requires immediate purchase of supplies or contractual services, the mayor may authorize the purchase at the lowest obtainable price, any supplies or contractual services regardless of the amount of the expenditure. A full explanation of the circumstances of an emergency purchase shall be recorded in the journal of the board of aldermen." Documentation of the various bids and proposals received, the selection process, and criteria, including emergency purchase justifications, is

necessary to demonstrate compliance with city code and support decisions made.

Recommendations

The Board of Aldermen:

3.1 Enter into written contracts defining services provided and benefits received, ensure compliance with contract terms, and update or amend contracts, as necessary, when terms change. In addition, discontinue granting extra compensation to contractors after services have been rendered.

3.2 Ensure city personnel procure goods and services in accordance with city code and maintain documentation of decisions made.

Auditee's Response

3.1 The City Attorney will draft a contract for his services and the Board will approve it by January 2023.

3.2 An Emergency Purchase Requisition form, that includes the Mayor's signature, was created and implemented in September 2022.

4. Payroll Controls and Procedures

Payroll controls and procedures need improvement. The city disbursed approximately $209,000 in salaries and wages during the year ended December 31, 2021.

4.1 Bonuses

The Board approves year-end bonus payments to all employees in violation of the Missouri Constitution. The city paid $625 in year-end bonus payments in December 2021. The December 2021 meeting minutes indicated each full-time employee received $175 and each part-time employee received $100. The city paid $3,425 in year-end bonus payments from December 2018 through December 2021. These payments represent bonus compensation for services previously rendered. The City Clerk indicated the Board was unaware of the law prohibiting bonus payments.

Payments for services previously rendered are in violation of Article III, Section 39(3), Missouri Constitution and contrary to Attorney General's Opinion 72-1955 (June 14, 1955), which states, ". . . a government agency which derives its power and authority from the Constitution and laws of this state would be prohibited from granting extra compensation in the form of bonuses to public officers or servants after the service has been rendered."

4.2 Health insurance ordinance

The Board has not amended its employee health insurance ordinance to reflect approved changes. The city is reimbursing the City Clerk for health insurance premiums she is paying instead of providing her with health insurance directly. During the year ending December 31, 2021, the City Clerk was reimbursed $3,174 for health insurance premiums.

In April 2014, the Board approved reimbursing the City Clerk for her health insurance premiums because this was cheaper than having her on the city's insurance plan; however, the health insurance ordinance was not updated. As a result, other full-time employees may not be aware health insurance premium reimbursement is available as an alternative to city-provided health insurance. The City Clerk indicated that the option to be reimbursed for health insurance rather than being on the city's plan has not been offered to other employees because all other full-time employees are on the city's plan.

Ordinances should be updated to document approved benefits to help ensure equitable treatment of employees and prevent misunderstandings.

Recommendations

The Board of Aldermen:

4.1 Discontinue paying employee bonuses.

4.2 Update the health insurance ordinance to include the benefit of reimbursing health insurance premiums.

Auditee's Response

4.1 The city is discontinuing bonuses.

4.2 The City Attorney will update the ordinance for the health insurance reimbursement of city employees, and the Board will approve it by January 2023.

5. Sunshine Law

The Board did not always ensure compliance with the Sunshine Law for closed meetings. The Board generally entered into closed meetings during every monthly Board meeting held during the year ended December 31, 2021, and from January through August 2022.

Reasons for closed meetings

The Board did not document in the open meeting minutes the specific reasons or sections of law allowing the meeting to be closed for 12 of the 17 closed meetings held between January 1, 2021, and August 31, 2022. In addition, some meeting notices and agendas included a statement that a closed meeting would be held, but the statement did not include the specific section of law allowing the closed meeting, although it generally indicated the same list of potential discussion matters. The City Clerk indicated that she did not know which sections of the Sunshine Law to cite.

Section 610.022.1, RSMo, requires public bodies announce the specific reasons allowed by law for going into a closed meeting and to enter the vote and reason into the minutes. The subsection also limits discussion topics and actions in closed meetings to only those specifically announced prior to closure. Section 610.020.1, RSMo, requires public entities to give notice of the time, date, and place of each meeting, and its tentative agenda, to advise the public of matters to be considered.

Allowable topics

The Board discussed and voted on some topics in closed meetings that were not allowable under the Sunshine Law. For example, the Board discussed increasing the Board's compensation, changing the sick leave policy, options for investing the water and sewer system sale proceeds, and the resignation of Board members. The City Clerk indicated the city was unaware some of the topics discussed were not allowed in a closed meeting.

Section 610.021, RSMo, provides that the discussion topics and actions in closed meetings should be limited to only those specifically allowed by law.

Closed minutes

The Board does not review and approve minutes of closed meetings and the closed meeting minutes are not signed by the preparer to ensure accuracy of the minutes. During our review of the minutes for 10 closed meetings held during the year ended December 31, 2021, and 7 closed meetings held between January 1, 2022, and August 31, 2022, we noted the City Clerk did not sign the meeting minutes and the Board did not review or approve the meeting minutes at the subsequent closed meeting. The City Clerk indicated that she handwrites and seals the minutes directly after the meeting so that they can be stored in the safe and was not aware they needed to be reviewed and approved.

Section 610.020.7, RSMo, requires minutes of closed meetings be maintained as a record of business conducted and to provide an official record of actions and decisions. Having the meeting minutes signed by the preparer and subsequently approved by the Board provides an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the meetings.

Recommendation

The Board of Aldermen ensure specific reasons for closing a meeting are documented in the open minutes, meeting notices, and agendas; and only topics allowed by state law are discussed in closed meetings. In addition, the Board should ensure meeting minutes are reviewed and approved for all closed meetings and signed by the preparer.

Auditee's Response

The city implemented this in August 2022. The city now ensures the correct section of the Sunshine Law is cited for all closed sessions in the open minutes, agendas, and notices. In addition, discussions in closed session are limited to those allowed by the Sunshine Law and closed meeting minutes are reviewed and approved by the Board and signed by the City Clerk and a member of the Board.

6. Budgeting Procedures

The Board did not prepare complete budgets or monitor budgets in compliance with state law.

6.1 Budgets

The city's budgets for the years ended December 31, 2020, 2021, and 2022, did not include all statutorily-required information. The budgets did not include a budget message, actual or estimated amounts for the 2 preceding years, or a budget summary. In addition, the budget for the year ended December 31, 2022, did not include the actual beginning and estimated ending cash balances. The City Clerk indicated she was not aware of these requirements.

Section 67.010, RSMo, requires the budget to present a complete and accurate financial plan for the ensuing budget year and sets specific guidelines for the format. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in setting tax levies and informing the public about city operations and current finances.

6.2 Monitoring

The Board does not monitor budget-to-actual receipts and disbursements because year-to-date budget-to-actual reports of financial activity are not presented to the Board and a final budget-to-actual report was not prepared for the year ended December 31, 2021. The City Clerk indicated the monthly financial report was presented to the Board in the format the Board requested, which did not include a comparison to the budget.

As a result, the Board does not have all available information to assist in effectively managing the city, and the public is not provided a complete overview of the city finances. Proper monitoring is necessary for the budget to be an effective management tool.

Recommendations

The Board of Aldermen:

6.1 Prepare annual budgets that contain all information required by state law.

6.2 Ensure budgets are adequately monitored.

Auditee's Response

6.1 The City Clerk will ensure the budget for 2023 will include all information required by state law.

6.2 The Board will be more involved and monitor the budget on a monthly basis.

7. User Identification and Passwords

The city has not established adequate user identification and password controls to reduce the risk of unauthorized access to city computers. The City Clerk and Deputy City Clerk share the same user identification and password to access the accounting system. As a result, there is no assurance that the user listed in the system for posting a transaction is the person who did it. In addition, these employees are not required to change passwords periodically.

The City Clerk indicated she was unaware separate user identifications and passwords could be set up in the accounting system, and had not considered the need to change passwords periodically.

While a user identification and password are required to authenticate access, the security of these logon credentials is dependent on keeping them confidential and requiring users to enter their unique user identification and password when switching users. Allowing certain users to share the computerized accounting system without logging off and back on with their unique user identification and password, and not requiring passwords to be periodically changed, increases the risk of unauthorized access and/or changes to the system and records, and reduces assurance that access is limited to only those individuals who need access to perform their job responsibilities. User identifications should be unique and confidential and changed periodically to reduce the risk of a compromised password and unauthorized access to and use of the accounting system and data.

Recommendation

The Board of Aldermen require confidential user identification and passwords for each employee that are periodically changed.

Auditee's Response

The city implemented procedures to require confidential user identification and passwords that are periodically changed in June 2022.

8. Electronic Communication Policy

The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[1]

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the city is retained as required by state law. The City Clerk indicated she was unaware of the electronic communications guidelines.

[1] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed November 4, 2022.

Recommendation

The Board of Aldermen develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The City Attorney will draft a new ordinance for electronic communications that complies with state law for Board review and approval by January 2023.

City of Orrick
Organization and Statistical Information

The City of Orrick is located in Ray County. The city was incorporated in 1872 and is currently a fourth-class city. The city employed 3 full-time employees and 1 part-time employee on December 31, 2021.

City operations include street maintenance and parks. In addition, the city operated the water and sewer systems until they were sold in February 2022.

Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at December 31, 2021, are identified below. The Mayor waived his compensation of $200 per month. Instead, $200 is put into the Mayor's Discretionary Fund that was created by ordinance for the Mayor to use for the betterment of the city and its residents. Board of Aldermen members are paid $35 per month. The compensation of the Mayor and Board of Aldermen is established by ordinance.

Robert (Tommy) Schreier, Mayor
Kim McGinnis, Alderwoman
Amy McNary, Alderwoman
James Smith, Alderman
Roger Thomas, Alderman

Water and Sewer Systems Sale

The city established a water system in 1955 and a sewer system in 1965. In October 2015, the results of a water and sewer rate study were presented to the Board. The study recommended approximately $1.4 to $2.2 million in improvements and a significant increase in water and sewer rates. Rates were not increased, and as a result the recommended improvements were not made.

Over the last several years, the city regularly received notice from the Department of Natural Resources (DNR) regarding violations with the sewer system. In addition, frequent emergency repairs to the water and sewer lines and systems were also required. According to the City Clerk, the DNR gave Missouri American Water (MAW) the city's information, and the Board discussed selling the water system at the November 2017 meeting; however, no decision was made at that time.

In October 2020, the city met with MAW regarding selling the water and sewer systems. The city considered the estimates on the cost of repairing and improving the lagoon ($240,000) when evaluating the contract price. The sale of the water and sewer systems was approved by voters during the April 6, 2021, election. The city contracted with MAW in June 2021 to sell the water and sewer systems for $1.51 million. Selling the water and sewer systems eliminated city costs associated with operating and maintaining the water and sewer systems, along with the associated revenues.

The sale of the water and sewer system was finalized on February 15, 2022, with the city receiving $1.56 million, including reimbursement of capital expenditures.

Financial Activity

A summary of the city's financial activity for the year ended December 31, 2021, obtained from the city's audited financial statements follows.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Lewis County, Missouri

The Office of the State Auditor contracted for an audit of Lewis County's financial statements for the year ended December 31, 2021, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by Stopp & VanHoy, CPAs and Business Advisors, is attached.

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Lewis County

2021-001	The county periodically review its actual expenditures as compared to budgeted amounts in order to prevent expenditures in excess of budget. An original and/or amended budget should be prepared and approved as necessary to comply with statutes.
2021-002	The county address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.
2021-003	In order to ensure that transfers are properly reported and in balance, we recommend transfers out always be accompanied by an equal transfer in and that the transfers be clearly identified in the accounting system and on the annual budget.

Independent Auditor's Report

To the County Commission and
Officeholders of Lewis County, Missouri

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of Lewis County, Missouri, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Lewis County, Missouri's basic financial statements as listed in the table of contents.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the accompanying financial statements present fairly, in all material respects, the cash balances of each fund of Lewis County, Missouri as of December 31, 2021, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the basis of accounting practices prescribed or permitted by Missouri law as described in Note 1.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles section of our report, the financial statements do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of Lewis County, Missouri as of December 31, 2021, or the changes in financial position and cash flows thereof for the year then ended.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Lewis County, Missouri and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared by Lewis County, Missouri on the basis of accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws, which is a basis of accounting other than accounting principles generally accepted in the United States of America. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material and pervasive.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting practices prescribed or permitted by Missouri law to demonstrate compliance with the State of Missouri's regulatory basis of accounting and budget laws. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Lewis County, Missouri's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lewis County, Missouri's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Lewis County, Missouri's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards,* we have also issued our report dated October 24, 2022 on our consideration of Lewis County, Missouri's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lewis County, Missouri's internal control over financial reporting and compliance.

Note 1 - Summary of Significant Accounting Policies

Organized in 1833, the county of Lewis was named after Captain Merriwether Lewis, Governor of the Missouri Territory. It is a third-class county, and the county seat is Monticello. The County's government is composed of a three-member board of commissioners and the following separately elected Constitutional Officers: Assessor, Circuit Clerk, County Clerk, Collector, Coroner, Treasurer, Recorder of Deeds, Sheriff, Public Administrator, and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of Lewis County, Missouri.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, social and human services, and cultural and recreation services..

The financial statements referred to above include only the primary government of Lewis County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity.

Certain elected County officials, such as the County Collector, Treasurer, and Sheriff, collect and hold monies in a trustee capacity as an agent of individual, taxing units, or other government. These assets, which are held by these officeholders for the sole benefit of external parties, are included in the Statement of Assets and Liabilities Arising from Cash Transactions - Custodial Funds - Regulatory Basis.

Basis of Presentation

The accompanying financial statements present the receipts, disbursements, and changes in cash of all funds of Lewis County, Missouri, and the comparisons of such information with the corresponding budgeted information for all funds of the County. The funds presented are established under statutory or administrative authority, and their operations are under the control of the County Commission or an elected county official. The General Revenue Fund is the county's general operation fund, accounting for all financial resources except those required to be accounted for in another fund. The other funds presented account for financial resources whose use is restricted for specified purposes.

Basis of Accounting

The financial statements were prepared using accounting practices prescribed or permitted by Missouri law, which differ from accounting principles generally accepted in the United States of America. The effects of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation, bonds, and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

Note 1 - Summary of Significant Accounting Policies (continued)

Basis of Accounting (continued)

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Budget and Budgetary Accounting

In accordance with Chapter 50 RSMo., Lewis County adopts a budget for each governmental fund.

On or before January 15th, each elected official and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

Prior to February 1, the budget is legally enacted by a vote of the County Commission.

Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget financial statements.

Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year.

Budgets are prepared and adopted on the cash basis of accounting.

During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures which exceeded budgeted expenditures: Law Enforcement Training Fund, Domestic Violence Fund, Law Enforcement Restitution Fund and Election Authority Fund. The following funds did not have prepared budgets: CARES Act Grant Fund and ARPA Grant Fund.

Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

Note 1 - Summary of Significant Accounting Policies (continued)

Taxes (continued)

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year for the purposes of taxation was as follows:

	General Revenue	Special Road and Bridge
Real Estate	$ 88,867,790	$ 49,568,810
Personal Property	43,635,600	26,106,440
Railroad and Utilities	28,117,922	18,804,284
	$ 160,621,312	$ 94,479,534

The tax levy per $100 assessed valuation of tangible taxable property for the calendar year for the purpose of County taxation, was as follows:

General Revenue	$ 0.2528	
Special Road and Bridge	0.2525	
Common Road District*	0.1955	*Reported in Special Road and Bridge Fund

The County also receives sales tax collected by the State and remitted based on the County's sales tax rate to the total sales tax collected in the County.

Cash Deposits and Investments

Deposits and investments are stated at cost, which approximates market. Cash balances for all the County Treasurer's funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investments shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note 2.

Interfund Transactions

During the course of operations, interfund activity occurs for purposes of providing supplemental funding, reimbursements for goods provided or services rendered, or short and long-term financing.

Interfund activities are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund. However, interfund reimbursements have been eliminated from the financial statements in order that reimbursed expenditures are reported only in the funds incurring the costs.

Note 2 - Deposits and Investments

Lewis County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. Each fund type's portion of this pool is displayed on the statement of receipts, disbursements, and changes in cash arising from cash transactions as "Cash and Equivalents." Cash held for others is displayed on the statement of assets and liabilities arising from cash transactions as "Cash and Equivalents."

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits.

The carrying values and bank balances of deposits and investments shown above are included in the financial statements at December 31, 2021, as follows:

	Carrying Value	Bank Balances
Deposits	$ 11,683,650	$ 10,785,100
Investments	-	-
Total Deposits and Investments as of December 31, 2021	$ 11,683,650	$ 10,785,100
Total Cash and Equivalents - Governmental Funds	$ 4,243,198	
Total Cash and Equivalents - Custodial Funds	7,440,452	
	$ 11,683,650	

Custodial Credit Risk - Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2021; all deposits and investments were covered by the Federal Deposit Insurance Corporation (FDIC) or were collateralized.

Custodial Credit Risk - Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party that sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U. S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

Note 3 - Long-Term Debt

In March 2017, the County entered into a lease-purchase agreement to finance the purchase of a 2017 John Deere 770G Motor Grader at a cost of $173,964, net of trade-in. The agreement requires four annual payments of $36,303, which includes interest payable at 3.25%.

The following is the changes in long-term debt for the year ended December 31, 2021:

	Balance at 1/1/2021	Amount Borrowed	Amount Repaid	Balance at 12/31/2021	Interest Paid During Year
2017 770G John Deere Grader	$ 35,145	$ -	$ (35,145)	$ -	$ 1,159

Note 4 - Interfund Transfers

Transfers between funds for the year ended December 31, 2021 are as follows:

Fund	Transfers In	Transfers Out
General Revenue	$ 106,683	$ 422,500
Assessment	48,000	-
Law Enforcement Operating	400,000	78,000
Law Enforcement Restitution	-	7,500
Collector's Tax Maintenance	-	1,183
Election Services	14,670	-
Election Authority	-	34,670
ARPA Grant	-	25,500
	$ 569,353	$ 569,353

Note 5 - Local Government Employees Retirement System (LAGERS)

Plan Description

The County participates in the Missouri Local Government Employees Retirement System (LAGERS), an agent multiple-employer public employee retirement system that acts as a common investment and administrative agent for local government entities in Missouri. LAGERS is a defined benefit pension plan which provides retirement, disability, and death benefits to plan members and beneficiaries. LAGERS was created and is governed by Sections 70.600-70.755, RSMo. As such, it is the system's responsibility to administer the law in accordance with the expressed intent of the General Assembly. The plan is qualified under the Internal Revenue Code Section 401(a) and is tax exempt.

The Missouri Local Government Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to LAGERS, P.O. Box 1665, Jefferson City, Missouri, 65102, by calling (800) 447-4334, or by visiting the LAGERS website at www.molagers.org.

Note 5 - Local Government Employees Retirement System (LAGERS) (continued)

Benefits Provided

Benefits are available to all full-time employees working in a LAGERS covered department. Benefits vest when an employee earns five years (60 months) of service credit in the system. Normal retirement age is 60 (General) or 55 (Police) and early retirement age is 55 (General) and 50 (Police). Benefits are paid out using a formula that is based on the employee's final average salary and the amount of credited service time.

Contributions

Full-time employees of the County do not contribute to the pension plan. The January 1st statutorily required employer contribution rates were 8.30% (General) and 9.30% (Police) of annual covered payroll for the year ended December 31, 2021. The contribution requirements of plan members are determined by the governing body of the political subdivision. The contribution provisions of the political subdivision are established by state statute. For the year ended December 31, 2021, the County contributed $116,053 to LAGERS.

Note 6 - County Employees' Retirement Fund (CERF)

Plan Description

The County Employees' Retirement Fund is a cost-sharing multiple employer defined benefit pension plan covering any county elected or appointed officer or employee whose performance requires the actual performance of duties during not less than one thousand (1,000) hours per calendar year in each county of the state, except for any city not within a county and any county of the first classification having a charter form of government. It does not include county prosecuting attorneys covered under Sections 56.800 to 56.840 RSMo., circuit clerks and deputy circuit clerks covered under the Missouri State Retirement System, county sheriffs covered under Sections 57.949 to 57.997 RSMo., and certain personnel not defined as an employee per Section 50.1000(8) RSMo. The Fund was created by an act of legislature and was effective August 28, 1994.

The general administration and the responsibility for the proper operation of the fund and the investment of the fund are vested in a board of directors of eleven persons.

Benefits Provided

Beginning January 1, 1997, employees attaining the age of sixty-two years may retire with full benefits with eight or more years of creditable service. The monthly benefit for County Employees is determined by selecting the highest benefit calculated using three different prescribed formulas (flat-dollar formula, targeted replacement ratio formula, and prior plan's formula). A death benefit of $10,000 will be paid to the designated beneficiary of every active member upon his or her death.

Upon termination of employment, any member who is vested is entitled to a deferred annuity, payable at age sixty-two. Early retirement is at age fifty-five. Any member with less than eight years of creditable service forfeits all rights in the fund but will be paid his or her accumulated contributions.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, Missouri, 65101, by calling (573) 632-9203, or by visiting the CERF website at www.mocerf.org.

Note 6 - County Employees' Retirement Fund (CERF) (continued)

Contributions

In accordance with State Statutes, the Plan is partially funded through various fees collected by counties and remitted to CERF. All participants hired on or after February 24, 2002 are required to contribute an additional 4% of their gross compensation to CERF starting January 1, 2003. An active LAGERS participant who was employed with the County prior to February 25, 2002, is not required to make contributions. During the year ended December 31, 2021, the County collected and remitted to CERF employee contributions of $34,907.

In addition to the above contributions required of employees, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of personal property tax declarations;
- Twenty dollars on each merchants' and manufacturers' license issued;
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded;
- Three sevenths of the fee on delinquent property taxes; and
- Interest earned on investment of the above collections prior to remittance to CERF.

The County collected and remitted CERF fees and penalties of $95,063 for the year ended December 31, 2021.

Further information related to required contributions, pension benefits, other plan terms, and investments and related return and financial information can be found in the notes to the financial statements of CERF's Annual Financial Report.

Note 7 - Prosecuting Attorney Retirement Fund

In accordance with state statute Section 56.807 RSMo., the County contributes annually to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $3,366 for the year ended December 31, 2021.

Note 8 - Post-Employment Benefits

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County.

Note 9 - Claims, Commitments, and Contingencies

Litigation

The County can be subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its business activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial condition of the County.

Note 9 - Claims, Commitments, and Contingencies (continued)

Compensated Absences

The County provides employees with up to 15 days of paid vacation based upon the number of years of continuous service. Employees receive five days of vacation after the first year of service, ten days of vacation per year after two years of employment, 15 days of vacation per year after seven years of employment. Vacation days do not carry forward if they are unused. Upon termination, an employee is reimbursed for any unused vacation days. Employees accrue one sick day per month. The county allows employees to have a maximum of thirty days. However, upon termination, employees are not reimbursed for sick leave. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County receives proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned. Such audits could result in refund of grant monies to the grantor agencies. Management believes that any required refunds will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

Note 10 - Risk Management

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool, which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make specific assessments. Members are jointly and severally liable for all claims against the risk pool.

The County is also a member of the Missouri Association of Counties Self-Injured Workers' Compensation and Insurance Fund. The County purchases workers' compensation insurance through this Fund, a non-profit corporation established for the purpose of providing insurance coverage for Missouri counties. The Fund is self-insured up to $500,000 per occurrence and is reinsured up to the statutory limit through excess insurance.

Note 11 - Subsequent Events

The County has evaluated events subsequent to December 31, 2021 to assess the need for potential recognition or disclosure in the financial statements. Such events have been evaluated through October 24, 2022, the date the financial statements were available to be issued. Based upon this evaluation, it was determined that no subsequent events occurred that require recognition or additional disclosure in the financial statements.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission and
Officeholders of Lewis County, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the accompanying financial statements of Lewis County, Missouri as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise Lewis County, Missouri's basic financial statements, and have issued our report thereon dated October 24, 2022.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lewis County, Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lewis County, Missouri's internal control. Accordingly, we do not express an opinion on the effectiveness of Lewis County, Missouri's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and responses as items 2021-002 and 2021-003 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lewis County, Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions

was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed an instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards,* and which is described in the accompanying schedule of findings and responses as item 2021-001.

Lewis County, Missouri's Responses to Findings

Government Auditing Standards requires the auditor to perform limited procedures on Lewis County, Missouri's responses to the findings identified in our audit and described in the accompanying schedule of findings and responses. Lewis County, Missouri's responses were not subjected to the auditing procedures applied in the audit of the financial statements, and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Creve Coeur, Missouri
October 24, 2022

The County of Lewis
Monticello, Missouri
Schedule of Findings and Responses
For the year ended December 31, 2021

Financial Statement Findings

2021-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget.

Condition: During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following funds had actual expenditures which exceeded budgeted expenditures: Law Enforcement Training Fund, Domestic Violence Fund, Law Enforcement Restitution Fund and Election Authority Fund. The following funds did not have prepared budgets: CARES Act Grant Fund and ARPA Grant Fund.

Cause: Oversight.

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds and failing to prepare a budget for all applicable funds.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts in order to prevent expenditures in excess of budget. An original and/or amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2022.

2021-002 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there were no formal fraud risk assessment procedures in place for a majority of the year.
Cause: Management had not prepared adequate documentation of fraud risk assessments, including identifying risks and mitigating controls.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may be undetected by management without proper assessment procedures.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Management's Response: The County formally adopted a fraud assessment and policy handbook on October 25, 2021, therefore, this issue has been resolved as of the date the audit was performed.

Financial Statement Findings (continued)

2021-003 **Criteria:** Management should prepare the financial statements of the County, as presented in the annual budget, to present balanced transfers between all funds.

Condition: The recorded transfers out did not equal the recorded transfers in in both the 2021 budget and actual revenues and expenditures. This was the result of transfers out misclassified as expenditures and transfers in misclassified as revenues. This has the effect of overstating expenditures and revenues as recorded in the annual budget documents. All transfers out must be accompanied by a corresponding transfer in. The financial statements included in this report have been adjusted so that transfers in and out between funds are equal as of December 31, 2021.

Cause: Oversight**.**

Effect: The financial statements of the County, as presented in the annual budget, were inaccurately prepared due to an imbalance between transfers in and out.

Recommendation: In order to ensure that transfers are properly reported and in balance, we recommend transfers out always be accompanied by an equal transfer in and that the transfers be clearly identified in the accounting system and on the annual budget.

Management's Response: The County will work to develop a process to reconcile all budgeted and actual interfund transfers. The expected completion date is December 31, 2022.

The County of Lewis
Monticello, Missouri
Summary Schedule of Prior Year Findings and Questioned Costs
For the year ended December 31, 2021

In accordance with *Government Auditing Standards,* this section reports the auditor's follow-up on action taken by Lewis County, Missouri, on the applicable findings in the prior audit report issued for the year ended December 31, 2020.

Prior Year Financial Statement Findings

2020-001 **Criteria:** Missouri statutes requires Counties to prepare an annual budget as applicable to each fund. Expenditures are not to exceed the budget, and the ending results of annual fund activity may not result in a deficit fund balance.

Condition: During the audit, it was noted that the County was not in compliance with Missouri budgetary state statute Chapter 50 RSMo. The following fund had actual expenditures which exceeded budgeted expenditures: Domestic Violence Fund and Election Services Fund. The following funds did not have prepared budgets: Election Authority Fund and CARES Act Grant Fund. The following funds had a negative ending fund balance: Law Enforcement Training Fund and Election Services Fund.

Cause: Oversight.

Effect: The County is in violation of Missouri Revised Statutes due to exceeding budgets in certain funds, failing to prepare a budget for all applicable funds, and expending funds in excess of total available fund balance in certain funds, resulting in a deficit fund balance at year-end.

Recommendation: We recommend that the County periodically review its actual expenditures as compared to budgeted amounts in order to prevent expenditures in excess of budget and also to prevent deficit fund balances. An amended budget should be prepared and approved as necessary to comply with statutes.

Management's Response: The County Clerk will perform a detailed review of budgetary schedules and actual expenditures in order to ensure budgetary compliance, and amendments to the budget will be prepared and approved by the County Commission, if necessary. The expected completion date is December 31, 2021.

Status: Management has not corrected this issue. The finding is repeated as finding 2021-001 in the current year.

2020-002 **Criteria:** Antifraud programs and controls are the policies and procedures put in place by an organization to help ensure that management directives are carried out. They are part of the overall system of internal control established to achieve reliability of financial reporting, effectiveness and efficiency of operations, and compliance with applicable laws and regulations.

Condition: During our audit, we noted there is no formal fraud risk assessment in place.

Cause: Management has not prepared adequate documentation of fraud risk assessments, including identifying risks and mitigating controls.

Effect: Lack of an appropriate fraud risk assessment process may result in certain risks not being identified by County's management. Opportunities to commit and conceal a fraud or irregularity may be undetected by management without proper assessment procedures.

Recommendation: We recommend that the County address various risks in the environment, including risk of fraud occurring by performing assessments to identify, analyze, and manage these risks.

Prior Year Financial Statement Findings (continued)

2020-002 (cont.) **Management's Response**: The County will work to prepare a risk assessment procedure. The expected completion date is December 31, 2021.

Status: Management has not corrected this issue. The finding is repeated as finding 2021-002 in the current year.

2020-003 **Criteria:** Management should prepare the financial statements of the County, as presented in the annual budget, to present balanced transfers between all funds.

Condition: The recorded transfers out did not equal the recorded transfers in in both the 2020 budget and actual revenues and expenditures. This was the result of transfers out misclassified as expenditures and transfers in misclassified as revenues. This has the effect of overstating expenditures and revenues as recorded in the annual budget documents. All transfers out must be accompanied by a corresponding transfer in. The financial statements included in this report have been adjusted so that transfers in and out between funds are equal as of December 31, 2020.

Cause: Oversight**.**

Effect: The financial statements of the County, as presented in the annual budget, were inaccurately prepared due to an imbalance between transfers in and out.

Recommendation: In order to ensure that transfers are properly reported and in balance, we recommend transfers out always be accompanied by an equal transfer in and that the transfers be clearly identified in the accounting system and on the annual budget.

Management's Response: The County will work to develop a process to reconcile all budgeted and actual interfund transfers. The expected completion date is December 31, 2021.

Status: Management has not corrected this issue. The finding is repeated as finding 2021-003 in the current year.

Prior Year Federal Award Findings

2020-004

Federal Grantor:	All Programs
Pass-Through Grantor:	All Programs
Federal CFDA Number:	All Programs
Program Title:	All Programs

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200 requires auditees to prepare an accurate Schedule of Expenditures of Federal Awards (SEFA) containing awards expended, CFDA title and number, award number, name of the Federal awarding agency, name of pass-through entity, and awards paid to subrecipients.

Condition: The Schedule of Expenditures of Federal Awards (SEFA) contained errors. The County's current internal controls over SEFA reporting are not sufficient enough to ensure correct SEFA reporting.

Cause: Management did not follow reporting requirements related to the Schedule of Expenditures of Federal Awards.

Prior Year Federal Award Findings (continued)

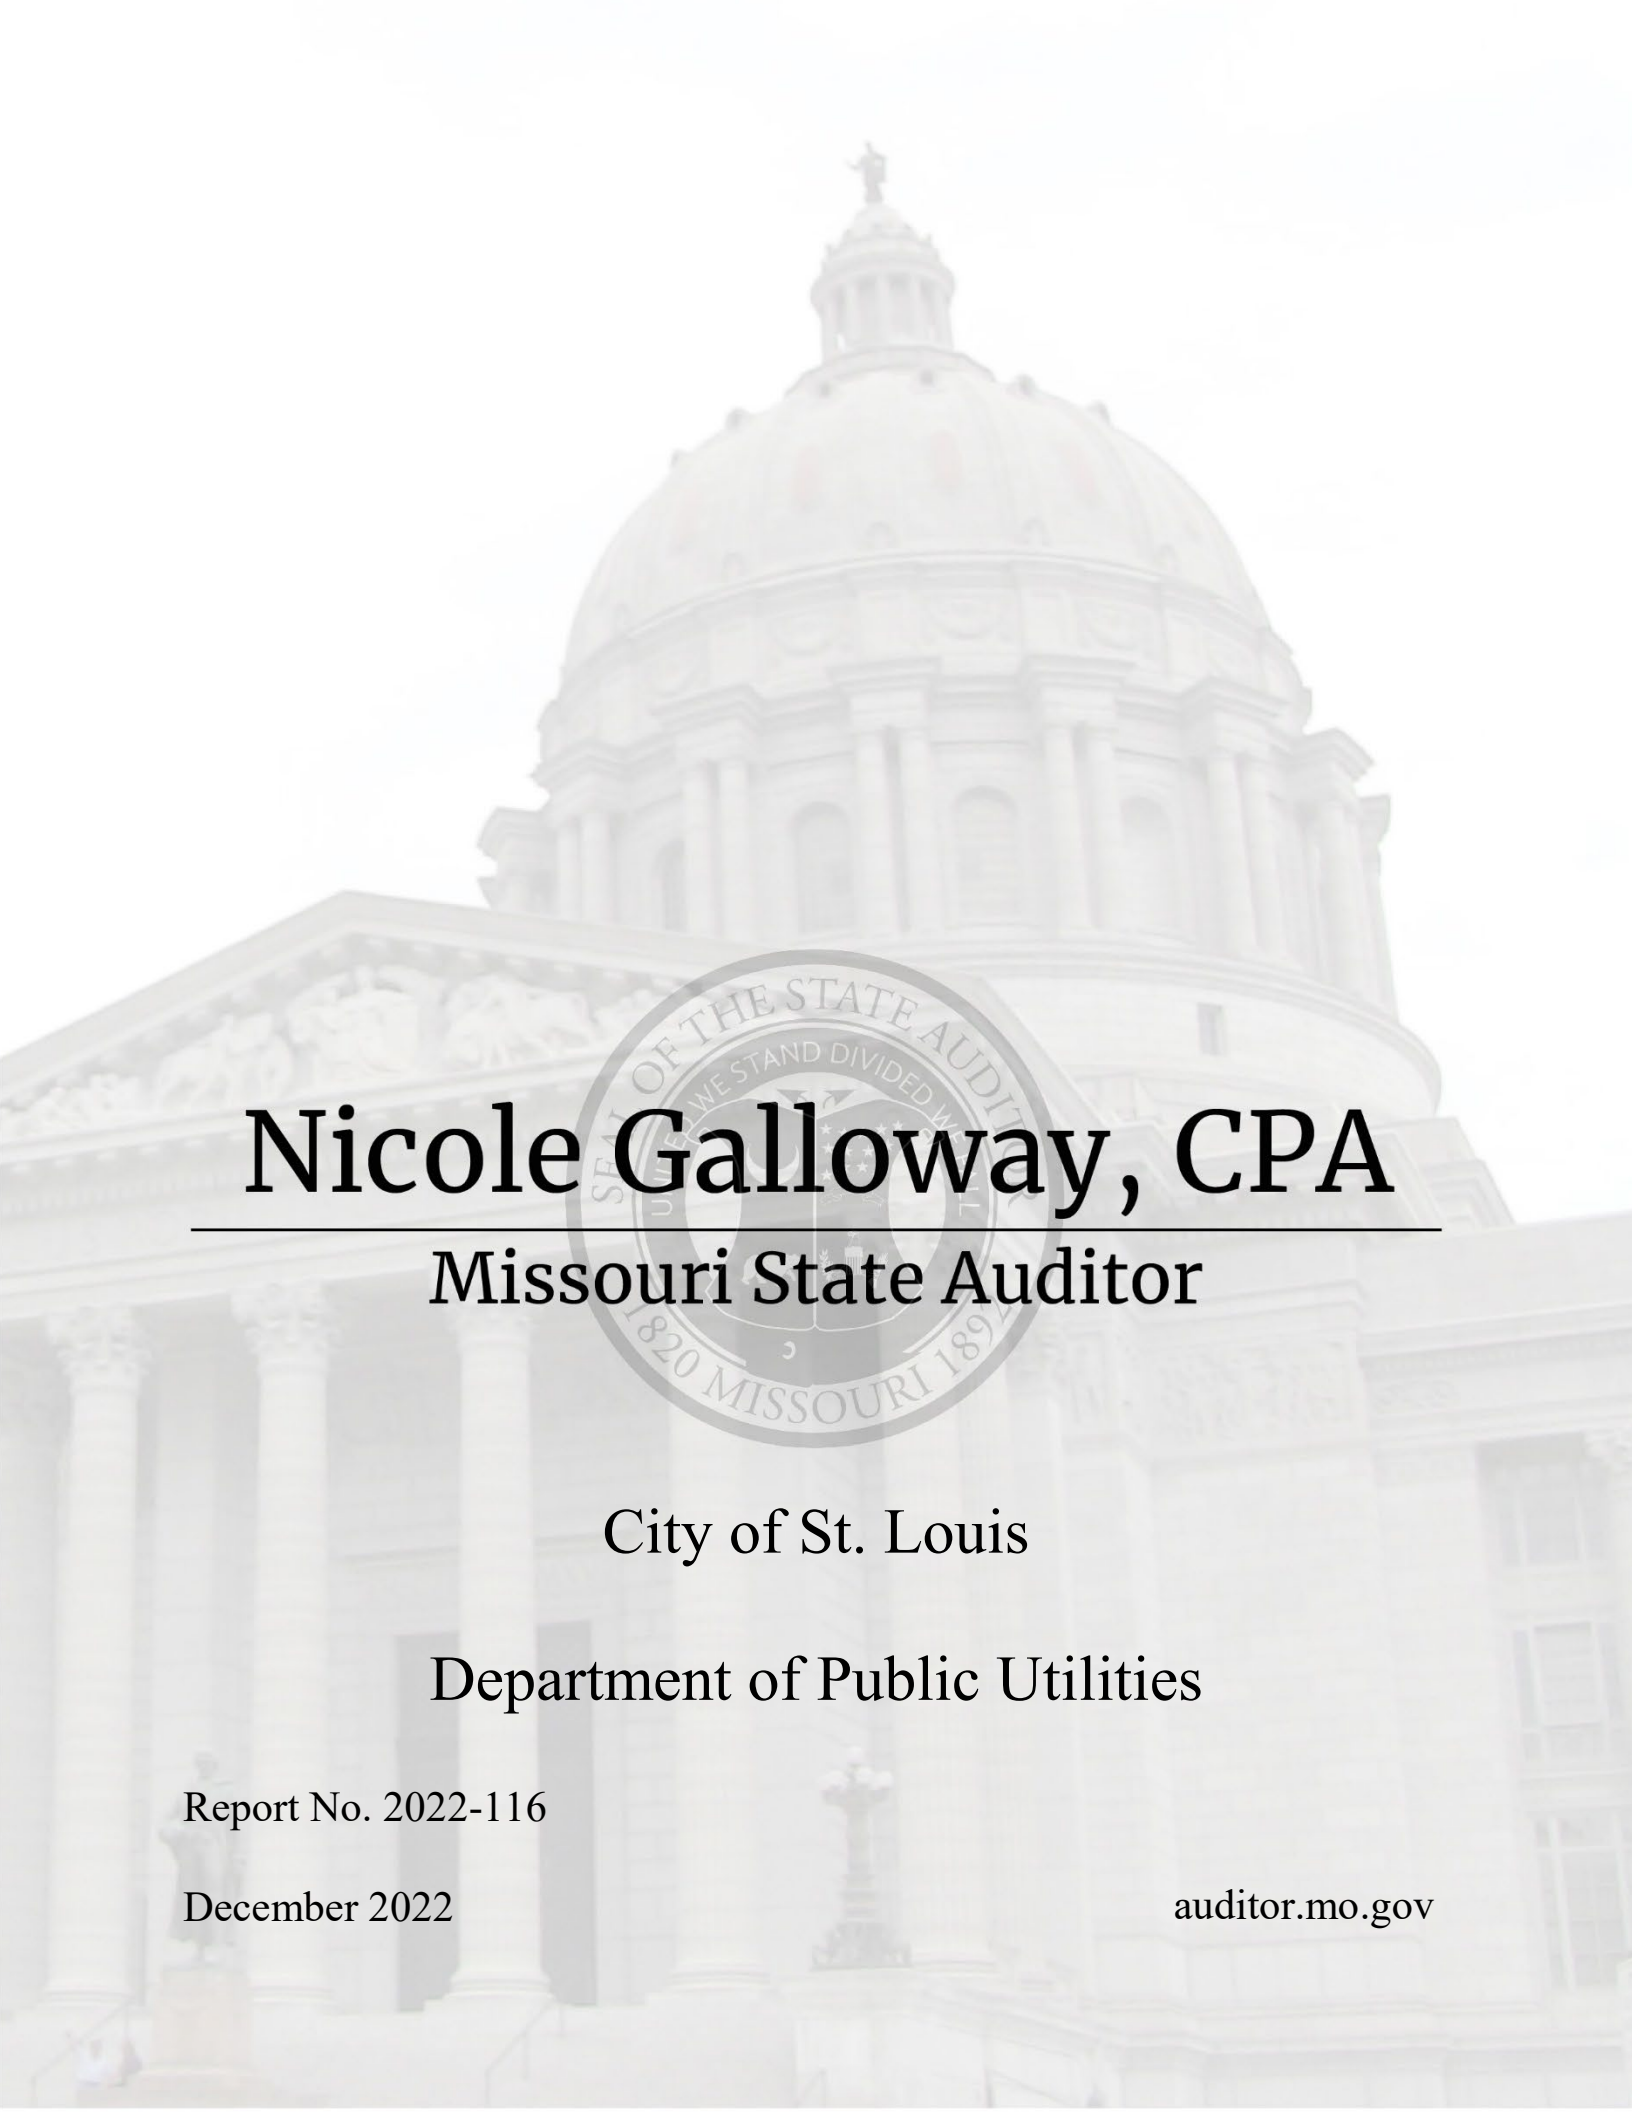
2020-004 (cont.)

Effect: Federal expenditures reported in the SEFA were incorrect.

Recommendation: We recommend management develop internal controls over reporting and consult with outside accountants, if possible, to ensure an accurate SEFA is prepared.

Management's Response: County officers and employees have diligently tried to maintain sufficient records so that the SEFA can be accurately completed. Title 2 *U.S. Code of Federal Regulations* Part 200 is being reviewed and training sessions will be initiated by the County Clerk's office. The County Clerk is working towards capturing grant transactions in a manner sufficient to readily report the necessary information required on the SEFA by the next audit period. The County is also going to consider retaining an expert/consultant to assist in completing the next SEFA. The expected completion date is December 31, 2021.

Status: This finding is not applicable to the current audit. The status of this finding will be updated with the County's next required Single Audit.



Nicole Galloway, CPA

Missouri State Auditor

City of St. Louis

Department of Public Utilities

Report No. 2022-116

December 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of St. Louis - Department of Public Utilities

Water Division Revenues	The City of St. Louis has not ensured water revenues are sufficient to adequately maintain the city's water distribution system. Water rate increases have not been implemented in over 10 years despite 4 rate sufficiency studies recommending such increases over that timeframe. As a result, needed capital improvements to the system were delayed and projected costs have significantly increased. Additionally, by not performing necessary maintenance of the water system, the Water Division is at risk of violating bond covenants. The delay of rate increases will also potentially result in more significant rate increases in the future to make up for past inaction, which would negatively impact rate payers. The Water Division also forgoes potential revenues by not billing the city for water consumption at city-owned buildings and properties.
Payroll Controls and Procedures	Water Division payroll procedures need improvement. The Water Division modified the permanent work schedules for some Water Division employees without obtaining approval from the city's Department of Personnel, resulting in the underpayment of overtime earned that was not in accordance with the city's overtime policy or Fair Labor Standards Act requirements. In addition, hours reported on individual employee timesheets did not agree to hours reported on summarized bi-weekly attendance records and/or departmental timesheets created for processing in the city's payroll system. Additionally, our review identified instances of the inconsistent application of city policy related to paid holiday compensation resulting in some employees being compensated for more time than is required by city policy.
Billing Adjustment Procedures	Controls over non-monetary adjustments posted to the Water Division billing system are insufficient and need improvement. Water Division customer service personnel have the ability to post non-monetary adjustments to the accounting system when necessary; however, the Water Division does not have adequate written formal policies and procedures for preparing and approving non-monetary adjustments, including when an adjustment form is required and for what types of transactions. Without sufficient controls in place, non-monetary adjustments can present a significant fraud risk.
Construction Deposits	The Water Division has not processed and disbursed construction deposits held in escrow on a timely basis. Seven of the 9 constructions deposits reviewed showed the related projects were completed prior to 2018; however, the deposits for these 7 projects totaling approximately $45,000 continued to be held by the Water Division. Invoices had not been generated for these projects, deposits had not been applied to the open invoices, and no invoice or refund had been sent to customers.

Capital Assets	Water Division personnel have not performed a recent, documented, physical inventory of capital assets as required by division policy. Additionally, with the exception of vehicles, the Water Division has not established procedures to ensure assets are tagged, numbered, or otherwise identified as Water Division property. As a result, assets are more susceptible to theft or misuse and asset records may be incomplete and inaccurate.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Department of Public Utilities Response 16

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Director of Department of Public Utilities and Water Commissioner
City of St. Louis, Missouri

We have audited certain operations of the City of St. Louis Department of Public Utilities in fulfillment of our duties under Section 29.200.3, RSMo. The State Auditor initiated audits of the City of St. Louis in response to a formal request from the Board of Aldermen. The city engaged KPMG LLP, Certified Public Accountants (CPAs), to audit the city's financial statements for the year ended June 30, 2020. To minimize duplication of effort, we reviewed the CPA firm's report for the June 30, 2020, audit since the June 30, 2021, audit had not been completed. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2021. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions.

2. Evaluate the department's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of St. Louis Department of Public Utilities.

Additional audits of various officials and departments of the City of St. Louis are in process, and any additional findings and recommendations will be included in subsequent reports.

State Auditor's Findings

1. Water Division Revenues

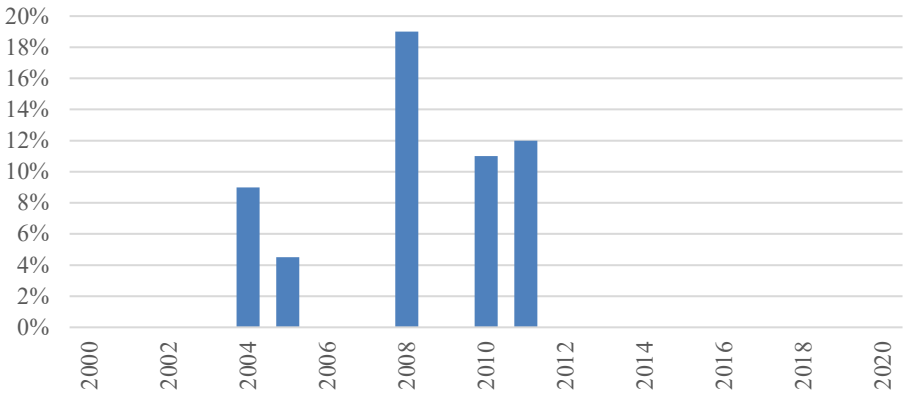
The City of St. Louis has not ensured water revenues are sufficient to adequately maintain the city's water distribution system. As a result, needed repairs and improvements have been delayed or have not been completed, and projected costs have significantly increased. While Department of Public Utilities Water Division personnel can recommend rate increases, the Mayor's office is responsible for advancing rate recommendations to the Board of Aldermen, and the Board is ultimately responsible for setting and approving the rates for the Water Division. The Water Division also forgoes potential revenues by not billing the city for water consumption at city-owned buildings and properties.

The Water Division obtains biennial rate sufficiency studies, as required by the city's water revenue bond indenture. The division has had 4 rate sufficiency studies completed since the last rate increase in 2011.[1] The purpose of these studies is to analyze the Water Division's compliance with current bond covenants and assess the sufficiency of the division's revenues to allow it to operate while also making needed capital improvements. All 4 rate sufficiency studies completed since the last rate increase recommended an increase to water rates to make needed improvements.

1.1 Water rate increases have not been implemented, resulting in delays in needed improvements

Water rate increases have not been implemented in over 10 years despite 4 rate sufficiency studies recommending such increases over that timeframe. As a result, needed capital improvements to the system were delayed and projected costs have significantly increased. Additionally, by not performing necessary maintenance of the water system, the Water Division is at risk of violating bond covenants. The delay of rate increases will also potentially result in more significant rate increases in the future to make up for past inaction, which would negatively impact rate payers.

Figure 1: Water Division rate increases, fiscal years 2000 to 2020



Source: Water Division data

[1] Studies were conducted in fiscal years 2013, 2015, 2017, and 2020. The Water Division delayed a scheduled rate sufficiency study in 2019 due to an anticipated rate increase. The delayed 2019 study was contracted to begin in March 2020; however, it was further delayed due to the COVID-19 pandemic and staffing problems at the contracted agency.

Cost of needed system maintenance increasing

According to rate sufficiency studies completed for the Water Division since the most recent rate increase in 2011, the projected cost of needed system improvements has increased significantly in recent years. For example, the fiscal year 2013 rate study projected an estimated cost of $17 million for distribution and transmission main replacement and improvements. By fiscal year 2017, the estimated cost had increased to approximately $70 million, and the estimated cost for the project in the fiscal year 2020 rate study was approximately $77 million, an increase of approximately 353 percent from the initial estimate. Similarly, the 2015 study estimated repairs to the Chain of Rocks pump station to cost $6 million, while just 2 years later in the 2017 study the same repair was estimated to cost $30 million.

According to the rate sufficiency studies, these capital projects, as well as several others, were needed to improve operations, provide system redundancy, replace aging infrastructure, and allow the system to maintain itself as a "sound, viable utility into the future." The most recent 4 rate sufficiency studies concluded that if rates were not increased the city would be out of compliance with the master indenture, which requires that the system to be maintained in good working order.

Rate increase recommendations have not always been advanced to Board of Aldermen

Despite the rate studies consistently recommending rate increases to fund capital improvements, such increases have not always advanced to the Board of Aldermen for consideration. In addition, such recommendations by the division are not regularly formally documented. According to Water Division personnel and available documentation, the Water Division only formally recommended a rate increase to the Mayor's office twice[2] over the past 10 years, and in only 1 of those instances, in 2017, did the rate increase proposal make it to the Board of Aldermen Public Utilities Committee. The committee voted against the proposed rate increase, and therefore, it was not forwarded to or voted on by the full Board of Aldermen. Discussions with Water Division administrators did not identify a clear cause as to why rate increases have not been formally advanced to the Board.

Rate increases have historically been large and infrequent

The Water Division has historically implemented large and infrequent water rate increases, rather than smaller, more frequent increases. As shown in Figure 1, the last 3 rate increases in 2008, 2010, and 2011 averaged approximately 14 percent. Prior to these 3 rate increases, rates had only been increased twice since 1997.

Such significant rate increases in a short timeframe can potentially cause financial stress on utility customers, particularly those with low and fixed

[2] A rate increase recommendation was provided to the Mayor's Office in 2017 and 2019. The 2017 rate increase recommendation was forwarded to the Public Utilities Committee for consideration, and the 2019 rate increase recommendation was later pulled from consideration by the Water Division due to the start of the pandemic.

incomes. According to the Environmental Protection Agency (EPA),[3] implementing more frequent and moderate rate increases may help avoid "rate shock" and would allow customers to more easily absorb rate increases.

These periodic rate increases would allow the Water Division to maintain compliance with the division's bond covenants, cover increases in operating costs, and provide funding for capital improvements necessary to maintain the division's aging infrastructure.

1.2 Water usage at city facilities has not been billed

The Water Division does not bill the city for water consumption at city-owned buildings and property. As a result, the Water Division is forgoing revenue from city sources and spreading the cost of city water usage across city water customers. According to Water Division personnel, currently only 147 of an estimated 841 city buildings and properties are metered for water use (17.5 percent). The meters located on these city properties are read on a quarterly basis to measure water usage, but is not billed. The estimated water usage for these 147 city buildings and properties for fiscal year 2021 would have generated $738,376 in potential revenue.

The Water Division's water rates are required by bond covenants to produce sufficient revenue to cover all operating costs and to provide for bond payments. Currently the division's rate calculations spread these revenue requirements across all paying utility customers. The Water Division has a potential source to assist in generating revenue that could be used to fund capital improvement projects necessary for maintaining functionality of the water distribution infrastructure.

The Water Division does not believe collection of this potential revenue source is reasonable or feasible based on the increased cost of billing and accounting. According to the Water Division, the city only uses water for purely public purposes and for the public good, and due to this, it cannot bill other city divisions for water consumed on city-owned properties. However, this is inconsistent with how the Water Division interacts with other city departments when services are provided. For example, the Collector of Revenue processes and collects payments for water customers for the Water Division and receives compensation for this service by retaining 4 percent from customer water bills. The Water Division and other city departments/divisions also pay allocated costs to the Comptroller's office on an annual basis for accounting and administrative services received. Additionally, the Streets Department compensates the Water Division for

[3] Environmental Protection Agency, Office of Water, *Setting Small Drinking Water System Rates for a Sustainable Future*, <https://nepis.epa.gov/Exe/ZyPDF.cgi/2000D2NM.PDF?Dockey=2000D2NM.PDF>, accessed September 22, 2022.

services provided to the Streets Department related to refuse services. It is not unreasonable for other city departments to be billed for water consumption since the Water Division is providing a service to these departments.

The city's revenue bond indenture states that all users of water services shall be charged such rates and charges to be fully adequate to meet the requirements of the Waterworks Revenue Fund. In addition, City Charter Article XIII, Section 12, states, "The accounts of all public utilities owned and operated by the city and dependent for the revenues upon the sale of their products or services shall. . . contain proportionate charges for all services performed for such utilities by other departments, as well as proportionate credits for all services rendered." Based on this, the Water Division should be paid for any services provided to other departments, as well as pay all other departments for services received, as is typical for other city enterprise funds.

Conclusion

While the Water Division has formally recommended rate increases on 2 occasions since 2011, the Board of Aldermen has not taken a vote on the topic. Without the additional revenues from increased rates the Water Division is not able to incur additional debt necessary to perform any significant capital improvements needed. The estimated costs of needed improvements have increased significantly over the past 10 years. Ensuring improvements and repairs to the water system are made in a timely manner is in the best interest of the customers of the Water Division and of the system in general. Significant increases in water rates will need to be implemented in order to finance needed improvements. Any supplemental revenue provided by billing city water use to appropriate city departments would help offset any additional revenues needed to be collected via increased rates.

Similar conditions previously reported

Similar conditions were noted in our prior audit report. In the *Follow-Up Report on Audit Findings City of St. Louis - Department of Public Utilities*, Report No. 2018-107, issued in October 2018, department officials indicated the previous recommendations for Management Advisory Report (MAR) Finding Number 1.2 had not been implemented and MAR Finding Number 1.1 had been partially implemented; however, we found that the problems identified in MAR Finding Number 1.1 continue to exist.

Recommendations

The Water Division:

1.1 Consider the suggestions of completed rate sufficiency studies and formally document any proposed rate increases suggested to the Mayor and Board of Aldermen. In addition, work with the Mayor and Board of Aldermen to ensure water rates are more evenly increased to allow customers to more easily absorb rate increases and ensure critical infrastructure is updated and maintained.

1.2 Work with city officials to meter water usage or develop alternative water usage estimates to determine the city's water usage and compensate the Water Division for city water use.

Auditee's Response

1.1 The Water Division agrees with the finding. See the division's full written response in the Appendix.

1.2 The Water Division disagrees with the finding. See the division's full written response in the Appendix.

2. Payroll Controls and Procedures

Water Division payroll procedures need improvement. A lack of proper approval of schedule changes with the Department of Personnel has resulted in unpaid overtime for employees, and inadequate supervision of payroll clerks has resulted in holiday week compensation being inconsistently calculated and unnecessary overtime paid.

2.1 Schedule modifications not approved, resulting in unpaid overtime

The Water Division modified the permanent work schedules for approximately 56 Water Division employees without obtaining approval from the city's Department of Personnel as required by city policy. This schedule change required the division to circumvent the city's payroll system controls by moving hours worked in one week to another, resulting in the underpayment of overtime earned. This practice is not in accordance with the city's overtime policy or Fair Labor Standards Act (FLSA) requirements.

The Water Division's modified work schedules require certain employees to work three (3) 12-hour shifts in one week, and four (4) 12-hour shifts the following week, for a total of 84 hours per pay period. Employees' hours worked are either electronically or manually documented on time cards and recorded by the section supervisor on a bi-weekly attendance record submitted to a Water Division payroll clerk for further processing. In weeks in which the employee is required to work 48 hours, supervisors "move" 4 of those hours to the 36-hour work week on the attendance record. This modification of records of hours worked reduces the amount of overtime payable to employees and is a violation of the FLSA, the city's compensation ordinance, and the Department of Personnel Administrative Regulation No. 134, all of which require overtime be calculated on a per workweek basis, and not be averaged or calculated over the course of a pay period.

Based on auditors' inquiries, the city's Department of Personnel directed the Water Division to immediately stop this practice in a September 2021 letter, and further instructed the division to calculate and compensate all impacted employees for the prior 2 years.

We estimated each employee was underpaid 2 hours[4] each pay period resulting in approximately $83,800 annually in underpaid time for the 56 employees affected by this practice. Department personnel indicated changes to the work schedules had been made several years ago to accommodate the shortage of employees in some areas, but they could not provide a more precise date. It is unclear why the division did not obtain the proper approval for the schedule change in question, or whether the Department of Personnel would have approved such a change due to the increased overtime that would have resulted.

2.2 Payroll Supervision

Supervisory review procedures of payroll records need improvement. Our review of payroll transactions identified instances in which hours reported on individual employee timesheets did not agree to hours reported on summarized bi-weekly attendance records and/or departmental timesheets created for processing in the city's payroll system. Additionally, our review identified instances of the inconsistent application of city policy related to paid holiday compensation. The errors identified resulted in some employees being compensated for more time than is required by city policy.

We reviewed a sample of employee attendance records for a pay period involving a holiday and identified multiple employees with inaccurate time recorded. City ordinance[5] states any employees not working on a paid holiday are to be provided with compensatory time equivalent to their regular shift. However, our review determined certain employees were paid overtime in addition to earning compensatory time for the paid holiday. For example, an employee whose scheduled day off fell on the holiday was paid for working 6 additional hours that work week in addition to earning 12 hours of compensatory time for the paid holiday.

The errors in question were isolated to one particular payroll clerk, so the full financial impact of these errors could not be easily estimated. However, this issue would potentially affect 77 employees, or 29 percent, of Water Division personnel. Proper reviews of timesheet information entered into the payroll system are necessary to ensure individual timesheet information is calculated correctly and entered into the department's payroll system accurately.

[4] Each employee should have been paid 36 straight time hours in the short week, plus 40 straight time hours and 8 overtime hours (paid at time and a half this is equivalent to 12 straight time hours) in the long week, for a total of 88 hours. However, each employee was actually paid for 40 straight time hours in the short week, plus 40 straight time hours and 4 overtime hours (paid at time and a half this is equivalent to 6 straight time hours) in the long week, for a total of 86 hours. Therefore, each employee was underpaid for 2 hours per pay period.

[5] City Ordinance No. 71099 states, "Except as otherwise provided in this section, when a City holiday falls on an employee's regularly scheduled day off, the employee shall be entitled to have compensatory time added to his/her balance in an amount proportionate to the number of hours regularly scheduled in a day or shift."

Without thorough reviews of payroll documentation, errors, theft, or misuse of district resources could go undetected.

Recommendations

The Water Division:

2.1 Obtain the proper schedule approvals for all personnel with the Department of Personnel, and work with that department to ensure overtime is being calculated properly for all employees going forward.

2.2 Ensure proper supervisory reviews of employee hours recorded in the payroll system are performed, hours recorded in the payroll system agree to individual employee timesheets, and timesheets are calculated accurately and in compliance with city ordinances.

Auditee's Response

2.1 The Water Division agrees with the finding. See the division's full written response in the Appendix.

2.2 The Water Division agrees with the finding. See the division's full written response in the Appendix.

3. Billing Adjustment Procedures

Controls over non-monetary adjustments posted to the Water Division billing system are insufficient and need improvement. A non-monetary adjustment is a transaction for which an amount owed is adjusted and money is not received. Total non-monetary adjustments posted for flat and metered rate customers' accounts during the fiscal year ended June 30, 2021, totaled approximately $3.5 million. Without sufficient controls in place, non-monetary adjustments can present a significant fraud risk.

Water Division customer service personnel have the ability to post non-monetary adjustments to the accounting system when necessary, such as writing off water billed due to a water leak. According to division management, customer service personnel are required to prepare an adjustment form to support the reason for the adjustment and obtain supervisory approval for each such adjustment. However, the Water Division does not have adequate written formal policies and procedures for preparing and approving non-monetary adjustments, including when an adjustment form is required and for what types of transactions. As a result, the use of adjustment forms to approve adjustments has been inconsistent.

Our review of adjustments made to 12 customer accounts noted an adjustment form had not been prepared for 6 (50 percent) of the adjustments reviewed. Of the 6 remaining customer account adjustments that included an adjustment form, 1 form did not contain supervisory approval.

In addition, the Water Division does not reconcile adjustments performed to customer accounts in the billing system to completed account adjustment

forms, which are prepared outside of the system. Without such a reconciliation there is a risk that unapproved adjustments are being made within the system. Water Division personnel indicated adjustment forms are not always used for certain types of adjustments or are self-explanatory and were sufficiently documented in the computer.

Review and approval of adjustments by an independent person is necessary to ensure adjustments made are proper. Preparing and approving adjustment forms before they are made in the computer system and ensuring posted adjustments are compared to the list of approved adjustments would help ensure non-monetary adjustments are accurate, complete, and valid.

A similar condition was noted in our prior audit report. In the *Follow-Up Report on Audit Findings City of St. Louis - Department of Public Utilities*, Report No. 2018-107, issued in October 2018, department officials reported this previous recommendation had been implemented; however, we found that the corrective action was not consistently applied and problems continue to exist.

Recommendation

The Water Division develop formal policies and procedures to perform adjustments on customer accounts. Additionally, the Water Division should ensure all non-monetary adjustments made to the computer system are properly approved and compared to actual changes posted to the computer system, and documentation of all such adjustments should be retained.

Auditee's Response

The Water Division agrees with the finding. See the division's full written response in the Appendix.

4. Construction Deposits

The Water Division has not processed and disbursed construction deposits held in escrow on a timely basis. As of May 28, 2021, the Water Division held construction deposits from more than 110 construction companies totaling approximately $756,000. Some of these deposits date back to 2014.

The Water Division requires customers to pay a deposit for the estimated billable Water Division costs related to any construction project that involves part of the water system. Examples of these projects could include relocating a fire hydrant, moving a water main, or purchasing a water tap. Once the project has been completed, existing procedures require the project manager to notify the Finance section of the project's completion. The Finance section is then supposed to generate the project invoice, apply the deposit to the invoice balance, and bill the customer for any balance due or request a refund be generated for any remaining deposit balance.

Our review of 10 deposits held in escrow as of May 28, 2021, showed 9 deposits had been paid to the Water Division between 2014 and 2017. According to the public works records, 7 of the 9 related projects were completed prior to 2018; however, the deposits for these 7 projects totaling

approximately $45,000 continued to be held by the Water Division. Invoices had not been generated for these projects, deposits had not been applied to the open invoices, and no invoice or refund had been sent to customers.

The Finance section employee responsible for this process resigned in 2019, and the responsibilities were not reassigned timely. However, based on our review of deposits held, this employee did not always prepare invoices and refunds for several years prior to resigning.

Water Division deposits for construction projects held in escrow are restricted funds held until the construction project is complete. Periodic follow up on construction projects with a deposit balance is necessary to ensure holdings are properly disbursed, and any balance remaining is returned to the customer in a timely manner or applied to the customer's invoice for the services rendered.

Recommendation

The Water Division perform a review to identify and expedite any potential refunds being held from previous periods, and establish procedures to ensure construction deposits held in escrow are reviewed periodically, construction projects are invoiced timely, and money held in escrow is properly handled and disbursed timely.

Auditee's Response

The Water Division agrees with the finding. See the division's full written response in the Appendix.

5. Capital Assets

Water Division personnel have not performed a recent, documented, physical inventory of capital assets as required by division policy. Additionally, with the exception of vehicles, the Water Division has not established procedures to ensure assets are tagged, numbered, or otherwise identified as Water Division property. As a result, assets are more susceptible to theft or misuse and asset records may be incomplete and inaccurate. According to the city's audited financial statements for the fiscal year ended June, 30, 2021, the Water Division had capital assets totaling approximately $349 million, with approximately $33 million in equipment and electronics.

The Water Division's policy and procedure for capital assets requires section heads to keep track of capital assets within their sections, perform periodic verifications of their capital assets, and report any changes to the Water Commissioner's office and the Finance section. According to Water Division personnel, with the exception of division vehicle records, which are updated annually for insurance purposes, the division has had difficulties tracking all capital assets and conducting required periodic inventories due to a shortage of employees. Personnel indicated the last comprehensive annual inventory had occurred in 2010 or 2011. Water Division personnel indicated the division had discussed tagging capital assets; however, no formal plan has been developed.

Adequate capital asset records and procedures are necessary to ensure effective internal controls over city property; safeguard city assets that are susceptible to loss, theft, or misuse; and provide a basis for proper financial reporting and insurance coverage.

Recommendation

The Water Division ensure complete and accurate inventory records are maintained and annual documented physical inventories are conducted, and ensure assets are properly tagged for identification in accordance with division policy.

Auditee's Response

The Water Division agrees with the finding. See the division's full written response in the Appendix.

City of St. Louis - Department of Public Utilities
Organization and Statistical Information

The Mayor appoints a director of the Department of Public Utilities to oversee operations. The department's 2 divisions are the Water Division and Communications Division. The City of St. Louis acquired an existing waterworks system and began providing water in 1835. The Water Division's budget included 354 full-time employees as of June 30, 2021. Currently, the Director of Public Utilities and Water Commissioner is Curtis B. Skouby, P.E., who was appointed in April 2008. The Communications Division's budget included 12 full-time employees as of June 30, 2021. Currently, the Communications Commissioner is Donna Brooks-Sanders, who was appointed in September 2005.

Communications Division

The Communications Division enforces the city's cable franchise ordinances, inspects cable installations and plant construction, and maintains a government access television channel.

Water Division

The Water Division is responsible for producing and distributing drinkable water to customers, maintaining distribution lines, and billing customers for services rendered. During the year ended June 30, 2021, operating revenues for the Water Division were $51.5 million. The division has 6 sections including the Commissioner's office and the Finance, Supply and Purifying, Power and Pumping, Distribution, and Customer Service sections. These sections are overseen by the Water Commissioner.

The Commissioner's office enforces city water ordinances related to the operation and maintenance of the city waterworks and the assessment of the water rates. The office provides overall direction and human resources support to the various sections of the division.

The Finance section provides fiscal and budgetary structure and control to the Water Division, prepares financial reports, processes suppliers' invoices, and bills miscellaneous charges.

The Supply and Purifying section chemically treats and filters water in compliance with water quality requirements, and operates and maintains the division's railways, towers, tunnels, basins, reservoirs, and conduits.

The Power and Pumping section operates and maintains pumping station machinery, steam boilers and furnaces, electric generators and motors, the waterworks railway, heating and refrigerating systems, and machine shop equipment. This section also inspects material and shop work and determines the efficiency of pumps, boilers, generators, motors, and all pumping station appliances.

The Distribution section supervises the manufacture and inspection of steel and cast iron pipes, hydrants, valves, meters, and special castings and fittings;

and directs the laying of extensions and repairs to the pipe system. This section also maintains water service to consumers.

The Customer Service section bills for water services used by residential and commercial customers, maintains customer accounts, and investigates damage claims against the division.

TISHAURA O. JONES
MAYOR

City of Saint Louis
DEPARTMENT OF PUBLIC UTILITIES
OFFICE OF THE DIRECTOR
1640 So. Kingshighway Blvd.
Saint Louis, Missouri 63110-2230
(314) 633-9000
Fax: (314) 664-6786

CURTIS B. SKOUBY, P.E.
DIRECTOR OF PUBLIC UTILITIES

November 8, 2022

Honorable Nicole Galloway, CPA
Missouri State Auditor
Jefferson City, Missouri

We have reviewed the findings from your office's audit of the City of St. Louis Public Utilities. Below you will find our responses to the audit findings.

1.1 The Water Division should consider the suggestions of completed rate sufficiency studies and formally document any proposed rate increases suggested to the Mayor and Board of Aldermen. In addition, work with the Mayor and Board of Aldermen to ensure water rates are more evenly increased to allow customers to more easily absorb rate increases and ensure critical infrastructure is updated and maintained.

Division's Response: The Water Division agrees with this finding. Smaller, more frequent rate increases are more desirable as opposed to what historically has happen. Proposing rate increases will be done in a documented, formal manner.

1.2 The Water Division should work with city officials to meter water usage or develop alternative water usage estimates to determine the city's water usage and compensate the Water Division for city water use.

Division's Response: The Water Division disagrees with this finding. The issue of developing meter water usage or alternative water usage is a City policy which the Water Division does not control. The Water Division will review the situation with city officials to see where we might be able to make changes.

2.1 The Water Division should obtain the proper schedule approvals for all personnel with the Department of Personnel, and work with that department to ensure overtime is being calculated properly for all employees going forward.

Division's Response: The Water Division agrees with this finding. This has been corrected and the employees who were effected have been made whole in their wages.

2.2 The Water Division should ensure proper supervisory reviews of employee hours recorded in the payroll system are performed, hours recorded in the payroll system agree to individual employee timesheets, and timesheets are calculated accurately and in compliance with city ordinances.

Division's Response: The Water Division agrees with this finding. A more thorough review is being performed by all Payroll Specialists at this time. The City will also be implementing a new payroll system which will help prevent this error in the future.

3. The Water Division develop formal policies and procedures to perform adjustments on customer accounts. Additionally, the Water Division should ensure all non-monetary adjustments made to the computer system are properly approved and compared to actual changes posted to the computer system, and documentation of all such adjustments should be retained.

Division's Response: The Water Division agrees with the finding. Although the Water Division already has a formal policies and procedures to perform adjustments on customer accounts, we will work on improving these policies and procedures and strictly enforce them. As workload permits, we will also work with our IT Group to develop an electronic adjustment and approval system to strengthen our internal control and better audit trail.

4. The Water Division perform a review to identify and expedite any potential refunds being held from previous periods, and establish procedures to ensure construction deposits held in escrow are reviewed periodically, construction projects are invoiced timely, and money held in escrow is properly handled and disbursed timely.

Division's Response: The Water Division agrees with this finding. We will work on improving the communication between our Finance and Distribution sections and conduct a quarterly review of open deposits, process completed work orders timely and apply deposits and/or refunds as appropriate.

5. The Water Division ensure complete and accurate inventory records are maintained and annual documented physical inventories are conducted, and ensure assets are properly tagged for identification in accordance with division policy.

Division's Response: The Water Division agrees with this finding. The Water Division will work towards setting up systems that will allow the department to conduct annual physical inventory and provide a manner in which assets are properly tagged for identification in accordance with division policy.

Sincerely,

Curtis B. Skouby, P.E.
Director of Public Utilities
City of St. Louis

Summary of Local Government and Court Audit Findings - Information Security Controls

Report No. 2022-115

November 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Summary of Local Government and Court Audit Findings - Information Security Controls

User Access Management	Access to certain systems is not adequately restricted. The user access of former employees is not disabled timely.
User Authentication	Passwords are not required to be changed on a periodic basis. User accounts and passwords for accessing computers and various systems are shared by users. A password is not always required to logon and authenticate access to a computer. Passwords are not required to contain a minimum number of characters.
Security Controls	Inactivity controls have not been implemented to lock a computer or system after a certain period of inactivity. Security controls have not been implemented to lock access to a computer or system after a specified number of unsuccessful logon attempts. Antivirus protection software to detect and eradicate malicious code has not been installed on computer systems.
Backup and Recovery	Data in various systems is not periodically backed up. Data backups are not stored at a secure off-site location. Periodic testing of backup data is not performed. Management has not developed a plan for resuming normal business operations and recovering computer systems and data in the event of a disaster or other extraordinary situation.

Because of the nature of this report, no rating is provided.

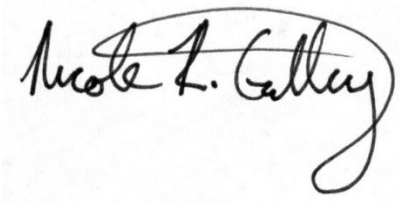
Audit Reports 8

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

This report was compiled using local government and court audit reports issued by my office between July 2021 and June 2022 (report numbers 2021-037 through 2021-134 and 2022-001 through 2022-037). The objective of this report was to summarize recent information security control issues and recommendations.

The recommendations address a variety of topics including user access management, user authentication, security controls, and backup and recovery. The Appendix lists the 16 reports with findings covering these topics.



Nicole R. Galloway, CPA
State Auditor

Summary of Local Government and Court Audit Findings
Information Security Controls
Audit Issues

1. User Access Management

1.1 Access rights and privileges	Access to certain systems is not adequately restricted. Access rights and privileges are used to determine what a user can do after being allowed into a system, such as read or write to a certain file. System access is typically restricted based on user needs and job responsibilities. Excessive system access can result in users having opportunities to perform unintended or undesired actions that are not aligned with their responsibilities. Potential consequences include unauthorized access or changes to sensitive records, or a failure to segregate duties. In addition, periodic evaluations of system access against assigned responsibilities, and/or independent reviews of changes made to records, are not performed. Without adequate user access restrictions, there is reduced assurance that duties are properly segregated, and increased risk of improper activity occurring.
Recommendation	Ensure user access rights are limited to only what is necessary to perform job duties and responsibilities.
Report Source	2021-073 (Marshall Public Schools) 2021-087 (Sixth Judicial Circuit Platte County) 2022-009 (Ralls County)
1.2 Terminated employees	The user access of former employees is not disabled timely. Without effective procedures to remove access, terminated employees could continue to have access to critical or sensitive resources or have opportunities to sabotage or otherwise impair operations or assets. The failure to timely remove access for terminated employees increases the risk of unauthorized access and may compromise the confidentiality and integrity of data.
Recommendation	Ensure user access is promptly deleted following termination of employment.
Report Source	2021-073 Marshall Public Schools

2. User Authentication

2.1 Passwords not changed	Passwords are not required to be changed on a periodic basis. As a result, there is less assurance passwords are effectively limiting access to computer systems and data files to only those individuals who need access to perform

their job responsibilities. Changing passwords periodically helps to reduce the risk of unauthorized access to and use of systems and data.

Without requiring passwords to be periodically changed, the likelihood that accounts could be compromised and used by unauthorized individuals to gain access to sensitive information is increased.

Recommendation

Ensure passwords are periodically changed to prevent unauthorized access to computers and data.

2.2 Sharing passwords

User accounts and passwords for accessing computers and various systems are shared by users. The security of a password system is dependent upon keeping passwords confidential. By allowing users to share accounts and passwords, individual accountability for system activity could be lost and unauthorized system activity could occur.

Without strong user account and password controls, including maintaining the confidentiality of passwords, the likelihood that accounts could be compromised and used by unauthorized individuals to gain access to sensitive information is increased.

Recommendation

Ensure unique user accounts and passwords are required to access computers and data. In addition, ensure users understand the importance of maintaining the confidentiality of passwords.

2022-035 (Reynolds County Collector and Property Tax System)

2.3 Password not required

A password is not required to logon and authenticate access to a computer.

Without requiring passwords to access a computer or system, there is no assurance the data or system is protected from unauthorized access and use.

Recommendation Ensure passwords are required to authenticate access to computer systems and data.

Report Source 2022-030 (Worth County)

2.4 Password complexity

Passwords are not required to contain a minimum number of characters. Strong passwords are often the first line of defense into a computer or system. As a result, establishing an appropriate minimum character length makes it more difficult for passwords to easily be guessed or identified using password-cracking mechanisms.

Without enforcing password complexity by requiring a minimum number of characters, there is an increased risk that passwords can be more easily guessed, allowing unauthorized access to data and systems.

Recommendation Ensure passwords contain a minimum number of characters so they cannot be easily guessed.

3. Security Controls

3.1 Inactivity control

Inactivity controls have not been implemented to lock a computer or system after a certain period of inactivity. Having users log off computers when unattended and implementing an inactivity control to lock a computer or terminate a user session after a certain period of inactivity will help reduce the risk of unauthorized individuals accessing an unattended computer and having potentially unrestricted access to programs and data files.

Without an inactivity control, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Recommendation Ensure an inactivity control is implemented to lock a computer or system after a certain period of inactivity.

Report Source
2021-038 (Henry County)
2021-051 (Macon County)
2021-107 (Sullivan County)

3.2 Unsuccessful logon attempts	Security controls have not been implemented to lock access to a computer or system after a specified number of unsuccessful logon attempts. Logon attempt controls lock the capability to access a computer or system after a specified number of consecutive unsuccessful logon attempts, and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer or system by guessing passwords. Without effective controls to limit the number of consecutive unsuccessful logon attempts, there is less assurance sensitive data is effectively protected from unauthorized access.
Recommendation	Ensure a security control is implemented to lock access to a computer or system after multiple unsuccessful logon attempts.
Report Source	2021-038 (Henry County) 2021-042 (Dade County) 2021-051 (Macon County) 2021-107 (Sullivan County) 2022-030 (Worth County) 2022-035 (Reynolds County Collector and Property Tax System)
3.3 Antivirus protection	Antivirus protection software to detect and eradicate malicious code has not been installed on computer systems. Without adequate antivirus protection, there is an increased risk that computers will be infected and that unauthorized processes will have an adverse impact on the confidentiality, integrity, or availability of a system.
Recommendation	Ensure computers and systems are adequately protected from computer viruses.
Report Source	2022-020 (City of Cross Timbers)

4. Backup and Recovery

4.1 Data backup	Data in various systems is not periodically backed up. Preparation of backup data, preferably on a daily or at least weekly basis, provides reasonable assurance data could be recovered if necessary. Without regular data backups, there is an increased risk critical data will not be available for recovery should a disruptive event occur.
Recommendation	Ensure data is regularly backed up.

Report Source	2021-069 (Oregon County) 2021-107 (Sullivan County) 2022-020 (City of Cross Timbers)
4.2 Off-site storage	Data backups are not stored at a secure off-site location. Some data backups are performed; however, the backup files are stored at the same location as the original data leaving the files susceptible to the same damage as that data. Without storing backup data at a secure off-site location, critical data may not be available for restoring systems following a disaster or other disruptive incident.
Recommendation	Ensure backup data is stored in a secure off-site location.
Report Source	2021-107 (Sullivan County) 2022-020 (City of Cross Timbers)
4.3 Periodic testing	Periodic testing of backup data is not performed. Such testing is necessary to ensure the backup process is functioning properly and to ensure all essential data can be recovered. Without testing the full backup process, management cannot be assured the entire system can be restored when necessary.
Recommendation	Ensure backup data is tested on a regular, predefined basis.
Report Source	2022-017 (Clay County)
4.4 Disaster recovery plan	Management has not developed a plan for resuming normal business operations and recovering computer systems and data in the event of a disaster or other extraordinary situation. A formal, written disaster recovery plan is needed to guide an organization through computer system and overall operation recovery following a disaster or other extraordinary event. Periodic evaluation, testing and updating of the plan helps ensure the recovery process will be effective if the plan has to be implemented.
Recommendation	Develop a formal disaster recovery plan and periodically test and evaluate the plan.

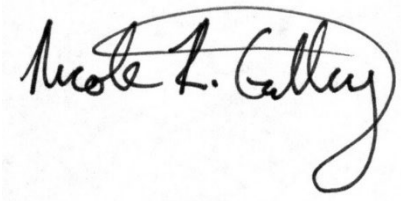
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of September 2022 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In September, the state spent $287.3 million from federal ARP Act assistance (Appendix A). Through the end of September, the state has received $4.88 billion and spent $2.08 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of September 30, 2022, approximately $11.01 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19 services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

[1] U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule,* January 2022. The final rule took effect April 1, 2022; however, recipients could take advantage of the final rule's flexibilities and simplifications before the effective date.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations

[2] The time period recipients can spend this funding.

involved in passenger or cargo transportation, and special-purpose units of state or local governments.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state were required to file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In September, the state spent $287.3 million from federal ARP Act assistance (Appendix A). Through the end of September, the state has received $4.88 billion and spent $2.08 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the 2 fiscal years ending June 30, 2023, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between ARP Act and non-ARP Act activity.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2023, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because its appropriations are not used for ARP Act purposes.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

Total all Funds	$ 4,877,229,571	2,078,327,822	0	1,140,161,995	1,140,039,029	2,799,024,715

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, the DED has occasionally used it to receipt and disburse ARP Act awards due to grant drawdown and budgetary timing challenges.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the 2 fiscal years ending June 30, 2023, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between ARP Act and non-ARP Act activity.

[3] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2023, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because its appropriations are not used for ARP Act purposes.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] This fund had $13,826,934 in expenditures in June 2021 from a similar appropriation in fiscal year 2021. Due to the limited use of ARP Act funds in fiscal year 2021, appropriation activity for fiscal year 2021 will not be included in this report.

[3] House Bill 3002 section 328 does not clearly describe all appropriations within the Child Care Stabilization Federal Emergency 2021 Fund and Child Care Discretionary Federal Emergency Relief 2021 Fund. Words presented in quotation marks are cited from the Statewide Accounting System's (SAM II) internal description. There were no expenditures from these appropriations through September 2022.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

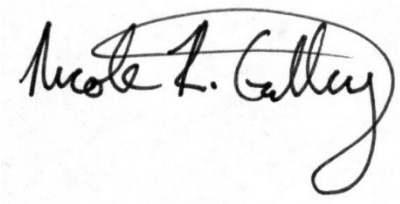
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of September 2022 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In September, the state spent $120.5 million from federal COVID-19 assistance (Appendix A). Through the end of September, the state has received $6.53 billion and spent $6.3 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.98 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of September 30, 2022, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of September 30, 2022, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients were permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, Assistance Listing Number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients were permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of September 30, 2022, approximately $4.39 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of September 30, 2022, approximately $2.9 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of September 30, 2022, approximately $11.01 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In September, the state spent $120.5 million from federal COVID-19 assistance (Appendix A). Through the end of September, the state has received a total of $6.53 billion and spent $6.3 billion from this assistance (Appendix B). A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.98 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 3 fiscal years ended June 30, 2023, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[2] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the 3 fiscal years ending June 30, 2023, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations, which are included in Appendix C.

[3] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the 2 fiscal years ending June 30, 2023, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity.

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 3 fiscal years ended June 30, 2023, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the 3 fiscal years ending June 30, 2023, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations, which are included in Appendix C.

[4] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[5] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the 2 fiscal years ending June 30, 2023, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity.

[6] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2022. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services could not directly expend any receipted money from the fund, as it could during the fiscal year ended June 30, 2020.

[3] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients are currently permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[4] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

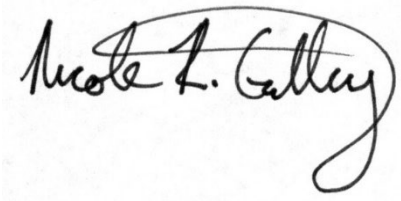
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of August 2022 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In August, the state spent $371.1 million from federal ARP Act assistance (Appendix A). Through the end of August, the state has received $4.6 billion and spent $1.79 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of August 31, 2022, approximately $10.96 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19

services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the

[1] U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule,* January 2022. The final rule took effect April 1, 2022; however, recipients could take advantage of the final rule's flexibilities and simplifications before the effective date.

period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

[2] The time period recipients can spend this funding.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state were required to file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In August, the state spent $371.1 million from federal ARP Act assistance (Appendix A). Through the end of August, the state has received $4.6 billion and spent $1.79 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the 2 fiscal years ending June 30, 2023, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between ARP Act and non-ARP Act activity.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2023, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because its appropriations are not used for ARP Act purposes.

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, the DED has occasionally used it to receipt and disburse ARP Act awards due to grant drawdown and budgetary timing challenges.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the 2 fiscal years ending June 30, 2023, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between ARP Act and non-ARP Act activity.

[3] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2023, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. [1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] This fund had $13,826,934 in expenditures in June 2021 from a similar appropriation in fiscal year 2021. Due to the limited use of ARP Act funds in fiscal year 2021, appropriation activity for fiscal year 2021 will not be included in this report.

[3] House Bill 3002 section 328 does not clearly describe all appropriations within the Child Care Stabilization Federal Emergency 2021 Fund and Child Care Discretionary Federal Emergency Relief 2021 Fund. Words presented in quotation marks are cited from the Statewide Accounting System's (SAM II) internal description. There were no expenditures from these appropriations through August 2022.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

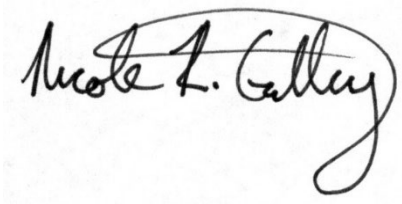
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of August 2022 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In August, the state spent $125 million from federal COVID-19 assistance (Appendix A). Through the end of August, the state has received $6.4 billion and spent $6.18 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.91 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of August 31, 2022, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of August 31, 2022, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients are currently permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, Assistance Listing Number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients are currently permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of August 31, 2022, approximately $4.34 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of August 31, 2022, approximately $2.9 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of August 31, 2022, approximately $10.96 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In August, the state spent $125 million from federal COVID-19 assistance (Appendix A). Through the end of August, the state has received a total of $6.4 billion and spent $6.18 billion from this assistance (Appendix B). A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.91 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 3 fiscal years ended June 30, 2023, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[2] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the 3 fiscal years ending June 30, 2023, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations, which are included in Appendix C.

[3] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the 2 fiscal years ending June 30, 2023, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 3 fiscal years ended June 30, 2023, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the 3 fiscal years ending June 30, 2023, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations, which are included in Appendix C.

[4] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[5] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the 2 fiscal years ending June 30, 2023, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity.

[6] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2022. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services could not directly expend any receipted money from the fund, as it could during the fiscal year ended June 30, 2020.

[3] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients are currently permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[4] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

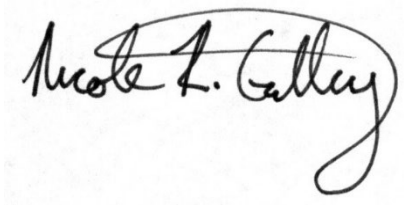
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of July 2022 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In July, the state spent $45.1 million from federal ARP Act assistance (Appendix A). Through the end of July, the state has received $4.25 billion and spent $1.42 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of July 31, 2022, approximately $10.93 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19

services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the

[1] U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule,* January 2022. The final rule took effect April 1, 2022; however, recipients could take advantage of the final rule's flexibilities and simplifications before the effective date.

period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

[2] The time period recipients can spend this funding.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state were required to file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In July, the state spent $45.1 million from federal ARP Act assistance (Appendix A). Through the end of July, the state has received $4.25 billion and spent $1.42 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the 2 fiscal years ending June 30, 2023, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between ARP Act and non-ARP Act activity.

FMAP Enhancement Expansion Fund [3]	260,765,861	260,765,861	0	0	0	0
Total all Funds	$ 4,248,816,393	1,419,940,572	0	1,139,661,995	1,139,842,025	2,828,695,791

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, the DED has occasionally used it to receipt and disburse ARP Act awards due to grant drawdown and budgetary timing challenges.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the 2 fiscal years ending June 30, 2023, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between ARP Act and non-ARP Act activity.

[3] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2023, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because its appropriations are not used for ARP Act purposes.

Appropriation Authority[1]	Expenditures	Remaining Balance	Appropriation Authority[1]	Expenditures	Remaining Balance

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] This fund had $13,826,934 in expenditures in June 2021 from a similar appropriation in fiscal year 2021. Due to the limited use of ARP Act funds in fiscal year 2021, appropriation activity for fiscal year 2021 will not be included in this report.

[3] House Bill 3002 section 328 does not clearly describe all appropriations within the Child Care Stabilization Federal Emergency 2021 Fund and Child Care Discretionary Federal Emergency Relief 2021 Fund. Words presented in quotation marks are cited from the Statewide Accounting System's (SAM II) internal description. There were no expenditures from these appropriations through July 2022.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

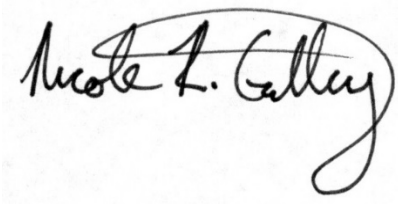
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of July 2022 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In July, the state spent $85 million from federal COVID-19 assistance (Appendix A). Through the end of July, the state has received $6.29 billion and spent $6.06 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.84 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of July 31, 2022, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of July 31, 2022, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients are currently permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, Assistance Listing Number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients are currently permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of July 31, 2022, approximately $4.32 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of July 31, 2022, approximately $2.9 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of July 31, 2022, approximately $10.93 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In July, the state spent $85 million from federal COVID-19 assistance (Appendix A). Through the end of July, the state has received a total of $6.29 billion and spent $6.06 billion from this assistance (Appendix B). A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.84 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

Department of Labor & Industrial Relations Federal Stimulus Fund	126,387	639,304	225,373	0	0	133,352	406,966
Total all Funds	$ 24,050,831	93,129,575	84,970,623	0	0	248,183	31,961,600

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement includes a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 3 fiscal years ended June 30, 2023, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[2] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the 3 fiscal years ending June 30, 2023, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations, which are included in Appendix C.

[3] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the 2 fiscal years ending June 30, 2023, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 3 fiscal years ended June 30, 2023, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the 3 fiscal years ending June 30, 2023, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations, which are included in Appendix C.

[4] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[5] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the 2 fiscal years ending June 30, 2023, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority does not distinguish between COVID-19 and non-COVID-19 activity.

[6] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2022. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] For the fiscal year ended June 30, 2021, the FMAP (Federal Medical Assistance Percentage) Enhancement Fund was only authorized an appropriation to transfer receipts to the Federal Budget Stabilization Fund and/or the General Revenue Fund. Therefore, the Department of Social Services could not directly expend any receipted money from the fund, as it could during the fiscal year ended June 30, 2020.

[3] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients are currently permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[4] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Carroll County Ambulance District

Misappropriated Money	From June 1, 2020, through March 31, 2021, money totaling at least $91,794 was misappropriated from the district. Payroll overpayments totaling $54,530 and questionable mileage reimbursements totaling $1,945 were paid to the Director. The Director also misappropriated $4,021 from a district employee benefit reimbursement account and used a district credit card for personal purchases totaling $108. The Director also improperly authorized 19 payroll overpayments totaling $29,560 to 15 district employees between November 29, 2020, and January 23, 2021, and a final payment of $1,630 to a district employee in July 2020.
Oversight and Segregation of Duties	The Board of Directors did not provide adequate oversight of the Director or establish segregation of duties over the various financial accounting functions. The Board did not adequately monitor the district's payroll and disbursements activity.
Payroll Controls and Procedures	The Board did not enter into a written employment contract with the Director. Time records and time summaries prepared by the Director were not always accurate and sometimes lacked adequate detail, and the Board did not review the Director's time records and summaries. The Board did not review or approve payroll transactions or reports. The district did not maintain complete personnel files for all district employees. The Board did not approve employee salary change notification forms. Mileage reimbursements exceeded the amounts authorized by the Board, and mileage forms other than those approved by the Board, were used. In addition, mileage reimbursement forms did not require the employee to indicate where they traveled, in order to ensure mileage claimed was reasonable. The Director revised district holiday, sick leave benefit, and bereavement leave policies in August and September 2020, without Board approval.
Disbursements	The district does not have a formal approval and bid policy, including procedures for sole source procurements or emergency purchases. Bids, or reasons for only obtaining one bid, were not documented for several purchases of goods or services, and the Board did not authorize significant purchases of medical supplies. Board members considered some of the Director's purchases to be unnecessary. The Director made improper personal purchases using the district's credit card and the district has not adopted formal credit card policies and procedures, including who has the authority to increase monthly credit card limits and appropriate use for credit cards.
Sunshine Law	Closed meeting minutes did not include sufficient details of the topics discussed to demonstrate compliance with statutory provisions, and on at least 2 occasions, records of the votes taken were not documented. In addition, Board meeting minutes were not always signed. The Missouri Attorney General's Office filed a civil lawsuit against the district in the Circuit Court of Carroll County on April 9, 2021, for violations of 3 counts of the Sunshine Law.
Passwords	Employees share passwords to access computer systems and are not required to keep passwords confidential, which increases the risk of unauthorized access.

Electronic Communication Policy	The district has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Capital Assets	The district does not maintain current, complete, and detailed records of capital assets. The district has not updated its capital asset list to include capital assets purchases since at least 2018. The district also does not tag or otherwise identify capital assets as property of the district, or perform an annual physical inventory of district property.

In the areas audited, the overall performance of this entity was **Poor**.*

*****The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Board of Directors
Carroll County Ambulance District
Carrollton, Missouri

We have audited certain operations of the Carroll County Ambulance District as they relate to the district's finances in fulfillment of our duties under Chapter 29, RSMo. Due to the concerns regarding misappropriated money, the State Auditor initiated the audit with the approval of the Carroll County Ambulance District Board of Directors. In addition, the Carroll County Ambulance District engaged Westbrook & Co., P.C., Certified Public Accountants (CPAs), to audit the district's financial statements for the year ended December 31, 2020. To minimize duplication of effort, we reviewed the report and substantiating working papers of the CPA firm. The scope of our audit included, but was not necessarily limited to, the period June 1, 2020, through March 31, 2021. The objectives of our audit were to:

1. Evaluate the district's internal controls over significant management and financial functions.

2. Evaluate the district's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

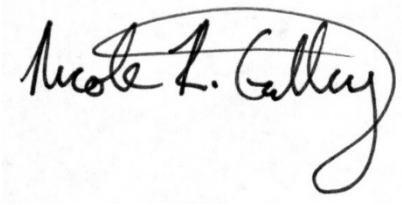
4. Determine the extent of money misappropriated from the district and any waste of public resources.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the district, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the district's management and its audited financial report and was not subjected to the procedures applied in our audit of the district.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) money misappropriated from the district totaling at least $91,794 and waste of public resources. The accompanying Management Advisory Report presents our findings arising from our audit of the Carroll County Ambulance District.



Nicole R. Galloway, CPA
State Auditor

Carroll County Ambulance District
Introduction

Background

The former Carroll County Ambulance District (CCAD) Director, Mario DeFelice, began employment June 16, 2020, and served until March 3, 2021. On July 9, 2020, the Board voted to approve a wage of $75,000 annually for the former Director.

The former Director[1] was primarily responsible for the following district functions and records:

- Hiring and terminating of ambulance crew members and setting their work schedules.

- Approving employee salary change forms, time records, time summaries, and payroll, including overtime[2] and holiday pay compensated at time and one-half or two times the regular pay rate. The Business Office Manager typically entered time and expenses into the payroll system based on the amounts approved by the Director. However, prior to the Director's termination, he gained access to the payroll system, and sometimes entered time and expenses.

- Purchasing bedding totaling up to $1,000 and medically necessary equipment and drugs totaling up to $2,000.

In March 2021, the State Auditor's Office (SAO) Whistleblower Hotline received a call from the CCAD Board regarding concerns over CCAD financial practices. The SAO conducted an initial review of these matters in April 2021, under Section 29.221, RSMo. After review of the documentation and communications provided, the SAO determined further investigation was warranted under Section 29.221, RSMo.

On May 6, 2021, the CCAD Board (Board) sent a letter to the SAO and a copy of a resolution authorizing an audit of the district for the year ended December 31, 2020, through March 31, 2021. On May 19, 2021, the SAO agreed to conduct this audit. The SAO began the audit in February 2022.

Audit staff made repeated requests by phone and email in May, June, and July 2022, to interview the Director regarding concerns about payments made from district funds during his employment. The Director ultimately declined,

[1] The former Director is referred to as the Director throughout the remainder of this report.

[2] District personnel policy No. 507, Overtime, indicates "Overtime compensation is paid to all nonexempt employees in accordance with federal and state wage and hours restrictions." The Fair Labor Standard Act indicates, "Employees covered by the Act must receive overtime pay for hours worked over 40 in a workweek at a rate not less than time and one-half their regular rates of pay." United States Department of Labor, Wage and Hour Division, Overtime Pay, is available at <https://www.dol.gov/agencies/whd/overtime>, accessed July 29, 2022.

by email, on July 12, 2022, indicating, "Report whatever you want to and I will deal with it at a later time."

The district's fiscal year is January 1 through December 31. The scope of our audit included, but was not necessarily limited to the period June 1, 2020, through March 31, 2021, the approximate time period the Director was employed. We applied procedures to district payroll and disbursement transactions to identify the amount of misappropriated money and waste of public resources and methods used to perpetrate and conceal the theft.

Sunshine Law

The Missouri Attorney General's Office (AGO) filed a civil lawsuit against the CCAD in the Circuit Court of Carroll County on April 9, 2021, for violations of the Sunshine Law (Case Number 21CR-CC00037). The AGO cited the following 3 counts of violations:

- Violation of Section 610.020.1 for failing to comply with minimum agenda requirements, and violation of Sections 610.020.2 and 610.020.4 for failing to comply with emergency meeting notice requirements.
- Violation of Section 610.020.1 for holding meetings on at least 2 occasions without providing any notice.
- Violation of Section 610.021 for not elaborating on personnel or legal discussions cited as the reason to close a meeting.

Sections 610.020.1 and 610.020.2, RSMo, require public entities to give at least 24 hours advance notice of the time, date, and place of each meeting, and its tentative agenda to advise the public of matters to be considered. Section 610.020.4, RSMo, requires public entities to justify and state in the minutes the cause for holding a meeting on less than 24 hour notice, or at a place or time not reasonably convenient to the public. Section 610.021, RSMo, provides that the discussion topics and actions in closed meetings are limited to only those specifically allowed by law.

On November 8, 2022, the AGO and CCAD jointly filed a proposed consent judgment to resolve the lawsuit[3], including a declaration to be submitted by the CCAD that the Sunshine Law was violated, a civil monetary penalty of $1,000, and several steps to be taken over the next year to assure future Sunshine Law compliance.

[3] The status of the lawsuit is available at <https://www.courts.mo.gov/casenet/cases/header.do?inputVO.caseNumber=21CR-CC00037&inputVO.courtId=CT08>, accessed November 9, 2022.

1. Misappropriated Money

From June 1, 2020, through March 31, 2021, money totaling at least $91,794 was misappropriated from the district. Payroll overpayments totaling $54,530 and questionable mileage reimbursements totaling $1,945 were paid to the Director. The Director also misappropriated $4,021 from a district employee benefit reimbursement account and used a district credit card for personal purchases totaling $108. The Director also improperly authorized 19 payroll overpayments totaling $29,560 to 15 district employees between November 29, 2020, and January 23, 2021, and a final payment of $1,630 to a district employee in July 2020.

The following table provides a summary of the amounts misappropriated by the Director and identifies the appendix where specific details are reported.

Description		Amount
Overtime pay (Appendix A)	$	35,150
Retention pay (Appendix A)		15,000
Holiday pay (Appendix A)		4,380
Payroll overpayments subtotal		54,530
Questionable mileage reimbursements (Appendix A)		1,945
Subtotal (Appendix A)		56,475
Employee benefit reimbursement account		4,021
Improper purchases		108
Total	$	60,604

The Director improperly added hours to other district employee time records that caused overpayments totaling $29,560 and improperly approved a final payment to a district employee for $1,630. The following table provides a summary of those amounts and identifies the appendix where specific details are reported.

Description		Amount
Overpayments (Appendix B)	$	29,560
Final payment		1,630
Total	$	31,190

Director

The Director was overpaid, reimbursed for questionable mileage, reimbursed from an improperly authorized employee benefit account, and made improper personal purchases using the district's credit card.

Overtime pay

Between July 16, 2020, and March 10, 2021, the Director improperly claimed 642 hours of overtime that resulted in $35,150 in improper overtime payments.

The Director did not record any overtime on his time records or time summaries during the first 2 pay periods he was employed, then recorded 48

hours of overtime for each of the next 11 pay periods, and recorded between 24 and 80 hours for the last 5 pay periods he was employed.

We reviewed ambulance schedules and run logs, and employee time records and summaries to determine if the amount of overtime claimed by the Director was reasonable. We noted 168 hours (7 - 24 hour shifts) where the Director was either scheduled to work as the sole paramedic for an ambulance and/or performed an ambulance run as the sole paramedic.[4] For the other 642 hours, the Director either was not scheduled to work on an ambulance or did not make an ambulance run as the only available paramedic. As the Board only agreed to compensate the Director for time when other personnel were unavailable, those hours and the related overtime pay, totaling $35,150, is improper.

According to the former Business Office Manager, the Director's position had previously been classified by the Board as a salaried employee, exempt from overtime. Board meeting minutes also did not document the approval of any overtime paid to the Director. In addition, on July 9, 2020, the Board passed Motion No. 38-20 authorizing the Director be paid $75,000 annually. Most of the former Board members indicated, in recorded interviews, they remembered informal discussions with the Director that he would be compensated, in addition to his annual pay, for working as a paramedic on an ambulance, when no other paramedic was available. Most current and former Board members also indicated the Director refused to sign an employment contract and they were not aware the Director was claiming excessive amounts of overtime until after his termination, because they were not provided time records or summaries for review. (See MAR finding numbers 3.1 and 3.2).

Retention pay

The Director improperly approved the issuance of a $15,000 payment to himself on December 30, 2020. The payroll system indicated the purpose of the payment was "Retension [*sic*] Pay"; however, according to the former Business Office Manager, the Director told her $10,000 was for retention pay and $5,000 was for reimbursement of personal health insurance costs. The Director provided no supporting documentation for his claim or to support the reimbursement of personal health insurance costs, but told the former Business Office Manager the payment was approved by the Board. The former Business Office Manager indicated the $15,000 payment was recorded in the payroll system as retention pay because there was no category in the system for reimbursement of personal health insurance.

[4] Because the Director's time records and summaries only indicated the amount of overtime earned, not the specific day it was earned, we considered the days in which he was either scheduled to work as the sole paramedic for an ambulance and/or performed an ambulance run as the sole paramedic as reasonable overtime hours.

In recorded interviews, current and former Board members indicated they were not aware of this payment until after the Director's resignation in March 2021, and they did not approve this payment. In addition, the retention payment did not comply with district personnel policy No. 380, Retention Incentive, that provides for an annual $200 incentive increased by $20 for each completed year of service.

Holiday pay

The Director improperly approved payments to himself, totaling $4,380, for 72 holiday hours at time and one-half. Between November 15, 2020, and January 9, 2021, the Director claimed 96 holiday hours that were paid at time and one-half, totaling $5,256. The Director recorded 24 holiday hours during the pay period in which Thanksgiving is recognized, 24 holiday hours during the pay period in which Christmas is recognized, and 48 hours during the pay period in which New Year's Day is recognized. However, the Director was neither scheduled for an ambulance shift nor performed any ambulance runs on any of these 3 district approved holidays (Thanksgiving, Christmas, and New Year's Day). Per policy, the Director was only entitled to 24 hours of holiday pay, 8 hours per holiday, paid at his regular rate of $36.50 per hour, or $876.

District personnel policy No. 305, Holidays, lists applicable holidays for which personnel will be granted 8 hours per day. The policy further indicates employees must work the last scheduled day before the holiday and the next scheduled day after the holiday to qualify for holiday pay. The policy does not indicate at what rate these holiday hours will be paid, if worked.

Prior to November 2020, no holiday pay was paid if a holiday was worked. Administrative employees received 8 hours off for each holiday that were paid at straight time, and ambulance employees received 6 hours off per pay period (12 hours per month or 144 hours per year) for holidays that were also paid at straight time.

Questionable mileage reimbursements

The Director claimed 3,500 miles of travel and was reimbursed $1,945 for mileage between October 2020 and January 2021 that was questionable. The Board did not review or approve the 4 reimbursement requests, and documentation submitted by the Director to support these reimbursements was not adequate (See MAR finding number 3.6). Mileage reimbursement forms submitted by the Director did not indicate where he was traveling or the training events attended to ensure the reasonableness of total miles requested for reimbursement. In addition, for 3 of the 4 reimbursement requests, the Director used a form he created that differed from the Board approved form and claimed a higher IRS mileage rate than the Board approved $0.50 per mile. The Director also improperly attempted to request a mileage reimbursement in the amount of $560, just prior to his March 2021 termination, for a February 2021 online training. The district's Business Office Manager denied the reimbursement.

Employee benefit reimbursement account

The Director improperly authorized the creation of an employee benefit reimbursement account at a total cost of $11,385, and owes the CCAD $4,021 for reimbursements received.

Description		Amount
Administrative fees paid the account administrator	$	3,635
Advance funding of Director's accounts		7,750
Total CCAD funds paid		11,385
Account administrator refund of administrative fees		(3,635)
Account administrator refund of remaining Director's account		(3,200)
Withholdings from Director's payroll		(529)
Amount owed by Director	$	4,021

Between November 2020 and May 2021, $3,635 of administrative fees were charged by the third party account administrator and electronically paid from the district's bank account. The Director also improperly authorized $7,750 in electronic payments from the district bank account to advance fund his personal health reimbursement account ($5,000) and travel expense account ($2,750). The Director personally purchased hearing aids costing $4,798 and was reimbursed $4,550 by the account administrator from these accounts in February 2021 (no explanation was provided for the difference between hearing aid cost and the reimbursement amount). After the Director's termination, district staff worked with the account administrator to terminate these accounts and the vendor reimbursed the district $6,835.

In recorded interviews, current and former Board members indicated they remember informal discussions with the Director regarding the possibility of setting up employee benefit reimbursement accounts, but they never formally authorized or approved the accounts and knew nothing of the existence of any accounts until after the Director's termination.

Improper purchases

The Director paid for $108 in questionable shipping charges with the district's credit card on March 2, 2021, the day before his termination. The Director shipped 2 packages, one to his mother in Cape Coral, Florida, and another to the Oklahoma State Department of Health's Emergency Services Division. The former Business Office Manager indicated she did not know what was shipped in either instance, but she was able to determine the Director's Oklahoma paramedics license was expiring around this time. A review of current Oklahoma certified and licensed personnel lists the Director as licensed through June 30, 2023.[5]

[5] Oklahoma State Department of Health Emergency Services Division, Current Oklahoma Certified and Licensed Personnel, May 3, 2022, is available at

Final pay

The Director also improperly attempted to request a final payment, totaling $23,068, prior to his termination. According to the former Business Office Manager and a payroll report generated from the district's payroll system, prior to the Director's resignation on March 3, 2021, he entered 620 hours (80 regular hours, 276 hours of accrued sick leave, and 240 hours of accrued vacation leave at his hourly rate of $36.50 and 24 hours of overtime at his overtime rate of $54.75) into the district payroll system for a gross payment of $23,068 for the pay period March 7 through March 20, 2021. The former Business Office Manager indicated the Director was adamant he be paid right away, but she told him the funds would have to be transferred from another account before this could be paid. The Business Office Manager denied this payment because the Director had not worked these hours, and district policy did not provide for the payout of accrued sick leave or vacation to the Director.

Other staff

The Director improperly authorized $31,190 in overpayments and final payments to other district staff.

Overpayments

The Director improperly recorded time worked on 15 employees' time records and approved 19 payments to employees in December 2020 and January 2021, totaling $29,560 that were not authorized by the Board (see Appendix B).

Our review of the district's payroll system identified unusual increased payroll activity during the 4 bi-weekly pay periods between November 29, 2020, and January 23, 2021, with gross pay totaling approximately $308,000 or approximately $77,000 per pay period. During the prior 13 pay periods,[6] total payroll averaged less than half of this amount. During these 4 pay periods, we noted increases in the amount of recorded hours worked and claimed as overtime, holiday, and/or "other" in the payroll system. For example, a former registered nurse was overpaid $5,880, for the pay period December 27, 2020, through January 9, 2021, because additional hours were recorded on the nurse's timesheet in the Director's scripted handwriting. The former nurse's gross pay was $15,820 for this pay period, and the former nurse's timesheet reported 4 - 24 hour shifts worked the first week (96 hours) and 5 - 24 hour shifts worked the second week (120 hours), a total of 216 hours worked. The Director recorded "D/T" (double time) for 2 - 24 hour days worked (December 27, 2020, and January 2, 2021) and "Holiday" for 2 - 24 hour days worked (December 31, 2020 and January 1, 2021) in his scripted

<https://oklahoma.gov/health/services/licensing-inspections/emergency-systems/ems-division.html>, accessed July 29, 2022.

[6] Beginning November 1, 2020, the Director changed the date of the payroll to a bi-weekly pay period. Prior to November 2020, payroll was paid bi-monthly.

handwriting on the timesheet. However, only one district recognized holiday (New Year's Day) was worked during this pay period.

Despite only working 216 hours (80 regular hours, 24 holiday hours, and 112 overtime hours), the former RN was paid for 312 hours for this pay period (80 regular hours, 48 holiday hours, 136 overtime hours, and 48 "other" hours). The overpayment of 96 hours is the result of holiday and overtime hours overstated by 24 hours each and paid at time and one-half, and 48 erroneous "other" hours reported and paid at double time as shown in the table below:

Type of Hours Claimed	Number of Hours	Pay Rate[1]	Amount of Overpayment
Holiday	24	$52.50	$1,260
Overtime	24	52.50	1,260
Other	48	70.00	3,360
Total	96		$5,880

1 Time and one-half rate was $52.50 and double time rate was $70.

The other 18 overpayments identified during the 4 bi-weekly pay periods reviewed were caused by similar overtime, holiday, and "other" hours erroneously reported on time summaries or in the payroll system and paid at either time and one-half or double time rates. In most instances the Director's revisions were made in a different color ink, initialed, and/or signed documenting his approval. The former Business Office Manager and current and former Board members indicated these reported and paid holiday and overtime hours were not authorized and did not agree with district policy. Current and former Board members also indicated they were not provided time summaries or payroll reports for review (See MAR Finding number 3.3) and had no idea the extent of the increases in overtime or holiday pay. In addition, the current Board President indicated double time pay for "other" hours was not authorized by the Board.

Final payment

The Director improperly executed a separation agreement in July 2020, with a former employee for payment of $1,630 for hours scheduled, but not worked. The separation agreement suggests it was at the direction of the Board, but we found no vote made by the Board in the meeting minutes, and the separation agreement was not signed by a member of the Board. The current Board President indicated they were aware the Director reprimanded the former employee, but the separation agreement and payment were never provided to the Board for review or approval.

Overall conclusion

The lack of segregation of duties and adequate controls, and the absence of proper oversight, as discussed in the remainder of this report, resulted in overpayments, questionable mileage reimbursements, improper employee benefit reimbursements, improper purchases made by the Director, and

overpayments to other district staff going undetected until after the Director's termination.

Recommendation

The Board of Directors work with law enforcement officials regarding criminal prosecution of the improper overpayments, questionable and improper reimbursements, and improper purchases; and take the necessary actions to obtain restitution.

Auditee's Response

The Carroll County Ambulance District will work with all law enforcement officials during the course of any investigation.

2. Oversight and Segregation of Duties

The Board did not provide adequate oversight of the Director or establish segregation of duties over the various financial accounting functions. The Board did not adequately monitor the district's payroll and disbursements activity. Weaknesses identified throughout this report are significant and demonstrate a lack of segregation of duties and proper oversight by the Board that led to the misappropriation noted in MAR finding number 1.

Proper segregation of duties helps ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, timely supervisory or independent reviews of work performed and investigation into unusual items and variances is necessary. Good management practices require extensive and detailed oversight by the Board. Board members were not aware of the importance of providing adequate oversight.

Recommendation

The Board of Directors segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.

Auditee's Response

The Carroll County Ambulance District has segregated the accounting duties with oversight. All income that comes through the mail is received by the Director and input in a spreadsheet, the incoming mail is then forwarded to the Business Office Manager who inputs it in a separate spreadsheet. These spreadsheets are reviewed once a month by the Board to ensure no discrepancies. All outgoing payments are approved by the Board at the monthly meetings. The Business Office Manager has the only log in access to the accounting system and is the only one who can enter, change, or issue any accounting information. All accounting information is placed in Board member packets every month for their review. The Board member liaison meets with the staff at least once per month, without the Director present, to discuss any issues or concerns the employees may have. The Director only processes accounts receivable that come in via mail. All other accounts receivable is processed electronically through direct deposit.

3. Payroll Controls and Procedures

District payroll policies and procedures need improvement. From June 2020, through March 2021, district payroll and fringe benefit disbursements totaled approximately $1.1 million. We judgmentally selected for review 4 consecutive bi-weekly pay periods from November 29, 2020, through January 23, 2021, with gross payroll totaling approximately $308,000, and 30 employees' personnel files. As noted in MAR finding number 1, we also reviewed the Director's payroll during his entire employment.

3.1 Employment contract

The Board did not enter into a written employment contract with the Director. Between June 16, 2020, and March 10, 2021, the district paid the Director $117,164, including $44,348 in overtime, $5,256 in holiday pay, and $15,000 for retention and reimbursement of personal health insurance costs, without a written contract documenting his compensation or employment classification.

On July 9, 2020, the Board passed Motion No. 38-20 authorizing the Director be paid $75,000 annually; however, there was no formal approval for any compensation in excess of this.

Formal written employment contracts that clearly define all employment terms are helpful in ensuring all parties are aware of their duties and responsibilities, and to prevent misunderstandings. The lack of an employment contract and proper oversight by the Board contributed to overpayments to the Director discussed in MAR finding number 1. Current and former Board members indicated the Director refused to sign an employment contract.

3.2 Time records

Time records[7] and time summaries[8] prepared by the Director were not always accurate and sometimes lacked adequate detail. In addition, the Board did not review the Director's time records and summaries.

For 5 of the Director's 18 pay periods between June 16, 2020, and March 6, 2021, the Director did not record his daily hours on his time record, including 144 overtime hours, to support his time summary.

In addition, for 12 of the remaining 13 pay periods, the Director routinely reported excessive and unreasonable hours on his time record that did not agree to the time reported on his time summary. The Director's payments were based on the time reported on his time summary. Between September 16, 2020, and March 6, 2021, the Director recorded 2,828 hours on his time records including 83 - 24 hour days, while recording only 1,674 hours on his time summaries. For example:

[7] Time records recorded time worked each day or in total for the pay period.

[8] Time summaries calculated gross pay to be entered into the payroll system.

- For the October 16 through October 31, 2020, pay period, the Director recorded a total of 275 hours on his time record, including 7 consecutive 24 hour days. However, he only reported 152 hours on his time summary. No explanation was provided for the excessive number of hours reported on the time record or for the difference in hours reported on the time record and summary.

- For the December 27, 2020, through January 9, 2021, pay period, the Director recorded at least 12 hours for each of the 14 days in the pay period on his time record, including 10 - 24 hour days, for a total of 294 hours. However, he only reported 200 hours on his time summary. Again, no explanation was provided for the excessive amount of hours reported on the time record or for the difference in hours reported on the time record and summary.

In recorded interviews, current and former Board members indicated the Director's time records and summaries were not submitted for their review.

Without adequate time records, the district cannot ensure hours worked are properly documented. Periodic review and approval of time records and summaries by the Board would ensure the accuracy of hours worked by the Director and other employees. In addition, Fair Labor Standards Act (FLSA) regulation Section 29 CFR Section 516.2(a) requires employers to maintain accurate records of actual time worked by employees. The Director's failure to prepare accurate time records and summaries or submit them for the Board's review helped conceal the misappropriations in MAR finding number 1. Board members indicated they were unaware of the importance of reviewing the Director's time records and summaries to support his payroll.

3.3 Board review and approval process

The Board did not review or approve payroll transactions or reports. From June 2020 through March 2021, the Director did not provide payroll or direct deposit reports for the Board's review in their monthly meeting packets. The only payroll information provided to the Board was summarized in a budget to actual financial report. However, in a recorded interview the former Business Office Manager indicated the payroll and direct deposit reports were available for the Board's review had they requested the information.

By reviewing and approving monthly payroll reports and direct deposit reports, including signing or initialing the reports to indicate the approval, and periodically questioning and reviewing supporting documentation, the Board can help safeguard against possible loss or misuse of funds. Had the Board reviewed payroll reports, the staff overpayments noted in MAR finding number 1 could have been questioned. District officials indicated they were unaware of the importance of the Board's payroll review and approval processes.

3.4 Personnel files

The district did not maintain complete personnel files for all district employees. W-4 forms were missing for 3 of the 30 employees tested (10 percent) and I-9 forms were missing for 4 employees (13 percent). In addition, some personnel files did not include application forms, copies of driver licenses, drug screening forms, and copies of professional licenses, while other employee personnel files included these records.

To ensure documentation is maintained of all personnel actions, personnel files containing, at a minimum, documentation of the board's authorization for hiring the employee, the employee's authorized pay rate, and any subsequent changes in pay rate are necessary. In addition, the IRS requires employers to ensure a W-4 form is completed by each employee to support payroll withholding and taxes. Additionally, according to the Immigration Reform and Control Act of 1986, an individual may not begin employment unless an I-9 form is completed. Employers are subject to civil or criminal penalties if they do not comply. Without adequate personnel records, there is less assurance payments to employees are properly authorized. Board members were not aware of the importance of ensuring a complete personnel file was maintained.

3.5 Salary change notification

The Board did not approve employee salary change notification forms.

Director

The Director was overpaid $648 for regular hours worked and $113 for overtime hours worked because the $36.50 hourly wage rate reported on his Salary Change Notification form was incorrect. A total of 1,440 regular hours were paid at the rate of $36.50 instead of the Board approved rate of $36.05 (annual pay of $75,000 based on a 2,080 hour year). In addition, a total of 168 overtime hours were paid at the rate of $54.75 instead of $54.08 (time and one-half the rate of $36.05). In a recorded interview the former Business Office Manager indicated she prepared the Director's Salary Change Notification form based on his statement that the Board approved a $36.50 rate of pay. The form was signed by the former Business Office Manager and Director, but was not provided to the Board for review.

Other employees

The Director also authorized wages for 3 paramedics and an emergency medical technician (EMT) that were higher than what was approved by the Board in a July 2020 Board meeting. No explanation was included on their salary change notification forms justifying the increased pay. In addition, most salary change forms were signed only by the Director when the forms included 3 required signatures; namely, Human Resources, Supervisor/Manager, and Other Approving Authority.

According to the current Business Office Manager, 3 of the 4 employees found to have higher wages had additional duties so the Director approved

higher wage rates. It was not known why the rate of the fourth employee was higher than authorized by the Board.

Conclusion

Accurate and properly approved salary change notifications are necessary to ensure all parties are aware of changes to compensation and prevent misunderstandings. Current and former Board members indicated they were not provided salary change notification forms for review by the Director and were not aware of the importance of this form.

3.6 Mileage reimbursements

Mileage reimbursements exceeded the amounts authorized by the Board. In addition, mileage reimbursement forms do not require the employee to indicate where they traveled, in order to ensure mileage claimed was reasonable.

District personnel policy No. 381, Auto Mileage, indicates mileage will be paid at the rate of $0.50 a mile, and the district mileage reimbursement form was available in the district office. However, as noted in MAR finding number 1, the Director began utilizing a form he prepared rather than the Board approved form and allowed staff to claim mileage at annual IRS rates of $0.575 per mile for 2020 and $0.56 per mile for 2021. In recorded interviews, current and former Board members indicated there was no formal approval to change the district mileage rate to IRS mileage rates.

Without adequately detailed reimbursement forms there is less assurance claimed mileage is for legitimate business purposes. Board oversight of mileage reimbursements is necessary to ensure district funds are spent efficiently and policies are followed. Current and former Board members indicated they were not aware a form other than that approved by the Board was used to request mileage reimbursements.

3.7 Personnel policies

The Director revised district holiday, sick leave benefit, and bereavement leave policies in August and September 2020, without Board approval. The former Business Office Manager indicated the Director made the unauthorized changes to the holiday policy to allow holiday pay at time and one-half. He also likely changed the sick leave policy to allow for accrued sick leave to be paid upon termination as demonstrated in his March 2021 payroll request that was denied (see MAR finding number 1).

The introductory statement of the personnel policy manual indicates policies apply to all employees and changes are subject to Board approval. As noted in MAR finding number 1, the Director paid himself and other staff in excess of what was authorized by the Board or allowed by the Board approved personnel policies.

Properly approved personnel policies are necessary to ensure equitable treatment of employees and prevent misunderstandings. Current and former

Board members indicated they were unaware of the importance of the personnel policies or that the Director had revised policies without their approval.

Recommendations

The Board of Directors:

3.1 Ensure employment contracts are executed with the Director.

3.2 Ensure the Director's time records and summaries are reviewed for completeness and accuracy and properly approved.

3.3 Ensure payroll reports are prepared and the Board's review is documented.

3.4 Maintain complete personnel files for all district employees.

3.5 Ensure salary changes are approved.

3.6 Ensure mileage reimbursement forms are adequately detailed to indicate where the employee was traveling to and from, Board approved mileage forms are used, and mileage is reimbursed in accordance with district policy.

3.7 Ensure all personnel policy changes are approved.

Auditee's Response

3.1 Contract has been executed with the current Director and will be for all future Directors.

3.2 All time records, including the Director's, are entered into a web-based document which inputs it into a web-based spreadsheet. All of these entries are date and time stamped as well. The Scheduling Officer, Business Office Manager, and Director review and sign off on this document prior to payroll being issued. The Director's pay stub is submitted with the board meeting packet every month for review.

3.3 Payroll reports are included in the board meeting packet for the Board's review at monthly meetings.

3.4 Personnel files are completed and verified by the Director, Business Office Manager, and Captain of Training. This ensures that all appropriate information is maintained. Employee files are kept in hard copy form in the Director's office. We will also be establishing a digital copy kept in the Business Office Manager's office.

3.5 Salary changes are completed only after the proper documentation is signed and approved by the Business Office Manager and Director. If the employee is a new hire, then Board approval is not required for initial approval if the pay rate is within established limits. Anything outside that limit must be approved by the Board prior to administration.

3.6 New mileage reimbursement forms will be created and approved by the Board to include all necessary information. All mileage reimbursements will be paid in accordance with district policy and will be approved by the Board at the time of reimbursement.

3.7 Currently, all personnel policies that would cause any financial obligation changes to or from the district are approved by the Board prior to implementation. All personnel policies regarding day-to-day operations that will not cause any financial obligation changes to the district or foreseeable legal issues are approved by the Director. All policy changes will be accompanied by a statement from our legal consultant.

4. Disbursements

District disbursement policies and procedures need improvement. From June 2020 through March 2021, the district employees made non-payroll disbursements totaling approximately $577,000, including $32,224 in purchases with a credit card. We judgmentally selected and tested 24 disbursements totaling approximately $158,000 made during this time period. We also reviewed all credit card statements and invoices for the months January through April, 2021.

4.1 Procurement, Board review and approval, and unnecessary purchases

The district does not have a formal approval and bid policy, including procedures for sole source procurements or emergency purchases. Bids, or reasons for only obtaining one bid, were not documented for several purchases of goods or services during the period June 1, 2020, through March 31, 2021. In addition, the Board did not authorize significant purchases of medical supplies and some purchases of medical equipment were unnecessary.

Bidding

District personnel did not bid some significant purchases including medical cables and electrodes ($11,095), narcotic storage safes ($7,617), disinfectant sprayer ($5,591), uniforms ($3,191), and room dividers ($2,096).

In addition, the Director only obtained one bid or quote for some significant purchases of goods or service including leased cardiac monitors (with a total cost of $143,898 over the term of the lease), concrete work and other building improvements ($31,660), fire protective clothing ($27,332), and building filtration system and ductwork improvements ($5,859).

Approval and bid policies

The district does not have a formal approval or bid policy for the purchase of good or services. On July 9, 2020, the Board took steps to limit the purchases the Director could make without approval by passing motion No. 39-20 that places "a spending cap (without Board approval) for $1,000 for bedding situation and $2,000 for medically necessary equipment and drugs for Administrator[9] DeFelice." However, the district does not have a formal approval or bid policy that addresses limits for the purchase of other types of good or services.

For example, the Director purchased over $110,000 in medical supplies from 2 vendors, including 3 separate purchases totaling between $14,000 and $19,000, without Board approval or bids. In a recorded interview, the former Business Office Manager indicated the purchase of medical supplies was pre-authorized by the Board and at the discretion of the Director and would have been listed as such on the Treasurer's disbursement report provided to the Board for review and approval. Former Board members indicated the Board should have approved purchases of these significant amounts, and that during the height of the COVID pandemic, the district was having trouble finding medical supplies to purchase. However, some former Board members also acknowledged they did not realize how much the Director was spending on medical supplies because they were recorded as pre-authorized on the disbursement reports.

Unnecessary purchases

Board members consider some of the Director's purchases to be unnecessary. In recorded interviews most current and former Board members indicated, while Board approval was given for the lease of new cardiac monitors, the Director misrepresented the lease purchase to the Board indicating the district's prior cardiac monitors needed to be replaced because they were out-of-date (or warranty) and/or were not compatible with other entity's monitors. The current Director indicated this was not accurate. Further, 2 former Board members indicated surprise the district purchased "fire protective" clothing and another noted she found out the clothing was not needed after the Director left. The current Director indicated the purchases were unnecessary.

Conclusion

Formal bidding procedures for major purchases or services provide a framework for economic management of district resources and help ensure the district receives fair value by contracting with the lowest or best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in district business. To safeguard against possible loss or misuse of funds, the Board should approve all significant disbursements and review supporting documentation, bank information, and canceled checks. The Board has a fiduciary duty to the taxpayers to ensure district funds are only expended on necessary items and in a manner that

[9] The title of Administrator and Director are interchangeable.

provides the greatest benefit to the district. Current and former Board members indicated they were unaware of the importance of formal bidding procedures.

4.2 Credit cards

The Director made improper personal purchases using the district's credit card (MAR finding number 1), and the district has not adopted formal credit card policies and procedures, including who has the authority to increase monthly credit card limits and appropriate use for credit cards.

Between August and October 2020, the Director increased the monthly credit card limits from $4,100 to $20,000, and $1,500 to $5,000, without approval, which allowed greater purchasing authority. In recorded interviews, the current Board President and 2 former Board members indicated they were not aware and did not approve the increases in spending limits. In addition, prior to these spending limit increases, the Director authorized the former Business Office Manager to use her personal credit card on 2 separate occasions to make purchases totaling $13,208 for the district and seek reimbursement, circumventing the district's monthly credit card limits.

While credit cards can provide a useful alternative purchasing method, controls and procedures would be strengthened by clearly documented policies outlining the appropriate use and oversight of credit cards. In addition, credit card transactions are inherently riskier than other purchases because these purchases can be made prior to proper approval. That risk and the potential for inappropriate purchases or other misuse increases with excessive or unneeded limits and purchasing ability. By periodically evaluating actual credit card activity and adjusting limits, and/or the number of active cards needed, the Board can strengthen controls over credit cards and reduce potential risks for these transactions. Current and former Board members indicated they were unaware of the importance of having written credit card and disbursement policies.

Recommendations

The Board of Directors:

4.1 Establish formal bidding policies and procedures, including documentation requirements regarding bid specifications, the bids or quotes received, and justification for bids selected. The Board should also document its approval of significant disbursements in meeting minutes and by signing or initialing the monthly list of bills, and ensure disbursements are a necessary use of public funds and provide a benefit to the district.

4.2 Establish complete and detailed written credit card policies and procedures. In addition, periodically evaluate the need for each credit card issued and adjust employee credit card limits as deemed appropriate.

Auditee's Response

4.1 *The district will work with our legal consultant to institute a formal bidding and approval policy. The approval of all bids and reason for the bids selected will be documented in the monthly board minutes plus a signature page for all board members to sign approving or denying the bid. The Board will document its approval or denial of significant disbursements in meeting minutes and by signing the monthly list of bills, and ensure disbursements are a necessary use of public funds and provide a benefit to the district.*

4.2 *The district will work with our legal consultant to institute a formal credit card policy. CCAD will periodically evaluate the need for each credit card issued and adjust credit card limits as deemed appropriate to ensure necessary use of public funds. Currently, the credit cards are locked in the Business Office Manager's safe. No individual has a credit card issued to them. These cards are generally used for purchases that a check is not able to be used for.*

5. Sunshine Law

Some closed meeting minutes did not include sufficient details of the topics discussed to demonstrate compliance with statutory provisions, and on at least 2 occasions, records of the votes taken were not documented. In addition, Board meeting minutes were not always signed.

In addition, as noted in the Background section, the AGO filed a civil lawsuit against the district in the Circuit Court of Carroll County on April 9, 2021, for violations of 3 counts of the Sunshine Law[10]. A proposed consent judgment was filed with the Circuit Court on November 8, 2022, to resolve the lawsuit.

Section 610.020.7, RSMo, requires meeting minutes be maintained as a record of business conducted and to provide an official record of Board actions and decisions, and Section 610.021, RSMo, provides that the discussion topics and actions in closed meetings are limited to only those specifically allowed by law. Sufficiently detailed meeting minutes are necessary to demonstrate compliance with statutory provisions, such as Section 610.021, RSMo, and support decisions made. Additionally, signed and approved meeting minutes provide an independent attestation that the minutes are a correct record of matters discussed and actions taken during meetings. Board members were not aware of these requirements.

[10] During our review of Board meeting minutes from June 1, 2020, through March 31, 2021, we noted similar non-compliance with Section 610.020.1,2, and 4 and Section 610.021, RSMo; however, it is not included in the finding because of active litigation.

Recommendation

The Board of Directors ensure the purpose, contents, and other necessary information is included in closed meeting minutes; closed meeting votes are documented; and meeting minutes are signed.
